

Communication On Engagement

To our Stakeholders,

I am pleased to reconfirm that Global Forum for Media and Development supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this Communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Organisation Name will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Progress in the last years is that changes in administration department. We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Engagement (COE) that describes our company's efforts to implement the ten principles.

Sincerely yours,

Mona El-Saghir

Naglaa Al-Sahar: The Maxim Foundation is not money its goal, but rather self-denial and selflessness, so that money becomes for it a means to make others happy

Naglaa AL-Sahar: The main target of Maxim foundation is to make others happy with a self-denial attitude

Naglaa Al-Sahar:- Our Motto is (Happiness of others) and to seek the badly in need villages to play the right role to support by all means the unlucky people.

Mona El -Saghir: Naglaa Al-Sahar is one of the esteemed women in Egypt, in serving societal causes,

As soon as you speak to this lady you will feel her own target (SERVING SERVING) A lady with a mission to serve her community.

Mona El-Saghir, : Naglaa is really very respected and trusted by those in her community.
