To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We delay in creating, sharing and publishing our COP report because we have to change the publication date of our sustainability report (which includes the COP). The first proposed date was April 21 to continue the publication of previous years, but we are preparing a public launch with our interest groups on June 2020. We want the COP to be launched simultaneously in this activity, so we appreciate your understanding to wait for the publication of our COP.

We here by ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by June 2020 at the latest.

Sincerely yours,
