Dear Mr. Secretary-General,

I am pleased to confirm that Prometeon Tyre Group reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In this annual Communication on Progress, Prometeon Tyre Group describes actions in order to continually improve the integration of the Global Compact and its principles into its business strategy, culture and daily operations.

Prometeon Tyre Group explores the Sustainable Management Model with governance tools to support maintenance and creation of values, relationships with Stakeholders and related connection with the development of financial, productive, intellectual, human, natural, social and relational capitals. By incorporating the Ten Principles of the UNGC into strategies, policies and procedures, and establishing a culture of integrity Prometeon Tyre Group is not only upholding its basic responsibilities to people and planet, but also setting the stage for long-term success.

Through a pro-active dialogue with company stakeholders, employees, communities, clients, end-consumers, suppliers, institutions and non-governmental organizations, Prometeon Tyre Group wants to integrate their expectations into Company development strategy.

Prometeon Tyre Group considers the Zero Emission Mobility one of the main target concepts of the future for the planet. Extending sustainability in the value chain and implementing innovative products and services will continue to be among the most important business priorities. Synergies between safety and sustainability measures should be exploited encouraging the use of zero-emission modes of transport, new and safer forms of mobility may also go hand-in-hand with improved access to mobility for all members of society.

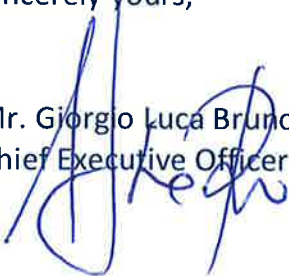

New technologies are radically changing the mobility landscape and therefore disrupting conventional transport business models and industries, bringing new opportunities in the form of new mobility services and new players, but also challenges in which Prometeon Tyre Group is always working in order to leads to Sustainable solutions.

Regarding product safety, performance and eco-sustainability R&D Department is always working with the aim to improve retreading methods that can enhance the re-utilization process of end-of-life tyres in new products and thus providing a sustainable solution to circular economy. In 2019 the Company improved the environmental impact through new processes to reduce the industrial impact, saving energy and reducing water consumption to produce the tyres with the aim to reduce CO2 emissions.

Since the beginning of 2020, Prometeon Tyre Group is committed to the fight against the Covid-19 which started in 2019 and became a priority for the world and the Companies. Prometeon Tyre Group has joined forces to support workers, communities and businesses affected by the COVID-19 pandemic. In fact, Prometeon Tyre Group immediately took actions for the health of people who are human capital and for the protection of the company's assets. Moreover, the Company carried out actions to support the World Health Organization and the Public Health Emergency of International Concern through several activities aimed to support the internal and external community.

Sincerely yours,

Mr. Giorgio Luca Bruno
Chief Executive Officer
