

Commitment to the ten principles of the UN Global Compact

"SBAB's sustainability work is deeply rooted in our company values and governance model. We understand that, in order to create a sustainable future, the business community, including SBAB, has a decisive role to play. I am hereby pleased to reaffirm SBAB's support of the ten principles of the United Nations Global Compact in the areas of human rights, labour, environment and anti-corruption. SBAB as a company, and myself, share the ambition to continue the implementation of sustainability aspects in all parts of SBAB's operations".
