

Introduction

Introduction

We exist to empower people to progress in their lives through learning

At its very core, Pearson is a company driven by a sense of purpose – we exist to empower people to progress in their lives through learning. The deeper we integrate sustainability into our business and strategy, the bigger and more positive will be the impact we have on society – and the more likely we are to prosper over time. We are committed to advancing UN Sustainable Development Goals, particularly goal 4 on quality education, goal 8 on decent jobs and economic growth and goal 10 on reducing inequality, and the UN Global Compact principles on human rights, labour, the environment and anti-corruption.

John Fallon Chief Executive

For the first time this year, we have brought together our annual and sustainability reports, demonstrating our commitment to more deeply embed sustainability across our business. We have compiled this supplement document containing additional key information for our stakeholders interested in sustainability and ESG, including:

- 2 Our new 2030 sustainability strategy, materiality assessment and stakeholder engagement
- 5 ESG performance data & assurance
- 15 Progress on 2020 plan targets
- 19 Our reporting frameworks: Our Global Reporting Initiative (GRI), UN Global Compact and UN Sustainable Development Goals (SDGs) content index

2030 Sustainability Strategy, materiality assessment and stakeholder engagement

Introduction

Overview

In our annual report, we have introduced a new 2030 Sustainability Strategy and take stock of progress towards our 2020 sustainability plan.

Looking towards 2030, our focus is identifying, supporting and developing people so they can reach their full potential and supporting the UN Sustainable Development Goals, (UN SDGs) particularly goal 4 on quality education, goal 8 on decent jobs and economic growth, and goal 10 on reducing inequality.

The focus areas of our strategy are below. Later this year, we will release our targets and more detail about how we will advance these objectives.

2030 Sustainability Strategy

Pearson sees a world of talent

Talent is the world's most valuable resource. We want to unleash it. Our Sustainability Strategy has three main pillars:

Advance equity in learning

We have the role and responsibility to help overcome barriers to lifelong learning, from socio-economic hurdles to equity and health challenges.

Build skills for sustainable futures

We will use our skills, assets and partnerships to equip people with the technical skills, knowledge, creativity and resilience needed to achieve the UN SDGs.

Lead by example

Our 2030 strategy will continue to focus on building the foundations for a sustainable business, such as our commitments to respect human rights and minimise environmental impacts across our value chain.

Materiality analysis & stakeholder engagement

Our new sustainability framework was developed based on a materiality analysis that considered how Pearson's business priorities and stakeholder expectations have changed and are likely to evolve. Our materiality assessment was undertaken with Forum for the Future, a well-respected sustainability charity.

As we approached this work, we have taken several key considerations into account:

- > Engaging our stakeholders: We engaged key stakeholders to understand the issues most important to them and where they expect Pearson to play a role.
- > Identifying current and future trends: We conducted futures research to help identify the social, environmental and economic issues that will influence learning, our ecosystem of partners and Pearson's business in the years to come.
- > Linking to business priorities: Our process was designed to align with and support our corporate strategy and brand strategy.
- > Supporting global goals: We will continue our commitment to advancing the UN SDGs and leverage their targets and indicators in our goal-setting.

Active, ongoing input and engagement from internal and external stakeholders is key for Pearson. Our key stakeholder groups include employees, shareholders, learners, educational institutions & educators, employers, governments & regulators, business partners & suppliers, and international, non-governmental & non-profit organizations. Detailed information is on p14-15 of our Annual Report.

For this materiality analysis, we conducted 50 interviews with internal and external stakeholders. The interviews asked stakeholders to reflect on the contribution Pearson can make to a sustainable future, explore opportunities and risks in the wider landscape, and identify the assets, relationships, skills and resources that Pearson has the ability to influence through its business activities. We also conducted internal focus groups to dive more deeply into three themes that came out of the interviews.

2030 Sustainability Strategy, materiality assessment and stakeholder engagement continued

Introduction

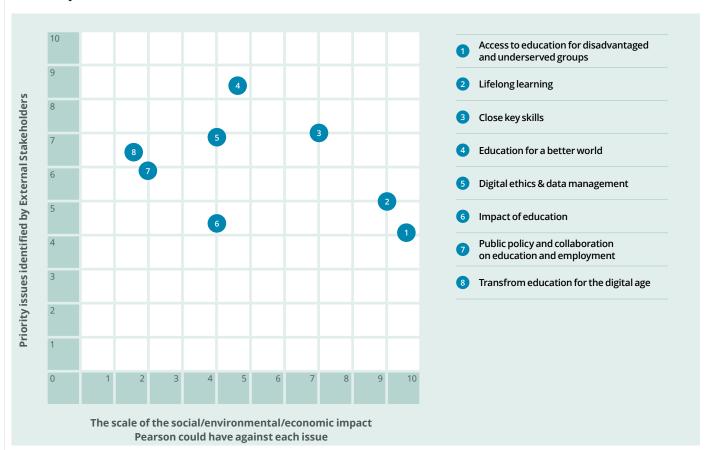

The interviews, focus groups and research identified eight high-impact issues that approximately 30 business leaders discussed at workshops to inform our materiality matrix, below. The output from these workshops was broad agreement on the material issues that guide Pearson's new sustainability strategy:

- 1 Access to education for disadvantaged and underserved groups: Using our products, services and partnerships to help disadvantaged/underserved groups (for example, low-income, women, underrepresented minorities, people with disabilities etc) gain access to education and help them learn effectively so they have opportunities to improve their lives.
- 2 3 Lifelong learning, closing key skills gaps: Supporting learners to navigate disruption and gain new skills that will help them find a new livelihood, including mental support and resilience for progressing through challenging times.
- Education for a better world: Leveraging our products, services and voice to support learning about content and skills related to social and environmental issues in order to help learners prepare for green jobs, work for companies who are increasingly focused on sustainability and in their everyday lives.
- Digital ethics & data management: Upholding the highest standards of data privacy and leveraging data to improve outcomes and support personalized learning targeted at improving outcomes for the most vulnerable learners.

- Impact of education: Ensuring and demonstrating that our products and services improve learning outcomes and help learners make progress in their lives for example, by enabling them to obtain workforce skills, get a job, earn a better livelihood or be a better global citizen.
- Public policy and collaboration on education and employment: Engaging and partnering with governments and other organizations to inform public policy and shape new cross-sector approaches that improve education and outcomes, including the needs of vulnerable learners.
- 8 Transform education for the digital age: Account for and address the impacts of Pearson's digital transformation on learners, society and the environment.

Sustainability foundations for social and environmental impacts: In addition to the areas where Pearson can make the biggest positive impact, our stakeholders expressed clear expectations that we continue to scale efforts around human rights and the environment in our operations and supply chain. This includes our ongoing work to promote good labor practices and working conditions and mitigate impacts on climate and forests across our value chain.

Environmental data assurance

Our environmental sustainability data is assured by Corporate Citizenship, an independent third party. The scope of the assurance covers our energy consumption, carbon emissions, 100% renewable electricity and carbon neutrality commitments. Read more at https://www.pearson.com/sustainability/reporting-policies.html.

Social

Our employees

The focus on simplification at Pearson continued in 2019 with the goal of making the company more efficient and focused. During the year, we completed the disposal of our US K12 Courseware business and reported a further reduction in headcount.

We recognise that our cost savings programs bring operational risks and one way we mitigate these is through our commitments to our people as a responsible employer.

These are to inform, support and equip colleagues to work collaboratively and to innovate; encourage and reward high performance, nurture and develop talent and foster a culture where everyone is able to realise their individual potential; provide a safe and healthy work environment for our employees and our stakeholders; help our colleagues understand how we are doing as a company; provide information, support and consult colleagues who leave the company.

We describe how we engage our employees, invest in talent, manage organisational change and promote diversity and a culture of inclusion in our Annual Report (p14, p21-23, p43 and p64).

Performance, Career Development and Learning

In 2019, we reviewed our approach to learning & development for our employees. We recognise that it is increasingly important for Pearson to develop new skills, capabilities and behaviors to keep pace and differentiate us from our competition. We are therefore looking for 2020 to redefine the learning agenda within Pearson and will appoint a senior leader to drive this agenda.

Introduction

Progress on 2020 targets

We are approaching the end of Pearson's 2020 Sustainability Plan, which is focused on three pillars: 1) reaching more learners; 2) shaping the future of learning; and 3) being a trusted partner and supporting our commitment to the UN SDGs. Pearson has made good progress across the pillars of our plan.

Reach more learners

Improve access to and affordability of products and services

We have built strong foundations to reach more learners from disadvantaged backgrounds and support them to overcome barriers through products and services. See examples on p17, 20, 36, 37 and 38 of the Annual Report.

Collaborate to reach underserved learners

Through partnerships involving non-governmental organisations, teachers, education experts, governments and others, we are also tackling some of the biggest education challenges.

Read more about our partnership with Save the Children on p18 of the Annual Report and CAMFED on p18 of the Annual Report.

Shape the future of learning

Build skills that foster employability and inclusive economic growth

We are better preparing students to progress in learning, work and life through a range of products and services. For example, 'Pearson's Career Success' programme, which has reached 135,000 learners since 2018, helps students set career goals, fill skills gaps and prepare for employment.

Promote education for sustainable development

We are increasingly integrating and promoting sustainability content and skills, including in our BTEC qualifications and US Higher Education Courseware products. We also released a white paper with Arizona State University, Business Fights Poverty and the UN Principles for Responsible Management Education on how to scale up and partner on opportunities to advance learning and skills for sustainable development. Read more on p18–19 of the Annual Report.

Engage in multi-stakeholder research, dialogue and collective action to solve global challenges

We are active participants in multi-stakeholder, collective action initiatives that aim to strengthen global education systems, explore the role of the private sector in global education and development, and advance the UN SDGs.

See organisations on p26 of the Annual Report.

Be a trusted partner

Respect and support our people, customers and communities

We successfully achieved our goals to develop and implement an Editorial Policy to ensure content is appropriate (see p19) and report on Pearson's GB gender pay.

In 2018 and 2019, we also reported on Pearson's GB gender pay and continue to take actions to further reduce the gap.

Protect our natural environment

We met our 2020 targets to reduce our operational Greenhouse Gas emissions by 50% (using 2009 as the base year) and reduce energy use in our buildings on an absolute basis by 50% (using 2013 as the base year) early. Read more on p22–23 of the Annual Report.

Build a sustainable supply chain

We have taken a number of steps to continuously improve how we consider social and environmental issues in our supply chain and procurement. Read more on p23–25 of the Annual Report.

	Timeframe	Status	Update/AR reference
Pillar 1: Reach more learners			
Improve access and affordability of products and services			
Research on underserved groups			
Continue research on the lifelong learner, engaging the broader ecosystem of educators, employers and policymakers.	2019-2020	•	See AR p16-17 ongoing
Inclusive access			
Enable 3 million students to access more affordable digital course materials from the first day of class by 2019 from a 2016 baseline.	2019	•	We have reached 2.1m as of the end of 2019 and the program wil continue going forward
Accessibility			
Develop and publish a global accessibility policy.	2019	•	See AR p17
Tomorrow's Markets Incubator			
Pearson concluded the Tomorrow's Markets Incubator programme in 2019 and re-integrated teams into the		iness group	os.
Prototype and test three new venture solutions in market.	2019		
Design in-market pilots for successful prototypes.	2019		
Continue support for the more mature ventures.	2019		
Collaborate to reach underserved learners			
Every Child Learning			
mpact over 25,000 learners in the following ways:	2019		10,387 children used
- 9,500 children will take part in a blended learning program using the math app in schools			the Space Hero App ir classrooms
– 2,280 children will take part in remedial Arabic to help them catch up with their peers			2,301 children with
– 14,700 children will take part in sports for development classes, helping them to develop			Arabic remedia
effective communication skills, build peer-to-peer relationships and gain a sense of belonging.			classes 24,053 children take
– 360 teachers will receive subject-based training in addition to child protection and psychosocial			part in sports for
support training, aiming to provide more effective lessons in a safe and supportive learning environment.		S	development 377 school staff with ubject-based training See AR p18
Pillar 2: Shape the future of learning			
Build skills that foster employability and inclusive economic growth			
Personal and Social Capabilities Framework			
Support the authors of Pearson content to integrate explicit instruction in Personal and Social Capabilities.	2019		his is ongoing and wil be an element of our 2030 Sustainability Strategy. See AR p16
Pearson Career Success			
Grow users of the Career Success Program steadily to reach 150,000 students by 2020.	2020	•	135,000 reached by the end of 2019
BTEC qualifications			
Increase the number of BTEC registrations outside the UK, particularly in markets where vocational education is developing.	ongoing	•	31% increase in 2019 See AR p37
CAMFED partnership			
Certify 5,000 women with BTEC qualifications through our partnership with Camfed by the end of 2019.	2019		We have awarded 2,595 BTECs See AR p18

Progress on 2020 targets continued

Completed
In progress

	Timeframe	Status	Update/AR reference
Promote education for sustainable development			
Implement education for sustainability strategy next steps.	ongoing	•	This is a key elemen of our 2030 Sustainability Strategy See AR p16
Engage in multi-stakeholder research, dialogue, and collective action to solve global challenges			
Act as a leader in and participate in multi-stakeholder initiatives and partnerships that promote quality education, lifelong learning, and the role of business in society.	2019 and ongoing	•	See AR p26
Pillar 3: Be a trusted partner			
Empower and support people			
Human rights			
Offer additional human rights training opportunities for our employees.	2019	•	This is an element o our 2030 Sustainability Strategy
Safeguarding			
Improving impact evaluation for training programs, to better understand how participation affects staff and learner perceptions about safety.	2019	•	
Develop action plans to address gaps identified through an assessment of how our processes for learners to raise concerns about harassment or abuse in our direct delivery businesses align with the UN Guiding Principles on Business and Human Rights.	s 2019	•	See AR p19
Relevant, appropriate, and inclusive content			
Establish and roll out a global Editorial Policy by 2020 to ensure Pearson content is appropriate, effective, and relevant for all learners, for the 21st century and beyond.	2020	•	See AR p19
Incorporate the Editorial Policy into Pearson's Code of Conduct.	2019		See AR p19
Assign the online learning module to new starters in content-facing and contents support functions.	2019	•	See AR p19
Ensuring that Editorial Policy checkpoints are incorporated into our product development processes.	2019	•	See AR p19
Product safety			
Maintain our ongoing target of zero product safety incidents or recalls.	2018	•	
Talent			
Continue to develop our executive and senior management succession bench with a strong emphasis on looking at opportunities within business line, P&L and country MD level roles for women and diverse talent.	2019	•	See AR p22-23
Progress on our journey toward greater pay transparency and what that means to Pearson through education and standardization.	ongoing	•	See AR p23
Provide integrated people solutions that empower the business to drive results, outcomes, growth, and employability for learners.	ongoing	•	See AR p21-22
Use the outputs from the Innovation Jam and the results of our Organizational Health Survey to create clear, tangible action plans.	2019	•	See AR p21
Diversity and inclusion			
Extend our reporting on gender pay to cover our global operations by 2020.	2020		See AR p23
Institute an annual D&I dashboard review and goal-setting session with each business and function leadership team.	2019		See AR p22

	Timeframe	Status	Update/AR reference
Health and safety			
Complete remaining assessment work in areas of occupational road risk and establish improvement action plans as appropriate by 2020.	2019		
Implement initial action plans for global incident reporting, documentation, and record keeping, and occupational health coming out of the review beginning in 2019.	2019		
Carry out annual H&S audit and assurance program, achieving at least 95% of plan in 2019.	2019		
Further assess and establish key performance indicators and other program measurements, with continuing effort to target further alignment with GRI metrics.	2019	•	
Volunteering and giving			
Invest 1% pre-tax profit in community activities.	2019	0	We have taken a decision to move away from using this as a metric, focused on input, and are developing KPIs to demonstrate utcomes and impacts towards our 2030 ustainability Strategy.
Protect our natural environment			
Environment			
Reduce our Greenhouse Gas emissions by 50% by the end of 2020 using 2009 as the base year.	2020		See AR p22-23.
Reduce energy use in our buildings on an absolute basis by 50% by the end of 2020 using 2013 as the base year.	2020	•	See AR p22-23.
Build a sustainable supply chain			
Undertake a supply chain review project to assess and improve our approach to managing social, including modern slavery, and environmental sustainability risks, practices and impacts across our supply chain.	2019	•	See AR p25.
Increase our diverse spend with our Global Procurement Category Leads.	2019		See AR p25.
Adopt a corporate policy on supplier diversity, and include supplier diversity language in our RFPs.	2019		See AR p25.
Work with our prime (Tier I) suppliers to integrate diverse utilization goals and spend targets in order to increase our overall diverse spend with the Tier II suppliers that supply goods and services to Tier I	2019		See AR p25.

suppliers.

Global Reporting Initiative (GRI), UN Global Compact and UN Sustainable Development Goals (SDGs) content index

We have applied relevant international reporting standards and frameworks, including the Global Reporting Initiative (GRI) guidelines, UN Global Compact (UNGC) Ten Principles, and the UN Sustainable Development Goals (SDGs). Together our Annual Report and this document have been developed in accordance with the GRI Standards and serve as our UN Global Compact Communication on Progress.

This is our **Communication on Progress** in implementing the principles of the **United Nations Global Compact** and supporting broader UN goals.

We welcome feedback on its contents.
