

Kasese Humanist School

E-Mail Newsletter April 2020

Brief message from the School Director

On behalf of Kasese Humanist School, am grateful for this opportunity to send a word to all of our parents, supporters and fans.

For the last couple of years since we created our schools, we have noted significant progress in enrollment, properties, staffing and expansion of our charitable works by helping more people.

Our online presence has helped as much in publishing and documenting whatever we do. The number of people liking our pages has also been increasing day by day.

Our pupils/students enrollment has been going up over the years and the local perception about HUMANISM and being HUMANIST is getting accepted in daily life even though there are some few conservative religious minds that still come up with some misconceptions about us and what we do.

Right now, all our schools are closed due to a lock down due to Covid19 that was announced by our President as a preventive measure against corona virus that is a pandemic globally. The schools will reopen until further notice from the government when the situation normalizes.

Progress over the years

We currently have 3 campuses and all of them on spacious lands that we own and manage by ourselves. We have put permanent buildings made from bricks, concrete cement, some shuttered and with aluminum or iron sheet roofs.

The schools are: Rukoki Campus, Muhokya (Bizoha) campus & Kahendero campus.

Enrollment

The schools right now have a total enrollment of 861 students at the close of this term for the 3 campuses.

Staffing

Kasese Humanist School has a staffing of 54 and these staffs are categorized as Teaching staffs and Non teaching staffs.

School Motto : *With Science, we can progress*
