

To our stakeholders:

I am pleased to confirm that Mercan Makina reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Ergun UYAR

HUMAN RIGHTS

Assessment, policy and goals

We clearly state that, we respect to provide free, trustworthy and fair working conditions.

Employer guarantees that any kind of discrimination is severely fined.

Implementation

We have created a module in our ERP system. Our employees can freely write down their suggestions and complaints in this module. We collect these notifications and forward them to the related authorities to take actions. All these actions are monitored.

Measurement of Outcomes

In our company, many employees who belongs to different ethnicity and races.

LABOUR

Assessment, policy and goals

We pay attention and fairly apply the rules and laws that our employees can use their personal benefits.

Referring to the Turkish Republic Constitution; in our company nobody can be forced to work, our employees can freely become a member of NGOs and labour unions in order to protect their social and economic benefits & interests and resign from these memberships.

Since we have over 120 employees, we must employ disabled persons. During the recruitment we pay attention not to discriminate between the candidates.

Child labour is strictly forbidden in our company. We do not have any employees younger than 18.

We do not force our employees for overtime work without their approval.

Employees are paid equally for the equal level of work.

Gender inequality is strictly forbidden in our company regulations.

Implementation

We have improved our physical conditions at the production and social area in order to provide better work conditions.

Measurement of Outcomes

As we stated above, we meet the requirements of UNGC and Turkish government in our system. All our records can be cross checked by the Turkish authorities.

ENVIRONMENT

Assessment, policy and goals

We have ISO:14001 certification and we pay attention to meet the requirements.

We keep all our wastes seperately, inform the Ministry of Environment and we dispose some of them at every 6 months time.

For the non-disposable wastes, we make an agreement with the companies for recycling.

We regularly conduct trainings every year in order to increase the awareness about environment.

Implementation

We are conducting all processes with our environmental engineer advisor.

Measurement of Outcomes

All our processes are registered both in our system and at the Ministry of Environment.
