To our stakeholders:

I am pleased to confirm that Artios Global Ltd reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to sharing this information with our stakeholders using our primary channels of communication.

This year has seen our business demonstrate our compliance to good practices centred on environment stewardship and quality of services through our successful certification to ISO 14001 and ISO 9001. We believe there is a clear link between our ISO certified systems and the Sustainable Development Goals, this includes reducing waste through responsible consumption, reduced pollution and the health and well-being of all the people that our business effects.

In addition, we have refined and re-issued policies related to gender and diversity around human rights and labour law, along with robust anti-corruption. These have been submitted to institutional donors including the UN (as a sub-contractor to the HALO Trust) and the UK government for projects in Fragile and conflict affected states including Afghanistan and Somalia. These have enhanced our compliance to the UN Global Compact and we will continue to seek opportunities to improve them further.

We intend maintain these certifications and continually improve our performance as a UN Compact member company.

Yours sincerely,

29 March 2020
