WE SUPPORT

29.10.20

To our stakeholders,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to Consentio's need to respond quickly to the impact of Covid-19 on the food supply chain, and subsequently, our clients. We have been preoccupied handling our customers in the HORECA sector, trying to provide the best solutions to them and the entire supply chain so it is fortified and resilient even during such unprecedented times. We look forward to reviewing our progress towards impact goals in the next months and referring back to you with our progress.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by January 29 at the latest.

Sincerely yours,

A handwritten signature in blue ink, appearing to be the initials "B" followed by a flourish.
