

Deventer, 10 March 2020

To our stakeholders,

To make sure the timing of the reporting of our impact for the UN Global Compact we request to adjust our reporting cycle to the 1<sup>st</sup> of May for this year and all years to come. By this adjustment the information delivered by Royal Auping will be most accurate and specific, based on the results of the previous year. Also it ensures we can deliver a full, up-to-date impact report to all our stakeholders related to UNGC.

Kind regards,

Koninklijke Auping bv
