STATEMENT OF CONTINUED SUPPORT FOR THE GLOBAL COMPACT

On behalf of KCE Electronics Public Company Limited, I am pleased to reconfirm our company's commitment to the United Nations Global Compact.

KCE has been a member of the United Nations Global Compact (UNGC) since 2007. KCE's operations and strategies have continued to increasingly align with the UNGC's ten principles in the areas of Human Rights Protection, Labor Practices, Environmental Responsibility, and Anti-corruption - it is as a driver of the business growth.

We are submitting our annual Communication on Progress (COP) which covers the period of 2019.

This COP is reported in accordance with the published guidelines on disclosure with separate sections on commitment, systems, actions, and performance. In 2019, there was an increase in actions to advance the principles of human rights, labor, environment, and in the area of anti-corruption and corporate governance. In this annual COP, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations.

KCE remains committed to achieving a sustainable business and to providing market-leading services to our customers. We believe that our continuing adherence to the principles of the UNGC provides the means to realize this aim, and that the COP provides us with the opportunity to learn and act across all issue areas and to extend our experience to all stakeholders, as well.

This COP will be available both on the Global Compact website and the KCE website:
