Dear Mr. Guterres,

As a signatory to the UN Global Compact, I am pleased to reaffirm Sterlite Technologies Limited's commitment to the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. These principles are pivotal to our company's strategy, culture and day-to-day operations. Our policies, community initiatives as well as our operations are aligned to the UN Sustainable Development Goals and the Global Compact's 10 principles.

In addition to CSR and Sustainability, we have also begun collaborative projects which advance the broader global and national development goals of the United Nations, particularly the Sustainable Development Goals.

The Communication on Progress we are submitting describes our company's efforts to implement the Ten Principles and includes the outcomes achieved. We will be making this communication available to our stakeholders and the general public. We support public accountability and transparency, and therefore commit to report on progress annually according to the UN Global Compact COP policy.

Sincerely,
