Corporate Social Responsibility & The Global Compact

The Ten Principles of the UN Global Compact

Corporate sustainability starts with a company's value system and a principled approach to doing business. This means operating in ways that, at a minimum, meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption. Responsible businesses enact the same values and principles wherever they have a presence, and know that good practices in one area do not offset harm in another. By incorporating the Global Compact principles into strategies, policies and procedures, and establishing a culture of integrity, companies are not only upholding their basic responsibilities to people and planet, but also setting the stage for long-term success.

The UN Global Compact's Ten Principles are derived from: the Universal Declaration of Human Rights, the International Labour Organisation's Declaration on Fundamental Principles and Rights at Work, the Rio Declaration on Environment and Development, and the United Nations Convention Against Corruption.

About TechGirls

TechGirls support talented young women from less privileged backgrounds to become the next tech leaders. TechGirls helps to afford the tuition, room and board to study at a college or university in their home country. However, TechGirls is much more than a traditional scholarship program. TechGirls create opportunities to gain experience beyond academic education, specifically in the areas of leadership and entrepreneurship. Therefore, TechGirls is not a charity program – it actually helps promoting talents and provides opportunities.

TechGirls help make talented young woman dreams come true. By sponsoring scholarships for college and university education, so that young woman can explore careers in technology, medicine and business, and become pillars of their country's economy. With access to education, girls can achieve amazing things: they can launch businesses, become engineers and researchers, run schools, build factories and lead governments.

#SDG8 Decent Work And Economic Growth

At Danoffice IT we empower vulnerable women in Kenya.

We buy coffee beans through the NGO NGUVU who buys directly from local female farmers cutting all the middlemen giving the women higher yield. The women agrees on a contract where the NGO secures education of their children and other necessities. This way we can support the women and their children with food, clean water, medical treatment and education.

One of the stories:

Vulnerable women like Betty is daily fighting to keep her small farm with around 300 coffee trees. It is a struggle to provide her three children with food, clean water and medical treatment. Betty's biggest dream is to give her children an education, so they can get a future with possibilities.

Betty's dream can now come true, because she is part of the NGUVU coffee initiative. She is not only getting financial support, so she can give her children an education. She also gets 3-4 times more yield on her coffee beans than before and she is getting skill development, so she can continue optimizing her harvest.

Balance

Communications on Progress (COP) 2019

Danoffice IT has a work-life balance policy encouraging flexible working hours and tolerance for personal and family issues and or needs.

Danoffice IT HQ in Svendborg Denmark was build in 2007 and won a prize for its architecture and for its working environment.

The building is designed to incorporate a series of innovative green building techniques while operating within tight cost constraints. Functional, economic, and architectural criteria were used as the basis for the design. In addition, a minimal amount of material and technology is used throughout the design while maximising the quality of the working environment and the building's energy performance. A modern building with technologies within ventilation, heating, shutters and water consumption. All staff has ergonomic chairs, lighting done by experts and height adjustable desks.

Our Employee Manual is another tool to inform and update staff on our values, company profile, history, global strategy and information on working terms and conditions: illness and absence, overtime, annual staff interviews and regulations.

Continuously we strive to educate and develop our employees professionally and personally through seminars, workshops and through daily coaching. Biweekly management gather all staff to share knowledge of professional character or to inform about the work we do with our customers in the field. Here we also learn about cultural differences in order to understand the diversity of the world we live in.

Communication and information within a company is key for success and employee satisfaction. Therefore we have a very clear and transparent communication of our strategy plan where staff is attending biweekly company meeting and weekly department meetings where status on current business and future initiative is discussed in a open and inclusive way where everyone can ask questions and receive information on the strategy and the business.
