

KOKUSAI GAKUIN EDUCATIONAL FOUNDATION

November 25th, 2020

United Nations Global Compact Office

This document states that Kokusai Gakuin Educational Foundation will continue to support the United Nations Global Compact (UNGC), as well as its efforts to achieve the UNGC's 10 Principles and the Sustainable Development Goals (SDGs). We pledge to continue to do our utmost to put these into practice.

We have been participated in UNGC activities in the following two main areas since we joined the UNGC in 2018. The details of the efforts are as shown in the attached document.

1. Building an education system promotes and develops human resources.
2. Incorporate UNGC-promoted SDGs initiatives into our curriculum and extracurricular activities, and implement educational programs related to the SDGs through all faculty members and students.

We state in our medium- to long-term plan "Establishment of the KG Brand" that we will contribute to the spread of UNGC's 10 principles and SDGs. We also aim to develop human resources who can contribute to global society as well as solve problems in local communities based on our founding spirit of "Sincerity, Personal Growth, Benevolence, Reliability, and Harmony."

We pledge and declare that we will continue to take on social responsibility as an educational foundation for training the next generation of community leaders, and strive to promote the 10 principles of the Global Compact and SDGs for the local community, Japan, the world, and the future.

Sincerely yours,

Hiroyuki Ono

Chairman

Kokusai Gakuin Educational Foundation
