To our stakeholders

We recognise that the key requirement for participating in the un global compact is the annual preparation and posting of communication on progress (COP) that comprise of the CEO statement of continued support for the un global compact, A description of practical actions with regard to the principle of the un global compact and a measurement of outcomes or expected outcomes.

We are late in creating , and sharing our cop report due to the fact that most of our projects were delayed by the national lock down

We hereby ask for an extension period in order to be able to post a cop that describes our company's efforts and progress to implement the principle of the un global compact . Our new COP report will be unglobal COMPACT website by the 30th March latest

Yours sincerely

Mr Lehlohonolo Makhube

Director General (GLOBAL ENERGY MIGRATION)
