

Mr. Secretary General,
His Excellency Antonio Guterres
Secretary General of the United Nations
United Nations Headquarters
New-York, NY 10017

Paris, **31 JUL. 2020**

Dear Mr. Secretary General,

EDF first joined the UN Global Compact in August 2001 and put the ten UN Global Compact principles at the core of its mission as a public service company delivering a critical good to almost 40 million customers in the world. I would like, once again, to renew my support to this initiative.

The UN Global Compact, together with the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinational Enterprises provide us with a solid foundation of internationally recognized principles for building a more sustainable business. Such principles are fully reflected in the EDF Group's "*raison d'être*" adopted by our shareholders in May 2020 "*To build a net zero energy future with electricity and innovative solutions and services, to help save the planet and drive wellbeing and economic development*" and in our commitment to achieve carbon neutrality by 2050.

We acknowledged that the Communication of Progress (COP) is an important tool of transparency that gives us an opportunity for an internal and external annual evaluation of our achievements. The EDF Group has been reporting at the "Advanced level" since 2012 and is committed to reaching this level of excellence in the future.

Sincerely yours.
