Subject: Communication on Progress 2020, The Medical Export Group BV

Dear Mr. Secretary-General,

Hereby I am pleased to reaffirm The Medical Export Group's support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

We are committed to continuously incorporate the Global Compact and its principles as part of the strategy, culture and day-to-day operations of our company, and to participate in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

In 2019 we have created a major impact on sustainability by placing 3,406 solar panels on our office and warehouse roof. These 3,406 panels generate 932,440 kWh (energy sufficient for 260 households) and are replacing the fossil energy sources we previously used with which we reduced our carbon footprint considerably and structurally. At the same time these solar panels generate a substantial amount of extra capacity which we supply back into the energy network creating also positive sustainability results on structural level on a broader scale. Furthermore, also in the field of working environment and employee empowerment further progress was made last year.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. Since we support public accountability and transparency, we also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Mr. Marcel Claessen
CEO
