Communication on Progress 2019

Ratos signed the UN Global Compact in 2013. As part of our commitment to this initiative, I am pleased to report on our activities and progress in our Communication on Progress for 2019 and to reconfirm our support for the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. This report covers the fiscal year 2019 and consists of this letter and our annual and sustainability report 2019. In the report we outline our approach to integrating the principles into our active ownership and give examples of actions and activities taken by us and our companies during the year to progress our work.

With this communication, we want to emphasize our ambition to continue to integrate the Global Compact principles into our business: into the strategy, culture and day-to-day operations of our company.

Best regards

Jonas Wiström
CEO
Ratos AB
