Re.: Global Compact Letter of Commitment

Mr. Secretary General,

I am pleased to confirm the renewed commitment of the Verallia Group, one of the world leaders in glass packaging for beverages and food products, to the UN Global Compact and its Ten Principles concerning human rights, international labor standards, environmental protection and the fight against bribery and corruption.

With this letter, I am reiterating the Verallia Group's total commitment since 2016 to place these Ten Principles at the heart of its strategy and to promote them to all its partners and stakeholders. As an international manufacturing group established in 11 countries, the Verallia Group is aware that its involvement is necessary to achieve the goals adopted by the United Nations. Our corporate social responsibility policy is organized around three priorities: acting for the safety and development of our teams, helping to preserve the environment by being a benchmark in the circular economy, nurturing relationships with our stakeholders.

As provided for in the membership charter, we will continue to publish an annual Communication on Progress (COP), this year our Extra-Financial Performance Statement, in order to report, in full transparency, on the actions carried out by the Verallia Group to implement and apply the UN Global Compact's Ten Principles.

Please accept, Mr. Secretary General, the assurances of my highest consideration.

A handwritten signature in black ink, appearing to read "M. Giannuzzi", written over a horizontal line.

Michel Giannuzzi
