### **PART 1: STATEMENT OF CONTINUED SUPPORT**

#### **Global Compact COE**

#### **Renewal of the commitment to Principles for Responsible Management Education**

At the outset, we wish to apologize for the delay in filing this COE, due to the current effects of the COVID-19 pandemic.

On the occasion of this new COE, I am pleased to confirm that EUCLID reaffirms its support to the United Nations Global Compact and its Ten Principles in the areas of Human Rights, Labor, Environment and Anti-Corruption. This is our Communication on Engagement with the United Nations Global Compact.

We welcome feedback on its contents. In this Communication of Engagement, we describe the actions that our organization has taken to support the UN Global Compact and its Principles as suggested for an organization like ours. We also commit to sharing this information with our stakeholders using our primary channels of communication.

As an institution of higher learning involved in the education of current and future leaders, EUCLID (Euclid University) is committed to upholding the UN-backed Global Compact Principles and Principles of Responsible Management Education. Indeed, EUCLID is engaged in a continuous process of improvement in the application of these Principles. In this document, we undertake to report on progress to all stakeholders and to exchange effective practices with other academic institutions.

As a university and intergovernmental institution under international law, we believe that the values of ethics, social responsibility and sustainability are important in all disciplines and professions and our commitment to PRME should be across all EUCLID schools.

Therefore, EUCLID's 2020-2024 Strategy features Social Responsibility & Sustainability, aligned with the UN Sustainable Development Goals, as one of its strategic aims.

We also understand that our own organizational practices should serve as examples of the values and attitudes we seek to convey to our students and stakeholders.

Through our high level of global partnerships engagements, we continue to encourage other academic institutions, and associations to adopt and support these Principles.

Yours sincerely,

/po/Winston Dookeran/

## **PART II: DESCRIPTION OF ACTIONS**

During the period covered (2018-2020), EUCLID continued to deeply integrate global compact concepts in its activities and curriculum. A specific course (code UN-SDG) dealing with the UN sustainable development goals was developed which also covered global compact essential knowledge.

In compliance with the logo use guidelines, EUCLID has continued to raise awareness about the UN global compact values and network whenever possible, especially in regions/countries where knowledge of the global compact is limited (Central African Republic, Gambia for instance).

EUCLID has continues to expand its partnership network and engagement with UNGC and UNPRME principles in mind, for instance when becoming a party to the International Anti-Corruption Academy (IACA).

In planning development for 2020-2022 and beyond, notably developments in business projects (including entrepreneurship entities), UN global compact principles were reviewed and taken into account.

Summary of actions:

- Ongoing development of courses / curriculum review
- New partnerships aligned with UN principles
- Use of global compact principles in internal processes/IQA
- Use of global compact principles in entrepreneurship/business initiatives
- Promotion of global compact at local events including two interfaith roundtables

### **PART III: MEASUREMENT OF OUTCOMES**

- Operational proposal to create global compact network in CAR
- Delivered curriculum/course for graduate programs in Climate Change and Sustainability Studies
- Developed partnerships with other global compact participants or promoting global compact affiliation (notably IACA)
- Encouraged two related business initiatives (SwissCorps and EUCLIDE France) to join network, which was done in 2019/2020.
