To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that shows our continuous support for the UN Global Compact.

We are late in sharing and posting our COP report due to a slight delay in creating the PDF document containing our Annual Report 2019, which is the document containing our progress.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the website by May 31st at the latest.

Kind regards,
