RESPONSIBILITY TOWARDS OUR CUSTOMERS

The success of HBs is the result of quality in every detail, from organization to employees, and from logistics to service. These factors are combined to make HBs a reliable producer.

1. Product responsibility

IT IS OUR RESPONSIBILITY

To conform to all Standards of Quality and all production related logistics.

WE AIM TO

- Provide safe, good quality products & services that meet our customer daily needs everywhere.
- To identify, control and update the process steps that are critical to product safety.

WE SET

- Objectives and targets for product Safety and quality

WE ESTABLISH

- Audit procedures for monitoring compliance and improvement.

We assure our product quality and safety by creating a quality culture behaviour among all workers and employees.

Cascading quality concept is achieved through;

- Awareness & training through clear effective communication
- Spreading Quality Culture
- Health & Safety training
- Housekeeping & personal Hygiene trainings
- Facility security

We have rigorous control over the manufacturing processes, and we reinforce the need to comply with local and global rules and regulations, which have added extra complexity to our manufacturing process over the years. Technology is used to maximize product quality and reduce production costs. Creating closed-loop production systems has helped minimize adverse impacts in our production, and maximize product safety and hygiene.

STAKEHOLDERS

Stakeholder engagement and reporting is a crucial planning tool that helps companies achieving their business targets more effectively. It is a formal communication tool where companies and industries can engage to ensure sustainability and growth, while winning the support of its stakeholders as well

Our key Stakeholders

- Customers
- Employees
- Civil society (NGOs & Charities)
- Regulators
- Suppliers
- Farmers
- Workers
- Professional sector/labour associations
- Competitors

Tools and Frequency of Communication

- Social Responsibility reporting
- Global Compact Communication on Progress
- Focus groups
- Interviews with customers
- E-mails
- Conferences and events

Stakeholders Dialogue

As part of good corporate governance, we enter into discussions with our stakeholders and make an effort to respect their interests. We know that our stakeholders have a critical influence on whether our business thrives or fails. Their expectations and needs are what link our company's commitment to sustainability with our business success. Determining which issues are relevant to specific interest groups is the job of the HBs sustainability committee, whose members maintain regular contact with our stakeholders. The committee analyses and evaluates sustainability issues at regular intervals to establish their relevance to our stakeholders and their significance for HBs. We identified and set out the topics relevant to our stakeholders and to HBs itself in a materiality matrix.

For Essential Oils & Aromatic Products

Stakeholder analysis

Our business puts us in contact with many different groups of people, including clients, suppliers, employees, investors, and representatives of governments, residents of the neighbourhoods surrounding our facilities, the media, opinion makers and NGOs. For us, maintaining an active dialog with these external interest groups serves as a tool to help us identify expectations and develop credible solutions, which is why we foster discourse every place where we do business – discourse, in other words, that plays out on an international level as well as in regional and local settings.

We have a presence in over 15 countries and sell more than 60 products throughout the world. Our clients expect high-quality products, innovative solutions, reliable delivery and an attractive cost-benefit ratio. Our employees expect us to support them and demand career advancement opportunities – in an environment where their work is rewarded both personally and professionally. The society in which we hope to be successful expects us to contribute to its social success. Nature expects us to preserve its resources as much as we possibly can. And our expectation of ourselves is that we meet all of the above expectations.

WOMEN EMPOWERMENT PRINCIPLE:-

Margining the role of women and limiting it as a voter or a donator in both economic and political fields moreover excluding her from occupying higher positions, leads to unhealthy working conditions. Therefore Women empowerment principles came to improve it.

Hashem Brothers is applying the WEPs following principles:

Principle 1: “Establish high-level corporate leadership for gender equality” serve a solution to this issue. It stated that leadership promotes gender equality which can be achieved through:

- Affirming high-level support and direct top-level policies for gender equality and human rights.
- Establishing company-wide goals and targets for gender equality and monitor progress
- Engaging stakeholders in the development of company policies, programmes and implementation plans that advance equality.

WEPs Principle 2: “Treat all women and men fairly at work - respect and support human rights and non-discrimination”. It created clear and simple steps to manage this problem through three keywords “Equal Opportunity, Inclusion and Non-discrimination”. This happens when companies

- Pay equal remuneration, including benefits, to all women and men.
- Ensure that workplace policies and practices are free from gender-based discrimination
- Implement gender-sensitive recruitment and retention practices and appoint women to managerial and executive positions.
- Assure sufficient participation of women in decision-making.
- Support access to child and dependent care by providing services, resources and information to both women and men.

WEPs Principle 3: “Ensure the health, safety and well-being of all women and men workers”, is also one of the most important principles. It’s achieved by

- Taking into account differential impacts on women and men and provide safe working conditions.
- Establish a zero-tolerance policy
- Strive to offer health insurance and ensure equal access for all employees
- Respect women and men workers’ rights to time off for medical care and counselling for themselves and their dependents

WEPs Principle 4: “Promote education, training and professional development for women.

- Invest in workplace policies and programmes that open avenues for advancement of women at all levels and across all business areas, and encourage women to enter non-traditional job fields.
- Ensure equal access to all company-supported education and training programmes, including literacy classes, vocational and information technology training.
- Provide equal opportunities for formal and informal networking and mentoring.
- Articulate the company’s business case for women’s empowerment and the positive impact of inclusion for men as well as women.

WEPs Principle 5: “Implement enterprise development, supply chain and marketing practices that empower women. through:

- Expand business relationship with women-owned enterprises, including small businesses, and women entrepreneurs.
- Support gender-sensitive solutions to credit and lending barriers.
- Ask business partners and peers to respect the company’s commitment to advancing equality and inclusion.

- Respect the dignity of women in all marketing and other company materials.
- Ensure that company products, services and facilities are not used for human trafficking and/or labour or sexual exploitation.

WEPs Principle 6: “Promote equality through community initiatives and advocacy.

- Lead by example – showcase company commitment to gender equality and women’s empowerment.
- Leverage influence, alone or in partnership, to advocate for gender equality and collaborate with business partners, suppliers and community leaders to promote inclusion.
- Work with community stakeholders, officials and others to eliminate discrimination and exploitation and open opportunities for women and girls.
- Promote and recognize women’s leadership in, and contributions to, their communities and ensure sufficient representation of women in any community consultation.
- Use philanthropy and grants programs to support company commitment to inclusion, equality and human rights.

WEPs Principle 7: “Measure and publicly report on progress to achieve gender equality.”

- Make public the company policies and implementation plan for promoting gender equality.
- Establish benchmarks that quantify inclusion of women at all levels.
- Measure and report on progress, both internally and externally, using data disaggregated by sex.
- Incorporate gender markers into ongoing reporting obligations.

- Also, HB signed the CEO statement of Support for the UN Women Empowerment Principles for Gender Equality in 2015.

CEO Statement of Support

We, business leaders from across the globe, express support for advancing equality between women and men to:

- Bring the broadest pool of talent to our endeavours;
- Further our companies' competitiveness;
- Meet our corporate responsibility and sustainability commitments;
- Model behaviour within our companies that reflects the society we would like for our employees, fellow citizens and families;
- Encourage economic and social conditions that provide opportunities for women and men, girls and boys; and
- Foster sustainable development in the countries in which we operate.

Therefore, we welcome the provisions of the Women's Empowerment Principles – Equality Means Business, produced and disseminated by the United Nations Entity for Gender Equality and the Empowerment of Women (UN Women) and the United Nations Global Compact. The Principles present seven steps that business and other sectors can take to advance and empower women.

Equal treatment of women and men is not just the right thing to do – it is also good for business. The full participation of women in our enterprises and in the larger community makes sound business sense now and in the future. A broad concept of sustainability and corporate responsibility that embraces women's empowerment as a key goal will benefit us all. The seven steps of the Women's Empowerment Principles will help us realize these opportunities.

We encourage business leaders to join us and use the Principles as guidance for actions that we can all take in the workplace, marketplace and community to empower women and benefit our companies and societies. We will strive to use sex-disaggregated data in our sustainability reporting to communicate our progress to our own stakeholders.

Please join us.

One of our achievements this year in Social responsibility is "For Life" Certificate, for which Hashem Brothers was awarded by IMO on July 2016.

We scored the level of 5 leaves which means outstanding performance from the first year. It is the certificate holder who is responsible for permanent compliance with the applicable requirements.

Content of For Life - Social Responsibility Certification on which we were audited:

- Core labour rights respected
- Excellent working conditions
- Responsible relations to local community
- Environmental Responsibility
- Certified products originate from Social Responsibility certified production

It is very challenging for us because we have already started Social Responsibility agenda back in 2005 with the Global Compact. This is facilitated our mission in obtaining this certificate that is very unique in our agricultural field.

ENVIRONMENT PRINCIPLES

- 7- Businesses should support a precautionary approach to environmental challenges;
- 8- undertake initiatives to promote greater environmental responsibility; and
- 9- Encourage the development and diffusion of environmentally friendly technologies.

Policy:

Hashem Brothers is committed to respect and fulfil the environment pollutants standards according to the Business Conduct & the Egyptian environment and labour law to provide safer workplace. Hashem Brothers is committed to apply the Global compact environment standards through its SR activities as well as ISO 26000 standards.

Environmental protection is a fundamental value of HBs; accordingly, it has developed a strict environmental program that goes beyond compliance to set higher standards in achieving our target in reaching zero emissions and waste footprints. We believe that waste is the result of not using materials efficiently. By reducing our waste, we will definitely make production processes more efficient. Waste activities such as recycling, waste control, emission reductions, pollutants reduction, and energy use reduction is a priority to us when we set our business core strategy and yearly budgeting.

We aggressively control our environmental footprints and this is how we achieve our target. We encourage best practices among our employees. We support and give them the space to come up with environmentally friendly solutions to reduce environmental footprints and they are rewarded on their efforts by increasing their yearly bonuses. We provide our employees with frequent orientation and training sessions about environmental footprints and its impact and possible alternative methods related to this industry to reduce business resulted foot prints. We maintain a good monitoring and assessment system to measure the effectiveness of our applied waste management system. We ensure that we confirm with all local environmental laws and regulations. **Our aim and goal is to:**

- Improve Environmental Performance and Responsible Use of Resources such as energy, water and materials, more efficiently
- Responsible use of fertilizers
- Develop new and cleaner products meeting the growing customer demand for greener products
- Improve business and reduce the environmental risks resulting from our production by Exchange Experience Regarding Social Responsibility
- improve the health conditions in plantation areas
- Develop our agricultural techniques to the use of water and provide sustainability of our products & reclamation of desert land
- For the 9th year, Hashem Brothers continues its tree cultivation program with the collaboration of “The Egyptian Association for Environmental and Community Services”. Trees are cultivated each year in the most polluted areas of Cairo.
- The company supports an initiative of promoting the use of cotton shopping bags instead of plastic bags which can be harmful on the environment.

Environmental practices implementation through our stakeholders

- Changing irrigation system at our farms by using drip irrigation instead of flood irrigation
- Decrease the Electricity consumption using power saving lamps.
- Using Heat Insulators on the water pipes.
- Using the condensation water in irrigation.
- Using the distilled water (By-product of distillation) as a new product. (Floral water).

The Diffusion of Environmental Friendly Techniques “Our Organic Compost Production”

Our organic compost production site helps in promoting organic agriculture and eliminates the use of chemical fertilizers. Further, it helps in cleaning our area from chicken manure due to the large number of chicken farms in the area surrounding our facilities which:

1. Encourage farmers of our supply chain to use organic fertilizers
2. Help many of our supply chain farms to become organic certified
3. Turn the waste of our factory into organic compost
4. HBs' new project turning chicken manure into organic compost for the elimination of the use of chemical fertilizers and its negative side effects on health of farmers and on the soil.
5. The project aims in the spread of the organic concept in the Egyptian agricultural sector.
6. The project also contributed in providing new jobs for the unemployed people of the Villages next to HB factory.

- **Promote Sustainability Practices with our clients as an action of the environmental practices through a large project agreement with a multinational company regarding sustainability to buy sustainable product, sustainable agriculture and we facilitate the lands and the place to establish this project.**

New Project Partnership between us and one of our key Customers in product sustainability 2010-2015 in agriculture and production of strategic products

Supporting sustainable agriculture:

Incorporating sustainable agricultural 'factors' into a long-term ingredient sourcing plan;

Working hard to improve crop yields and reduce cost;
