# Climate Change Campaign

Climate action by, and for, women

**13** CLIMATE  
ACTION

**NOPlanetNOLife** Our planet is nearing an environmental crisis, which is already being felt in many important sectors to our society, such as human health, agriculture and food security, water supply, transportation, energy, ecosystems, and others. These impacts are expected to become increasingly disruptive to our world, societies and livelihood. Human civilization will crumble by 2050 if we don't stop climate change now.

We as business women and important active members of the society have to take serious measures to prevent this crisis and integrate sustainable solutions into our business and daily lives. Leading by example!

For the future of BPW

# Requirements to obtain the environmental BPW credentials

BASIC REQUIREMENTS			
Nº	BASIC CRITERIA FOR SDG 13: CLIMATE ACTION	EVIDENCE	FULFILLED
1.1	The project is accompanied by a climate change impact assessment that identifies the negative and positive effects of climate change.	Conduct an evaluation using tools such as environmental impact assessment or other	FULFILMENT
1.2	The project incorporates measures for planning and managing the ecosystem where it will be developed.	List of measures and KPIs for monitoring	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.3	The project incorporates measures for planning and managing water resources (purification or potabilisation).	List of measures and KPIs for monitoring	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.4	The project incorporates energy efficiency measures to avoid the negative effects evidenced in the evaluation and enhance the positive ones.	List of measures and KPIs for monitoring	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.5	The project incorporates measures to reduce fossil fuel consumption in order to avoid the negative effects evidenced in the evaluation and enhance the positive ones.	List of measures and KPIs for monitoring	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.6	The project incorporates waste management measures to avoid the negative effects evidenced in the evaluation and enhance the positive ones.	List of measures and KPIs for monitoring management hierarchy: prevention	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.7	The project promotes environmental improvement and respect through awareness, dissemination and participation to make people aware of the negative impacts of climate change.	Training and information activities	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.8	The promoter and project partners/suppliers have environmental certifications and/or policies.	Criteria of partners/suppliers and selection	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.9	The basic criteria are incorporated into both the planning and implementation phases of the project.	Criteria of partners/suppliers and selection	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO
1.10	The project promotes the circular economy, "closing the life cycle".	Final responsibility plan based on circularity	FULFILMENT <input type="checkbox"/> YES <input type="checkbox"/> NO

**There's only one Earth but so many of us, how beautiful it can be if we all worked hard to take care of it.**
