

Dear Sir/Madame,

Fitesa is currently finalizing the last parts of the 2019 sustainability report, which will also serve as our COP for UN Global compact. It will be difficult to finish by the deadline april 4, and I thus ask for a grace period of 30 days. I saw on the web page that the grace period that can be requested is 90 days, and that would be more than sufficient.

Fitesa remains committed to the UNGC principles and if any further clarifications are needed on this topic, please do not hesitate to contact me directly.

Best Regards

Anders Fogelberg
