

Dear Mr. Secretary-General,

I am pleased to confirm that Tenaris supports the ten principles of the United Nations Global Compact with respect to human rights, labor, environment and anti-corruption. With this communication, we express our intent to advance with these principles within our sphere of influence. We commit ourselves to include the United Nations Global Compact and its principles as a part of our company's strategy, culture and daily business activity.

To make a clear statement of this commitment to its stakeholders and the general public, Tenaris has included its pledge with the ten principles of the United Nations Global Compact in its 2019 Sustainability Report, released in 2020, where it also describes the actions that it is taking in support of this commitment.

We recognize that a key requirement to participate in the United Nations Global Compact is the annual submission to the Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress every year according to the Global Compact COP policy.

Tenaris is a leading global manufacturer and supplier of steel pipe products and related services for the world's energy industry and other industrial applications. We operate an integrated network of steel pipe manufacturing, research, finishing and service facilities with industrial operations in the Americas, Europe, the Middle East, Asia and Africa.

Sincerely yours,

Paolo Rocca
