January 28-01-2020

To our stakeholders:

I am pleased to confirm that Chakwal Associates Engineering Technology society continues support to the United Nations Global Compact and its Ten Principles in the areas of Human Rights, Labor, Environment and Anti-Corruption. This is our Communication on Engagement with the United Nations Global Compact. We welcome feedback on its contents. In this Communication of Engagement, we describe the actions that our organization has taken to support the UN Global Compact and its Principles as suggested for an organization like ours that includes both civil society and academic activities in support of our commitment. As a research and technical & vocational educational NGO that engages in the global sustainability policy development process, provides research for countries and organizations engaged in that process, develops and delivers educational programs on climate and environmental change, human health and policy to youth, adults, and professional communities, our work spans across the environmental, social and governance spheres of social responsibility embraced by the UN Global Compact. We also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Irfan Iftikhar Gujjar
Chairman Director
