H.E. Antonio Guterres

Secretary-General

United Nations

New York, NY 10017

USA

Bridging Health Foundation supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent of support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and general public.

We also pledge to participate in and engage with UN Global Compact in the following ways:

(1) We are doing research on different Sustainable development goals (SDGs) targets and establishing a SDGs think tank. (2) We are establishing linkages for SDGs between different stake holders. (3) Youth engagement for SDGs promotions.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (EOC) that describes our organization's efforts to support the Implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according the Global Compact COE policy.

Sincerely yours

Yasir Waheed, PhD

President, Bridging Health Foundation
