INSTITUTO
Jô Clemente

Pioneirismo, Ciência e Inclusão da
Pessoa com Deficiência Intelectual

Belief

We believe in the potential of people with intellectual disabilities and in an inclusive society.

Purpose

Promote prevention and full inclusion of people with intellectual disabilities in society through integral personal development; high-quality service; search, production and spread of knowledge; influence on public policies; support to families and awareness to society.

Values

- Ethics and transparency;
- Respect for differences;
- Innovation and improvement;
- Collaborative attitude;
- People appreciation.

Aspiration

To be the protagonist of the intellectual disability cause at the national scene.

Cassio dos Santos Clemente

—
Chairman of the Board
of Administration,
Jó Clemente Institute.

From APAE DE SÃO PAULO to Jô Clemente Institute

We started the year as usual, with tireless pursuit of achieving our goals and trying to advance the transformations linked to intellectual disability. Among these transformations, the most emblematic and important: our evolution from APAE DE SÃO PAULO to Jô Clemente Institute.

For almost two years, the board of directors and senior management, addressed this issue, evaluating risks, impacts and opportunities, without losing the commitment to the cause. However, it was clear that the brand which was useful for us for so many years, that we help to create and make it to be respected, was not useful anymore.

Commitment to the cause of disability intellectual was demanding to make a bigger leap, a broader perception, with strategic vision, with an eye on the future, but without losing perception of the present that surrounds us.

Our pioneering vocation and the aim of opening borders were manifesting once again. As leaders of a cause, it was necessary for us to make that step towards

future. We also understood that there are too many realities throughout our country and the National Federation of APAEs (FENAPAEs) needs to take care of the whole and not the exceptions.

It was up to us to express our discomfort, change our clothes, get out of the movement, but never leaving the cause.

The name that we thought to replace the old one, which was very well known for 58 years, could not be another. Owner of a non-conformity, of an enormous desire to transform, and a unparalleled vigor and inventiveness: Jô Clemente, one of the founders of APAE DE SÃO PAULO, flag and icon of the movement and the cause. The aim was to invigorate, innovate, without losing the original commitment.

By the end of the year, after another period of hard battles to achieve goals and fight against prejudice and segregation barriers, we

sleep APAE DE SÃO PAULO and woke up Jô Clemente Institute.

Now we operate nationally, therefore we have more commitments and more ambitions. We continue and we will continue to transform us, evolving and pushing the boundaries of limitation and prejudice, seeking innovation and technology for the daily life of the person with intellectual disabilities, besides supporting and guiding families, generating more and more applied knowledge, to build a new reality and establish new references to this subject, very important to us.

Corporate Governance

We assumed an even greater challenge in 2019

Daniela Machado Mendes

General Superintendent
of the Jô Clemente Institute

2019 was signed by big changes in the Organization. In partnership with the Dom Cabral Foundation, we developed a new leadership model, through the training of managers from all the areas of the Organization. During the Day of Leadership Development, we held a survey about the leaders' perceptions of operations, we trained them in people management and we also made different workshops about relevant topics for the new present, listing the skills that the Organization expects from a manager.

Our board of directors was fully dedicated to make a transparent transition, following the criteria that good corporate governance practices determine. We remain attentive to the guidelines of our Code of Conduct and the Compliance Program that we apply since 2018, always attending for ethics and the improvement of processes, which represented a considerable gain in efficiency in all our

services and programs supporting the social inclusion of people with disabilities. The process of name change from APAE DE SÃO PAULO to Jô Clemente Institute was structured and required the preparation of all the Institution to ensure a more agile, modern and innovative management.

Our actions, projects and programs are aligned to the Convention on the Rights of Persons with Disabilities promulgated by the UN, and also we follow the Brazilian Inclusion Law (LBI). We reaffirm our support for the United Nations Global Compact, it aims to promote the sustainability of corporations in the areas of Human Rights, Work, Environment and Anti-corruption. Through the Public Policy and Advocacy Centre and the Articulation and Mobilization Program, we defend

rights, the inclusion of people with intellectual disabilities and the protection of Human Rights, internationally recognized.

We take on the challenge of spreading good practices throughout our country, aiming to increase the impact on society. Our goal is to generate and disseminate knowledge, share technologies, implement projects of inclusion and strongly act in defense of the rights of people with intellectual disability. The Neonatal Heel Prick Test, that we brought to Brazil in 1976, continues being highlighted and our intention is to fight for all Brazilians have the right to precocious diagnosis and technical-scientific support.

There is a lot to do, but we are deeply convinced that with our good management practices and with the support from all the society, it will be possible to build a more fair and equitable country, with social inclusion and respect for human diversity.

Assistance

2019

Our scope

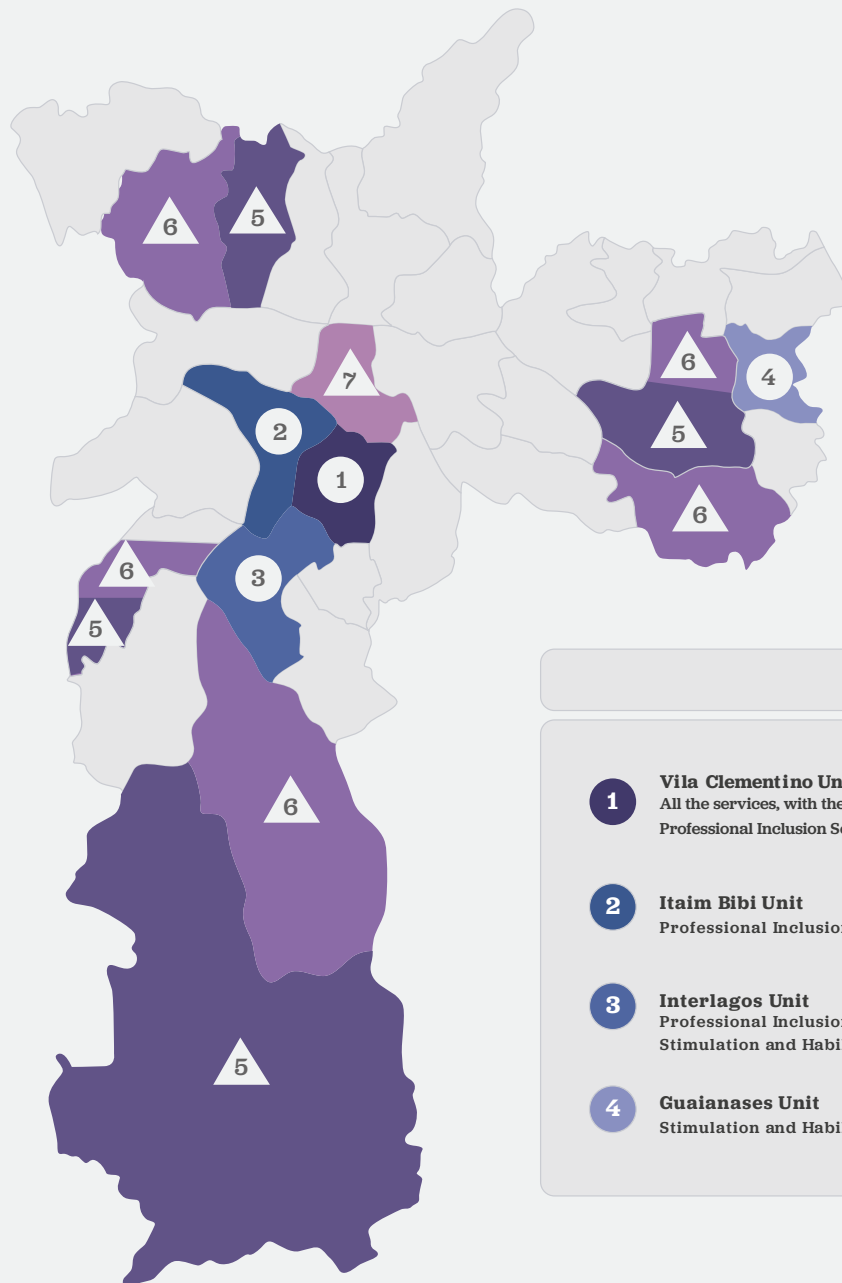

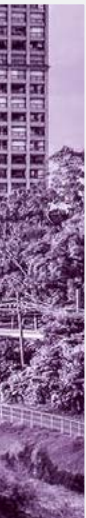

We are concerned with facilitating access for people with intellectual disabilities and their families to the assistance and services we offer. For this reason, the Jó Clemente Institute is present in several points in the city of São Paulo, guaranteeing easier ways of locomotion to

people.

Our services are integrated, as we have the synergy of spaces combined with multi and interdisciplinary teams. We work with the objective of ensuring the best experience for the people assisted and their families.

Public Assistance Service

Satisfaction index

To welcome the public and strengthen the relationship with all the people assisted, we have the Customer Service, which counts with professionals dedicated to guide families, make appointments and therapies and receive compliments, complaints, doubts and suggestions. Our intention, with this service, is to forward the demands that arise with the greatest efficiency and assertiveness, making life easier for people who come to us.

The biggest challenge is to offer an ever better service, decreasing waiting time and providing solutions to improve the relationship with the audience. In 2019, we

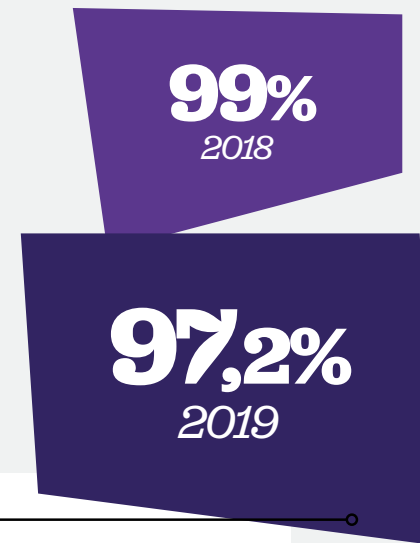

implemented a tool for monitoring, management and analysis of social media that allowed greater interaction with our customers and increased agility in resolving demands. Since the implementation, we have responded more than 800 cases.

It is also a constant concern to satisfy our costumers. Therefore, we conduct periodic satisfaction surveys in order to seek resolutions and maintain continuous improvement of services.

Health

We are a reference in the Neonatal Heel Prick Test in Brazil. Pioneer in the test, the Jó Clemente Institute has the largest laboratory in Latin America, capable of detecting up to 50 diseases.

Satisfaction index
Legal person
(hospitals and
maternities)

Laboratory

The Jó Clemente Institute implemented the Neonatal Heel Prick Test in Brazil in 1976 and, since 2001, we are a Reference Service in Neonatal Screening (SRTN) accredited by the Ministry of Health. Currently, we are responsible for conducting the examination of 80% of the babies born in the state capital and 67% of the newborns of the State of São Paulo, through the Brazilian Unified Health System (SUS) and private maternities and hospitals.

Our laboratoy is the largest in Latin America in terms of the number of tests carried

out and, since its implementation, has screened more than 16 million Brazilian children.

We have always worked for the development and mandatory testing in the Country. Supported by the 1988 Constitution, the test became compulsory and free throughout the national territory in 1992. In 2001, with our support and influence, the Ministry of Health instituted the National Neonatal Screening Program (PNTN).

Positive diseases cases

Offered Tests

BASIC Neonatal Heel Prick Test

It is mandatory and free across the country. In the State of São Paulo, it identifies six diseases: Phenylketonuria, Congenital Hypothyroidism, Cystic Fibrosis, Sickle Cell Anemia and other Hemoglobinopathies, Congenital Adrenal Hyperplasia and Biotinidase Deficiency.

SUPER Neonatal Heel Prick Test

It is one of the most comprehensive Neonatal Screening tests in the world: it screens 48 diseases. It includes in its panel, in addition to the ten diseases identified in the Basic Neonatal Heel Prick Test and MORE, another 38 diagnoses performed by means of the advanced technology of Mass Spectrometry in Tandem - MS/MS.

Neonatal Heel Prick Test for SCID and AGAMA

Detects a group of serious genetic diseases in which there is no production of T and/or B defense cells or protective antibodies. The test may be performed together with any of the above tests or at the discretion of the physician.

Active Search

Our laboratory has an Active Search system, which carries out the immediate call of all newborns who present alterations in the Neonatal Heel Prick Test. If resampling is requested, it is essential to do it immediately.

Babies with positive diagnosis at the Neonatal Heel Prick Test are scheduled directly at the Ambulatory of the Specialties Reference Centre.

Highlights of the year

The big news in 2019 was the deployment of Tasy - one of the most complete hospital management software on the market.

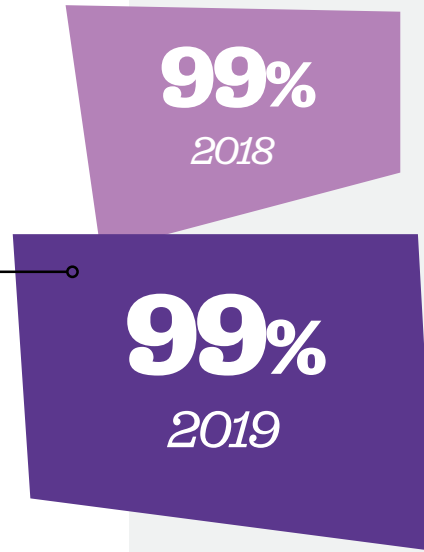

The system comes with a more modern and better monitoring and management of laboratory processes.

We have also implemented a new criteria for testing hemoglobinopathies, from internal studies.

With the new process, the number of recalls for recollection examination decreased about 50%.

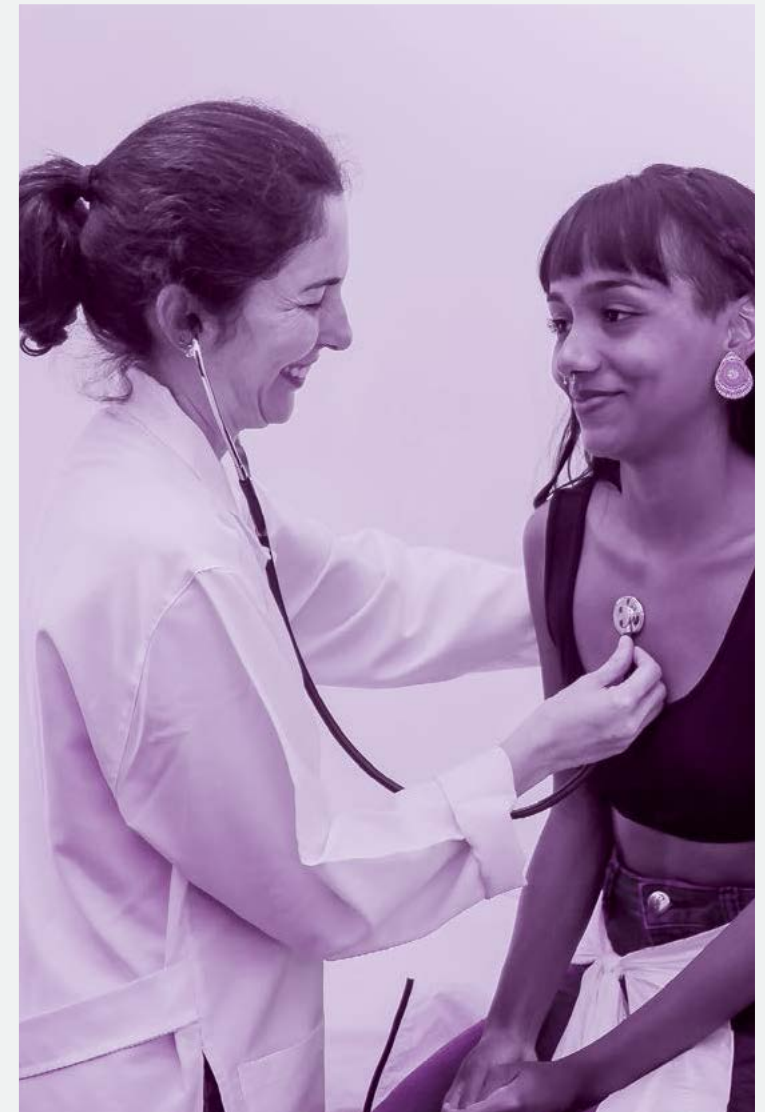

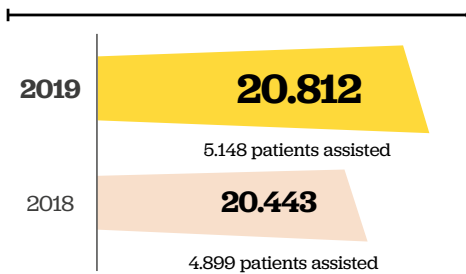

Satisfaction Index

Neonatal Screening Outpatient Clinic

We also have the Neonatal Screening Outpatients Clinic with an Interdisciplinary team to advise and treat the alteration cases of the Neonatal Heel Prick test, made up of specialists in the areas of Pediatric Endocrinology, Hematology, Nutrition, Psychology and Social Work.

Divina Dieta

With the mission of improving the quality of life of people with metabolic diseases and preventing the intellectual disability, we created Divina Dieta, a line of low-phenylalanine food products and other aminoacids, free from gluten, milk, eggs and products of animal origin.

The products are recommended for people with phenylketonuria,

homocystinuria, leucinosis, isovaleric acidemia, propionic acidemia, methylmalonic acidemia and urea cycle defects. If these diseases are not treated properly, they can lead to intellectual disability. People with lactose intolerance, allergy to cow's milk protein, celiac disease, vegetarians and vegans also benefit from these foods.

Special Food Basket

By means of the donation program Special Food Basket, the Jó Clemente Institute assists patients from families in social vulnerability and people with special dietary needs. Private and legal persons can sponsor baskets with products for monthly consumption, this avoiding the development of intellectual disability for cases diagnosed with phenylketonuria in the Neonatal Heel Prick Test.

Number of baskets provided

Highlights of the year

For second year in a row, we took part, with Divina Dieta, in the NaturalTech - a fair of Healthy Eating, Natural Products and Health, where visitors had the opportunity of discover and experience part of our products for people with dietary restrictions.

A novelty was to sell the Divina Dieta products through Rappi, a delivery app. Now, in addition to the physical store and e-commerce, customers have the option of delivery.

With the objective of expanding our target and improve our food presentation, we developed and reformulated some of the items of Divina Dieta, such as chocolates (with the closest traditional flavor) and the pasta, now soy-free.

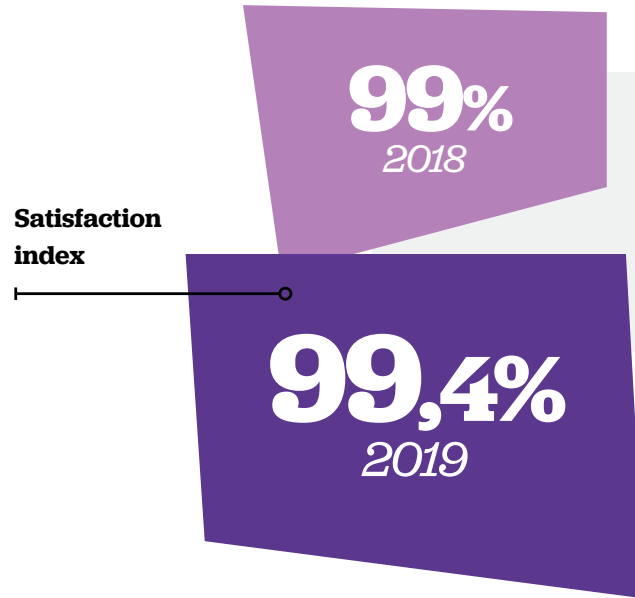

Diagnosis Outpatient Clinic

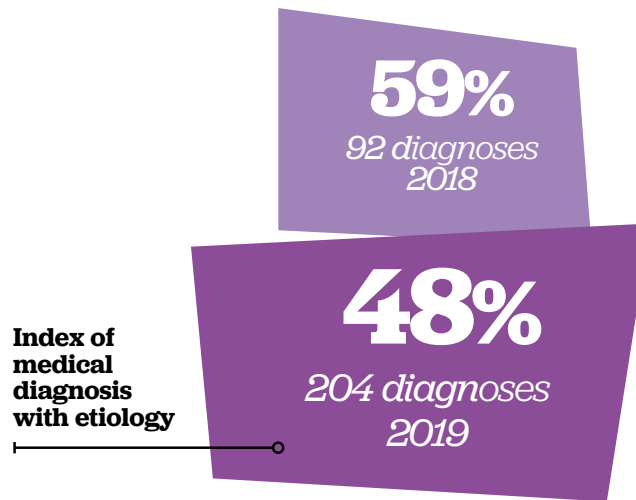

Often, intellectual disability is not directly linked to genetic issues or to inborn errors of metabolism, it is also due to socioenvironmental factors such as childbirth anoxia, malnutrition, excessive use of alcohol and drugs during pregnancy, among others.

To identify the causes and promote an even better support, we have the the Diagnosis Outpatient Clinic of intellectual disability, composed of a multi and interdisciplinary team of Health, in the areas of neuropediatrics, genetics, psychiatry, neuropsychology and social welfare.

Satisfaction index

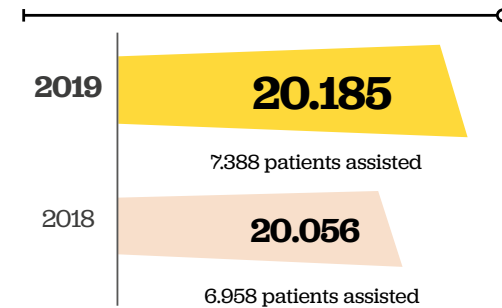

Index of medical diagnosis with etiology

Genetic Advice

Genetic Counseling for patients and their families is also part of the services of the Diagnosis Outpatient Clinic. During the appointment, the possible consequences associated with a genetic disease are informed.

Medical appointments

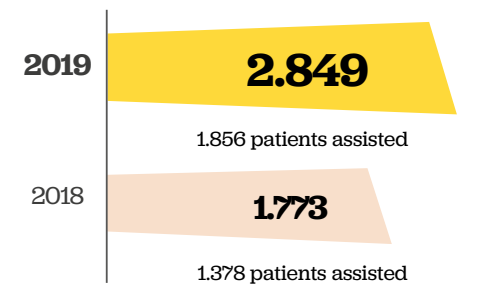

Novo Olhar

Inside the Diagnosis Outpatient Clinic, the families also count on the ophthalmological assistance, offered in a modern and efficient complete office. The place is the result of a partnership with Fundação Oftalmológica Dr. Rubem Cunha. We also have a very modern medical unit, whose mission is to offer decent ophthalmologic care to the population with low purchasing power, to collaborate with institutions, providing early diagnosis and clinical or surgical treatment.

Medical appointments

Stimulation and Habilitation

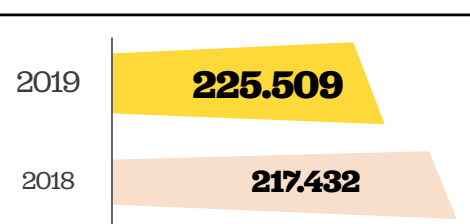

To ensure that people with intellectual disabilities or delayed psychomotor development have a better quality of life, we offer the Stimulation and Habilitation Service in early childhood. We understand that the sooner we start monitoring the child, bigger the chances to develop the global abilities.

The objective, in addition to support the children with a hypothesis or confirmed diagnosis of delayed neuropsychomotor development, intellectual disability or genetic syndromes, is to facilitate their social inclusion.

Activities are carried out by a multi and interdisciplinary team in which they are the areas of:

- **Phonoaudiology**
- **Occupational therapy**
- **Physiotherapy**
- **Social service**
- **Psychology**
- **Psychopedagogy**

Sensory Intregration Room

We offer specialized service for children from 2 to 12 years old, with the aim of promote, through a qualified technician team intervention in the Sensory Integration Room, a better development of the person with intellectual disabilities and / or ASD (Austism Spectrum Disorder), working with sensory stimulation resources, so the child can acquire autonomy and improve aspects of socialization.

News Moment Program

We developed this program to provide psychological care and give first support to parents or pregnant people who have just received news of the suspected or confirmed diagnosis.

The action of the professionals involved in this program aims to humanize the moment of the news, welcome the parents in their elaboration process, in order to build a healthy family bond. Thus, giving the conditions for the family to become effective agent in the development and social inclusion of the child.

Highlights of the year

We opened a new unit dedicated to the Stimulation and Habilitation Service, for Physiotherapy, Occupational Therapy, Phonoaudiology, Psychology, Psychopedagogy and Social Assistance, for children from 0 to 6 years old with intellectual disability or delayed neuropsychomotor development, in Guaianases. The objective was to decentralize activities, seeking to facilitate the mobility for people who live in the most peripheral regions of the city.

Stimulation and Habilitation

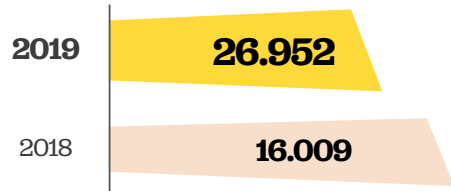

Decentralized Units and Centres

Rehabilitation

In 2019, we made the transition from the Socio-Educational Service to Rehabilitation, where we provide services of therapeutic groups with adolescents, young people and adults with intellectual disabilities, in order to favor the acquisition of skills for their autonomy and independence. Assistance is provided by professionals in the areas of Occupational Therapy, Psychology, Music Therapy, Art Therapy and Social Work.

Therapies

Private Service and Health Operators

With an interdisciplinary medical team capable of identifying and streamlining the diagnosis process and orienting family members, we offer the clients various services such as consultations, neuropsychological, functional, psychopedagogical and therapeutic evaluations.

We count on medical appointments in Genetics, Genetic Counseling, Neurology, Endocrinology and Psychiatry, aimed at patients up to 17 years and 11 months old, except from Genetics, which has no age limits.

Regarding therapies, there are option in the areas of Phonoaudiology, Physiotherapy, Occupational Therapy, Psychology and Hydrotherapy, for children and young people up to 14 years old. Our aim is to provide preventive and rehabilitative care, with a focus on global development.

Comprehensive Neuropsychological, Psychodiagnostic of Intellectual Function and Learning Disorder assessments are also available for patients up to 17 years and 11 months old. The main objective is to investigate functions such as attention, language, perception, memory, motor functions in people with complaints of cognitive and behavioral changes. The assessments help in understanding the impact of changes in the functioning of the individual and enable the professional to indicate the treatment more appropriate to each case.

Highlights of the year

We expanded the service to the private market, through the signing of agreements with nine renowned health operators, offering a wide range of consultations and therapies.

Inclusion

One of our strategic pillar is the Social Inclusion of people with intellectual disabilities. That is why we work directly with the schools of the regular education system, in the labor market, in cultural and sports activities, as well as maintain the functionalities of people with disabilities in the process of aging.

Educational

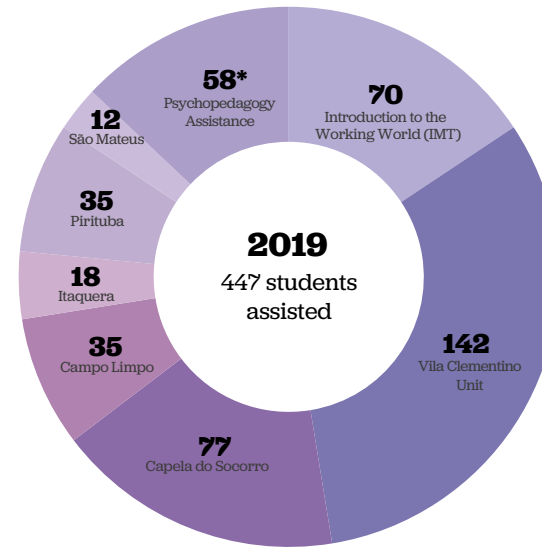

Accompanying the life cycle of the person with intellectual disability, one of the supports offered at the Jó Clemente Institute is the Specialized Educational Assistance (AEE), which offers support to the student from 04 to 17 years old, with the objective of breaking down barriers in the teaching and learning process, through accessible resources and strategies, enhancing the conditions for continuity of studies in other levels of education.

The assistance of the AEE is headed by pedagogic professionals, with sessions of 1:30 hours per day. Our rooms are properly equipped with teaching materials, technological resources and games.

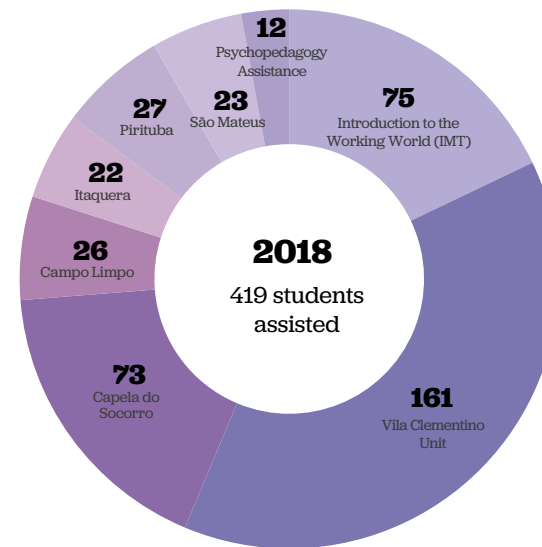

The set of activities is developed through projects, as we believe this is a way to organize teaching and learning activities in a meaningful way.

The methodology includes playful situations that allow free expression of the student, as highlighted by the Ministry of Education (MEC) in the collection “Special Education in the School Perspective” (2010). In addition to the AEE, we also offer assistance for the Initiation to the World of Work (IMT).

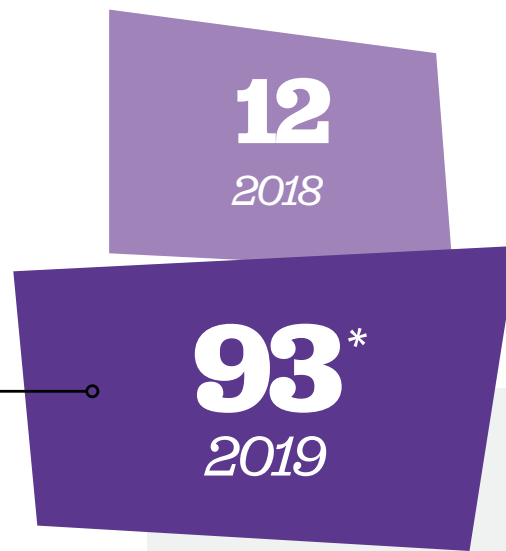

*Number of students registered at the end of 2019 at the Psychopedagogy Service.

Number of people assisted.

Psychopedagogy Assistance

We have a psychopedagogical assistance that serves students from 04 to 17 years old, with learning difficulties, Autism Spectrum Disorder and intellectual disability.

The main objective is to propose different ways of diagnosing, preventing and breaking barriers of possible difficulties, in addition to presenting intervention strategies that give meaning to learning.

Psychopedagogy considers the social, affective and cognitive aspects that interact simultaneously in the formation of a person.

* Total number of students assisted by the Psychopedagogy Service in 2019.

Professional Inclusion

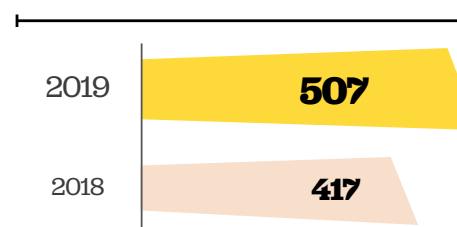

One of our biggest objectives is to promote the complete socialization of people with intellectual disabilities. That is why, we strongly work for their inclusion in the labor market.

Through the Professional Inclusion Service, we assist young people and adults with intellectual disabilities and also with ASD - Autism Spectrum Disorder, who are inserted in several companies and public institutions based in the Supported Employment methodology, used in European countries and the United States.

The program allows workers to be included in companies and to receive technical support for at least 12 months. Now, people that historically encountered barriers to conquer their place, have the necessary support for their effective inclusion and permanence in the labor world.

In addition, we train young people through Professional Learning at Itaim and Interlagos Units. For those who live far from these points of the city, there is the possibility to take part in activities in other service centres.

Highlights of the year

In addition to the important partnerships we did with private companies, we obtained the renewal of agreements with the Court of Justice, Regional Labor Court, Labor Prosecutor's Office and São Paulo City Council. 2019 was also marked by the beginning of the partnership with the São Paulo State Government, which hired 15 beginner people to work at the Palácio dos Bandeirantes in different functions.

49%

of the young people who took part in the Learning Program in 2019 were hired

90%

of young people included in the labor market, by our Professional Inclusion Service, remained working after the period of one year of support

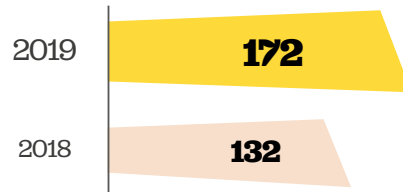

15%

young people with intellectual disabilities were invited to work at Comic Con Experience - CCXP, the largest pop event in the world.

Aging

In order to preserve functionality promote health and strengthen the autonomy of people with intellectual disabilities, we have the Aging Service, where we assist people who present suggestive signs of aging. Our proposal includes life plan, in addition to activities offered, like craft workshops, music, dance, fitness, among others. For that, we have a specialized multi and interdisciplinary team in Gerontology.

People assisted in the Aging Service

Legal & Social Program

The program, with multidisciplinary action, aims to promote health and life quality of the people assisted, contributing to the elimination of any forms of violation of rights and violence. We act from an emancipatory perspective, promoting autonomy and social awareness and empowerment of the person as a citizen, developing awareness about rights and possibilities for an effective life in society.

Our work is based on the respect and promotion of freedom, dignity, equality and integrity of the human being and on the values established by the Universal Declaration of Human Rights, the Convention on the Rights of Persons with Disabilities, the Brazilian Inclusion Law (LBI) and the Child and Adolescent Statute (ECA).

In 2019, Legal-Social Department was reorganized, starting to take action on three interlinked fronts: Social Service, Legal, and Prevention and Attention to Violence.

Legal

We offer legal professionals and specialists in order to advise on protection laws, especially the Brazilian Inclusion Law (LBI), with an emphasis on legal capacity and supported decision making. We also act in defense of the Quota Law, with criteria for granting the Continued Benefits Benefit (BPC), in addition to legal guidelines about very diverse areas demanded by families or even by the person with intellectual disabilities, such as marriage, divorce, child custody, inventory, pension rights, among other points. Thus, we carry out the necessary referrals, mostly to the Public Defender's Office and the Federal Special Court. We are also responsible for answering letters that were sent to the Organization from Regional Forums and for online requests, via the website, chats and e-mails.

Social Service

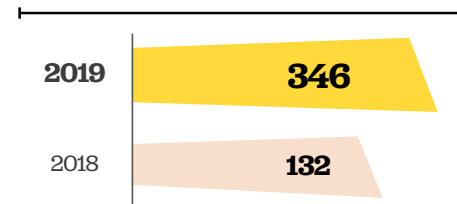

We optimized the assistance for orientations and interventions, mainly in the Social Service, with a centre of social workers to assist people and families who attend all the services offered by us, the Jô Clemente Institute, in their varied demands. Our focus is on information, guidance and facilitating access to their rights and appropriate monitoring, taking into account the numerous social vulnerabilities presented on a case-by-case basis. We also act in the prevention of intellectual disabilities with patients and family members monitored at the Reference Service in Neonatal Screening and we make the screening in partnership with the Diagnostic Clinic.

Prevention and Attention to Violence

We promote prevention and attention to the various ways of violence that involve people with intellectual disabilities or their family group, referred to us via Compulsory Violence Notification.

We act with qualified wiretaps, reception, aiming to identify violence suffered and drawing up an action plan for each situation. We operate with an internal and external network to complement the action to the case. Preventive acts are made with our Organization's groups of families and staff, aiming to awake perceptions that identify possible signs of violence and build a perspective of prevention.

Public Policies and Advocacy Centre

All the services offered to people with intellectual disabilities and their families have the social inclusion as their guiding principle. However, there are still many barriers to overcome. With that in mind, the Public Policies and Advocacy Centre was created, which seeks to guarantee the fundamental rights listed in the Convention on the Rights for People with Disabilities, enacted by the UN in 2008.

Advocacy

We act in the incidence of public policies in a collaborative way with the government departments, elaborating and orienting projects of public interest, as well as focusing on the Legislative and Executive branches so that the laws are actually fulfilled. It also is represented in councils of rights, systems, forums asnd social movements.

We also act in the articulation and training of players of the Ensuring Rights System through projects sponsored by private social investment and partnerships with the government.

Highlights of the year

We started the Legal Capacity And Decision Making Project - Breaking Paradigms, in partnership with Open Society Foundation.

We made a benchmarking at the NGO Asdown Colombia. During the visit, it was possible to know the methodology used in the Self-Defense Program, in that country, as well as the strategies used by them to the exercise of legal capacity and decision making supported by people with intellectual disabilities.

We created a Working Group (GT), together with the representatives of the Public Defender of the State of São Paulo, the Public Ministry of State of São Paulo, Federal Justice, the Federal Public Ministry, the Federal and State Magistracy and Association of Registers of Natural People from the State of São Paulo (ARPEN-SP). The objective was to promote reflection and building practical tools that would help in the implementation of the new paradigm about legal capacity and supported decision-making.

We signed the project Defenders of the Rights of Children and Adolescents with Intellectual Disabilities, financed by the Municipal Fund for Children and Adolescents. The project aims to strengthen the implementation of inclusive public policies for children and adolescents in the city of São Paulo.

Highlights of the year

We prepared a technical note about the amendments presented for PL 19.091 / 2018, which was about legal capacity and supported decision-making by people with disabilities, in order to be rejected. The approval of those amendments meant an immense setback in relation to the achievements, in the field of rights of people with disabilities, under the International Convention on the Rights of People UN Disability, ratified with constitutional status (Decree 6,949 / 2009), and the Brazilian Law on Inclusion of People with Disabilities (Law 13.146 / 2015).

We pronounced an opinion to the Draft Law Amendment (PLO) No. 9 of 2013, as the PLO established the non-use of educational resources for an Inclusive Education. We also proposed a Substitutive for guaranteeing, at least, 6% of educational resources for Inclusive Education.

We launched the Guide of Rights of the Person with Intellectual Disability, an initiative of Tozzini Freire Lawyers in partnership with J.P. Morgan and ADERE. The material gathered information on the rights of the person with intellectual disability, with the aim to disseminate knowledge about this subject to these people themselves, their family, professionals and society in general. The guide was produced with accessibility features, easy reading, accessible language, images and division of themes by colors.

Self-Defense Program

Self-defense seeks to strengthen the exercise of autonomy and the protagonism of the person with intellectual disability. The group is made up of people with disabilities who come together to discuss and elaborate actions to build a more inclusive society.

The intention is that self-defenders can participate in spaces inside and outside the Institute, taking the theme of intellectual disability in its transversality to the public agenda.

SUPPORTED BY:

Highlights of the year

Two self-defenders competed and won, in August, the elections to compose the chair of Intellectual Disability in the Municipal Council for People with Disabilities for the 2019-2021 period: Lucas Silva Bueno de Camargo disputed first position, while Stephanie Lima was reappointed, remaining as the second one. In this space, they have the opportunity to debate in the municipality of São Paulo, the relevant themes related to Intellectual disability.

Self-defender Stephanie Lima participated in a training of self-managers by Empower US. The event took place in September, in Mexico City. The objective of the meeting was to promote training for self-defenders on rights of people with intellectual disabilities, legal capacity and supported decision-making. Stephanie contributed with her experiences in the fight for the cause of Intellectual Disability in Brazil.

Articulation and Mobilization Program

In defense of the rights of people with disabilities, we have, through our Articulation and Mobilization program, the support and partnership of public institutions. Our goals are to focus in public policies aimed at protection, promotion and guarantee of rights of the person with intellectual disability; mobilize the actors from the Protection Network and defense of rights to identify and intervene in situations of violence and violation of rights against people with deficiency.

The program had institutional representation in many commissions: Coping to Violence Municipal Commission, Sexual Abuse and Exploitation against Children and Adolescents (CMESCA) and Brazilian Coalition for the End of Violence against Children and Adolescents;

dissemination knowledge at the “II Meeting in Commemoration of the International Day of the Person with Disabilities” and in the “Cycle of Workshops #ALutaMudaALei in defense of the person with disabilities”.

We gave lectures about disability: “We are different: an invitation to know the differences ” in monthly integrations, for our new employees. We also prepared an informative newsletter for professionals from the Protection Network, which operate in the State of São Paulo: All for the Rights Newsletter Nº 9 - May / 2019, entitled “Networking Articulation and guaranteeing of rights of the People with disabilities”.

We also concluded the actions of the Territories and Networks Project: prevention of violence against people

trained

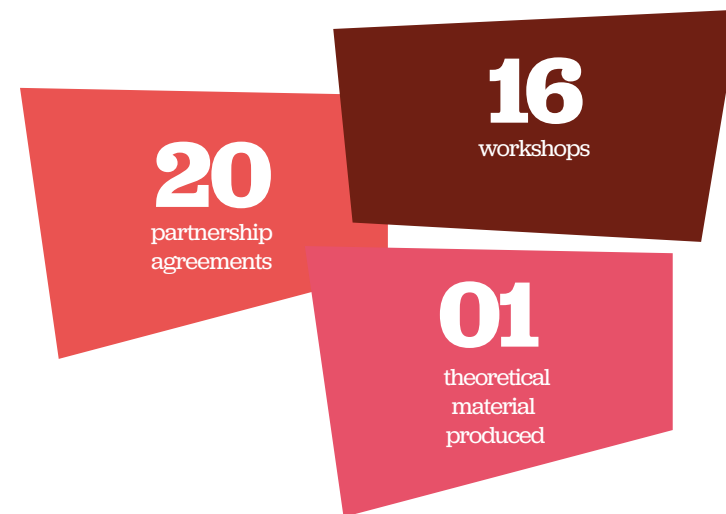

with disabilities, with a seminar in the municipality of Caraguatatuba, where there were 123 professionals from different areas.

The two main fronts of work were the project “Intellectual Disability, Citizenship and Prevention of violence ”(training and articulation) and the direct service through the Technical Support Centre from the 1st Police Station of the Person with Disabilities.

“Intellectual Disability, Citizenship and Prevention of Violence” Program

In partnership with the Estadual Council of the Rights of the Child and Adolescent (CONDECA), the project is being made in six municipalities of the São Paulo State. Actions aim to mobilize and articulate the network of promotion, protection, defense and guarantee of rights, with training meetings and a regional seminar. The target of this proposal are professionals from different areas, such as Social Assistance, Health, Education, Security Justice System, Sports, Leisure and Culture, Housing, Works, Human Rights, members of Councils of Rights, Conservatorship Council and professionals from social organizations of the area of disability.

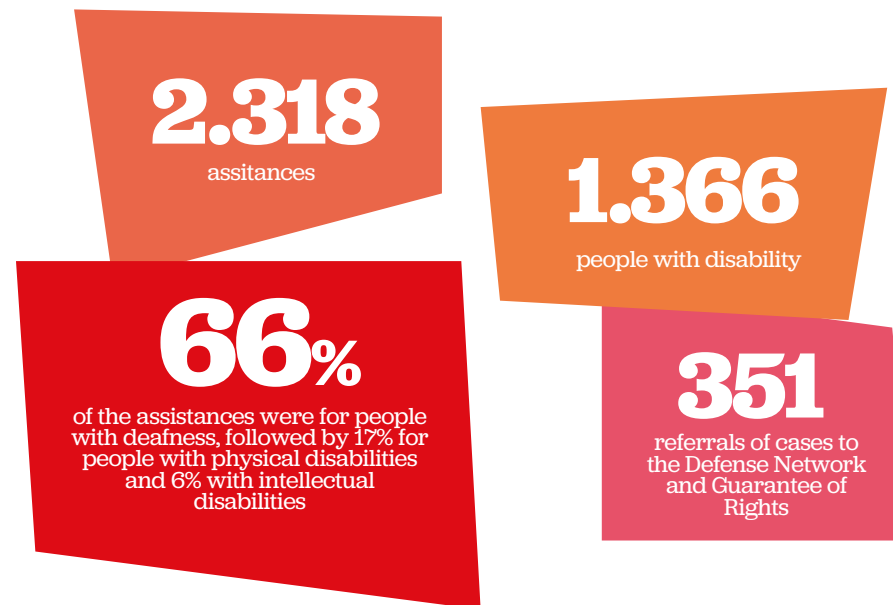

Technical Support Centre of the 1st Police Station for the Person with Disability

We provide assistance to people with disabilities (physical, hearing, visual, intellectual, deafblind, multiple and psychosocial), prepare theoretical material and promote training for the Defense and Guarantee of Rights Network. With regard to training and qualifications, we promote the dissemination of knowledge through training meetings with the network to discuss the following topics: “Guarantee of Rights and Prevention of Violence against Persons with Disabilities”, “Health of People with Disabilities: Guidelines and Rights Guarantee”, “Inclusive Education as a Prevention of Violence and Rights Violations” in addition to lectures in bilingual schools; we also provide training for civil police officers entering the Police Academy (ACADEPOL) and the seminar “Autonomy: Nothing about us, without us”, in which experts were invited to discuss topics such as training, empowerment of women with disability, self-defense, among others.

Direct Assistance

The services are provided with the police team and cover all types of violation of rights, crimes, different legal guidelines and referrals to the Public Service Network.

Highlights of the year

From the perspective and scope of action of the Estate Program for Prevention and Combat of Violence against People with Disabilities, and according to the data analysis on violence, it was proposed to expand the Technical Support Centre of the 1st Police Station for the Person with Disabilities, for inland cities, spreading the existing methodology with a multidisciplinary technical team.

Presentation of the research within the scope of the project “Territories and networks: preventing violence against people with disabilities”, in partnership with LAPREV (UFSCAR), about the subject “Training professionals to prevent violence against people with disabilities”. It was published at the 49th Annual Meeting of the Brazilian Psychological Society of the 1st Congress of Environmental Psychology and Personal-Environmental Relations, in October, in João Pessoa, Paraíba.

Education, Research and Innovation Centre

Our Educational, Research and Innovation Centre generates and spreads knowledge about intellectual disability. Research and training are essential in the inclusion process. Created 34 years ago, The Education, Research and Innovation Centre, of scientific and education character, acts in the generation and dissemination of the knowledge about intellectual deficiency, gathering program and projects in the areas of training and professional qualification. It is also responsible for the structuring and management of scientific researches with the objective of assisting in the process of inclusion, prevention and in promoting the quality of life of people with intellectual disabilities, by fomenting discussions on the subject. In innovation, we work in research and development of new methodologies, techniques and tools applied to products and services for people with disabilities.

Research and Development

Acting in the structuring and conduction of scientific studies in the biological, genetic, clinical and behavioral aspects of intellectual disability and counting on an acting Scientific Board, 11 scientific researches were completed.

The research activity provide us the role of player, being able to create, test, criticize,

improve and then implement new processes and technologies for diagnosis and monitoring of people with intellectual disabilities. In addition to subsidizing data and information in the formation of public policies aimed at the well-being of people with disabilities and the community.

In partnership with the FIAP, we started to develop apps to make easier

the autonomy and independence of people with intellectual disabilities, focusing on self-management, urban mobility and professional inclusion. We also conducted a mini-hackaton with MBA students in Health Tech to generate alternative solutions in the collection of samples from the Neonatal Heel Prick Test.

Scientific Board

We have a group of counselors who collaborate in the analysis and direction of research, in addition to establishing processes, protocols and procedures to produce science in a reasoned, consistent and useful way for our performance.

Committee of Ethics in Research

Since 2018, we have a Committee of Ethics in Research working at the Education and Research Centre, which aims to ensure that ethics standards are applied in research projects that involve human beings. A positive contribution was the change in the requirement to use the term of consent for the direct application of the term of free and informed consent to people with intellectual disabilities.

Education

We carry out activities aimed at training, updating and improving the professionals who work in the areas of Health, Education and Human Rights, contributing to spread the benefits of the knowledge gathered in the Organization to all segments of society. CEPI has a portfolio of courses about intellectual disability.

Scientific Conference

The VI Scientific Conference, held in December, with six workshops, there the researchers in charge presented their research and results. The event aimed to share the scientific productions carried out during the year by our researchers and educational institutes partners interested in the topic, in order to exchange experiences that would help to improve the quality of life of people with intellectual disabilities.

“I International Seminar on the Aging of People with Intellectual Disabilities”

We held the seminar in September, bringing together 23 national and international experts, and the professional community, to talk about the topic, with the aim of promoting the exchange of experiences among the participants, analyzing the scenario

analyzing the getting to know scientific evidence that contributes to the quality of life of people with intellectual disabilities in the aging process that researchers and public managers will subsidize.

Marketing and Communication

Internal and institutional communication is fundamental for the strategic positioning of an Organization. In dealing with the issue of intellectual disability, a matter of great depth, the role of communication is to overcome barriers, taking our great mission to include to the greatest number of people.

Branding

After more than 58 years of experience for the cause of intellectual disability, we changed our name. We stopped being APAE DE SÃO PAULO and became Jô Clemente Institute. The new positioning, presented to society, mainly through the media, incorporated a new identity, developed by Thymus Branding.

Our strategy included all the fundamental elements of the Organization, which helped us to build, the new positioning, together with Thymus.

We reviewed our values, defined our main stakeholders and provided ourselves with new purposes, reinforcing the belief in promoting the autonomy and social inclusion of people with intellectual disabilities.

This project started two years ago, deepening into the brand universe: we promote conversations with counselors, leaders and family members. We also did it in partnership with Thymus, extensive market study with family members, people with disabilities and providers.

This immersion pointed that we needed to draw new paths and showed opportunities of growth.

From there, we developed a guide with strong and striking language, as well as key messages and tone of voice to inspire and guide all of our brand touch points.

The new purpose can also be felt in the new visual identity, which presents simple, dynamic, vibrant and energetic elements. The new brand values the stories behind all the themes worked on by the Institute, combining colors, graphics, icons, people, environments and passions.

The new logo was designed to transmit our values and essence and now is composed of two elements: the symbol, which resembles human figures, and the simple line, which makes them equal in shape and, at the same time, highlights their differences. The name is inspired by the courage, restlessness and entrepreneurial spirit that marked our history, representing the legacy of our founder, Mrs. Jô Clemente, and will become an acronym that will be larger than Mrs. Jô herself, representing Pioneerism, Science, Inclusion and being reference of an institution that defends a society for all.

“Down Syndrome: I choose to include” Campaign

The Down Syndrome International Day, celebrated on March 21, was marked by our campaign “Down Syndrome: I choose to include”, created to sensitize the population about the importance of the social inclusion of people with intellectual disabilities. To make this action even more effective, we count with the help of celebrities and the press to spread this important day.

“Lilac June” Campaign

In order to make the population aware of the importance of the Neonatal Heel Prick Test, the Jó Clemente Institute and Unisert, in partnership with the Plug agency, promoted the third edition of the Lilac June Campaign. We emphasize the importance of the test, which is fast, free, mandatory by law and detects diseases in the newborn's first days of life even before symptoms appear. For the celebration of the date, monuments in São Paulo, Rio de Janeiro, Distrito Federal and Salvador received lilac lighting, the color of the campaign.

In the capital of São Paulo, the campaign was shown on more than 100 street clocks in the city and on totems, panels and internal TVs at the Lilac Line metro stations. We also had the support of celebrities and digital influencers, who supported the cause, such as the actress Karina Bacchi, presenter Ticiane Pinheiro and singers

Maria Cecília and Rodolfo. To start the celebrations, on June 6th, dozens of children assisted by our Institute, gathered at the Vila Clementino Unit, and drop lilac balloons in the sky of São Paulo. Explanatory leaflets about the campaign were distributed and children's products, such as baby diapers, shampoo and moisturizers from the Babysec brand, were also distributed to mothers of babies who were taking the exam at the IJC.

Also, more than 100 children assisted by the Stimulation and Habilitation Service, dressed in lilac, were invited to visit Parque da Mônica with their families. In 2019, the campaign broke the publicity record. There were more than 22 broadcasts in journalistic programs on open TV and closed channels, thank to the participation of the actress Ana Maria Braga and her famous friend, Jose the parrot, and the journalist Milton Neves. They helped

to highlight the campaign, showing the Lilac June t-shirt in their respective programs on Rede Globo and TV Band. The Campaign recorded a return of R\$ 21,765,519.00 in media exposure.

48.000

Employees

Working for such a relevant cause is not an easy task, it requires commitment and determination, so we have a team of 489 qualified professionals focused on our mission.

Nonprofit organizations have undergone major managerial and strategic changes over the last decade. In addition to the concern with ensuring the best use of available resources, another challenging theme is the search for professionalized, efficient and effective management.

Human capital is the most precious resource of any non-profit organization.

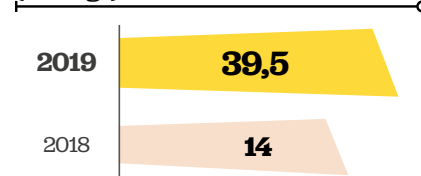

They are people passionate about the cause they work for, transforming the reality of thousands of people. For us at Jó Clemente Institute, it is not different. It is through people that the cause of intellectual disability is known and recognized.

In 2019, with the brand transition process, we developed, through the Personnel Management area, a new leadership model. We created and established a new philosophy and listed the skills and attitude we expect from our leaders, as a way of directing and aligning their conduct with our main values.

Volunteers

We recognize the importance of voluntary work by people who make a difference in our daily lives. Established in 1970, on the initiative of our founder Jó Clemente, the Jó Clemente Institute Volunteering is an area of support to our services. With dedication and team spirit, volunteers contribute to improving the quality of life of people with intellectual disabilities, which strengthens our role in society.

Volunteering - Hour/work valuation

Number of active volunteers

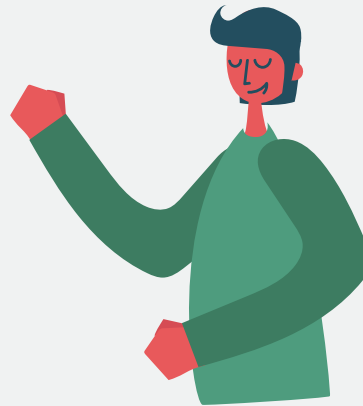

Partnership: Atados

It is a social platform that connects people and organizations. An important partner also in the promotion of the vacancies of jobs and volunteering.

* Although the number of volunteers has increased in 2019 compared to 2018, the valuation of hours/work dropped, due to the implementation of the biometric reading system, for entry and exit from work. Some volunteers had difficulties to follow and adhere the new process, as they did not followed the guidences.

Highlights of the year

The Santo Amaro University (UNISA) established an important partnership with our Volunteering. Students of the institution became distance volunteers, executing activities such as collection of tax coupons and product donations. In addition, we also have their support on other face-to-face demands or by distance.

Practical Arts

The volunteers develop artisanal work to be sold in two major events, the Mother's Day Bazaar and the Christmas Bazaar, in addition to producing gifts and presents for individuals and companies by order. All income is for our projects.

Our Activities

History of Volunteering

The experiences of our volunteers are treated as historical and cultural heritage of the Jô Clemente Institute and are directly linked to our values. The stories of the volunteers are shared through internal communication tools for all the staff of our Organization.

Family Space Program

For those who accompany the people with intellectual disabilities we assist, we have the Family Space Program, which works on self-esteem and integration between family and friends, who many times remain at the Jô Clemente Institute during the assistances. The activities involve handicrafts, yoga, wellness activities, beauty, among others.

Financial Management

2019

Mobilizing Resources

Good partnerships for a cause

To support the financial sustainability of our operations, at the Jó Clemente Institute we count with the Resource Mobilization area, which promotes the Organization's relationship with the most diverse audiences, aiming to foster partnerships with private initiative and civil society in order to provide maintenance and for the execution of our services and projects for the benefit of people with intellectual disabilities.

To persecute our objective, this area is focused on searching for new partnerships, on the creation and promotion of projects encouraged by the Municipal Council for the Rights of Children and Adolescents (CMDCA), the State Council for the Rights of Children and Adolescents (CONDECA) and the State Council for the Elderly (CEI) through the use of funds through the Tax Incentive Law (IRPJ and IRPF), among others.

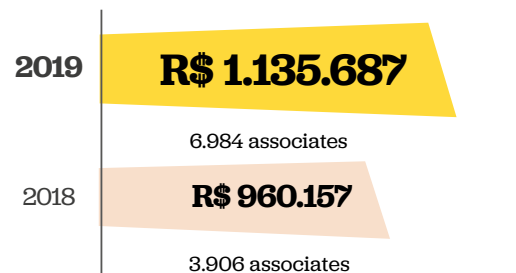

Membership Donations

These are people and companies that are interested in the work we do at the Jô Clemente Institute and are committed to contributing to the cause regularly.

Annual income value

Parliamentary Amendments

We diversified the resource mobilization line through the indication of parliamentary amendments. The resources from these funds make it possible to fund our operations, in addition to bringing parliamentarians closer to the causes and themes that are fundamental to our development as an Organization.

We thank the 2019 partners:

Senator Mara Gabrilli
Senator Major Olimpio
Federal congressman Tiririca
Federal congressman Captain Derrite
State congressman José Américo
State congressman Campos Machado

Business Partnerships

Marketing related to the cause is when the company performs a social responsibility action adding value to the brand and allocating a percentage of its sales to the Jô Clemente Institute. In addition, for actions with donations starting at R\$50,000 per year, the company is certified with the Partner Company seal for dissemination in its products and communication materials.

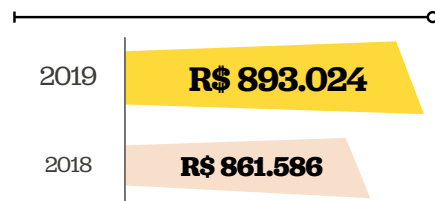

Annual income value

State of São Paulo Fiscal Receipt

With the new system, developed by the Secretariat of Finances, to make donations through the application of the State of São Paulo Fiscal Receipt, individuals can donate their receipts and also participate in the monthly raffles for cash prizes. In 2019, we also maintained partnerships with establishments that offer their places for collecting coupons.

Annual income value

Padrinho Amigo

200

benefit children in 2019

In April, we launched the Padrinho Amigo program, with the objective of guaranteeing therapeutic care for children with a hypothesis or confirmed diagnosis of intellectual disability, delayed neuropsychomotor development, genetic syndromes and preventive care for newborns, aiming at the child's global development, through the improvement of functional capacity, providing autonomy and independence in different aspects of life as well as their social inclusion. Since its creation, the program has benefited 200 children.

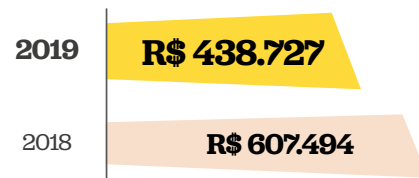

Bazaar Donations

It consists of a permanent fundraising front, to which companies and individuals can contribute with donations of clothes, toys, furniture, appliances, utensils and products - new, used in good condition or with minor defects - which are intended for sale in the permanent bazaar of the Jô Clemente Institute for very affordable prices, mainly benefiting people with intellectual disabilities and their families. In addition, we hold special bazaars with partner companies.

Annual income value

Goods and Services Donations

It is a front of fundraising, in the form of raw materials, products or services provided, which aims to reduce expenses and necessary investments for the maintenance of our services and projects.

Annual income value

Highlights of the year

Project Support

We had financial resources from the Helena Florisbal Institute, the Prada Foundation and the Cyrella Institute to support the Self-Defense Program, the Professional Inclusion Service and the Training Program for Professional Education in Signs of Attention at First Childhood, respectively.

BGS

For the fourth consecutive year, we took part in the largest game fair in Latin America, the Brasil Game Show (BGS), with food collection for our Organization.

In partnership with Johnson & Johnson, the “**Pureza que Inspira o Bem**” campaign was developed, with the objective of allocating resources to the organization by posting photos of children on Instagram with the hashtag #purezaqueinspiraobem.

Events

During the year, we promote events with the objective of spreading our cause for the social inclusion of people with intellectual disabilities. The events are opportunities to strengthen the relationship with strategic audiences and publicize our services.

6th Charity Gourmet

Aimed at an extremely rigorous and tasteful audience, the event is a special experience to enjoy Chef Laurent's dinner.

Sponsored by Bradesco Cards, the Laurent Suaudeau Culinary Art School brought together lovers of good cuisine with good deeds. The event also included the participation of two young cooks with Down syndrome: Gabriel Bernardes and his brand of brigadeiros, Downlícia, and Luiza Camargo, who was responsible, in this edition, for preparing the starter course.

8th Solidary Christmas

Since 2012, we have held the Solitary Christmas event - in partnership with the D + agency, OWLS Bikers, in addition to the Autostar Harley-Davidson of São Paulo, Multipark and Bradesco Cards. The project brings together a group of motorcyclists, led by a Santa Claus who, in this edition, delivered 2,556 toys to children with intellectual disabilities.

Finance

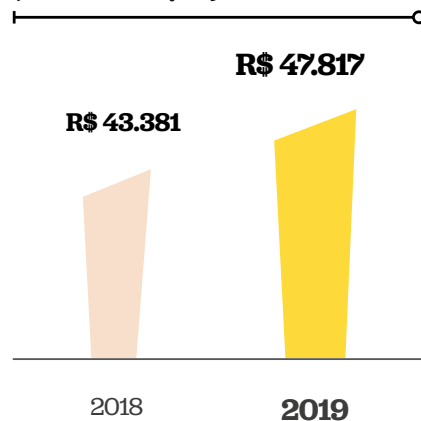

This period of financial instability that Brazil is going through requires assertiveness and creativity, in order to draw the right path and remain sustainable. In times of crisis, the challenge is greater and needs more caution.

In 2019, we achieved better financial results compared to 2018, when we had a deficit. We are guided by the fulfillment of important goals, in addition to cost reduction, without prejudice the quality of our services provided to society. Through efficient management, we prioritize essential investments to return to financial self-sustainability.

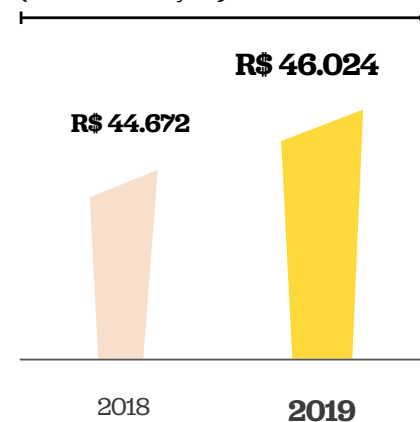

Even in a year that was so difficult for the country, it was possible to use the resources available to continue with our purpose in the name of the cause for intellectual disability. It is with responsibility that we aim to increasingly expand the social impact of our activities, offering complete and quality care to people with social disabilities and their families.

Independent auditors' report on the financial statements

To the Administration and the Board of Directors from the Jó Clemente Institute (previously called Associação de Pais e Amigos dos Excepcionais de São Paulo - APAE)

We have examined the financial statements from the Jó Clemente Institute (previously called Association of Parents and Friends of São Paulo - APAE) or ("Entity"), that comprise the balance sheet on December 31, 2019, and the related income statements, changes in net worth and cash flow for the year ended on that date, as well as the related explanatory notes, including significant accounting policies and other clarifying information.

In our opinion, the financial statements referred to above present fairly, in all material

respects, the position of the Jó Clemente Institute (formerly known as Associação de Pais e Amigos dos Excepcionais de São Paulo - APAE) on December 31, 2019, the performance of its operations and the changes in its cash flows for the year then ended, in accordance with accounting practices adopted in Brazil applicable to small and medium-sized enterprises.

Basis for our opinion

Our audit was conducted according to the Brazilian and international audit standards. Our responsibility, in accordance with such standards, are described in the following section entitled "Auditor's responsibilities for auditing the financial statements". We are independent in relation to the Entity, in accordance with the relevant ethical principles set out in the Code of

Ethics for Professional Accountants and professional standards issued by the Federal Accounting Council, and we complied with other ethical responsibilities according to these standards. We believe that the audit evidence obtained is enough and appropriate to provide a basis for our opinion.

Another topics:

Audit of amounts from the previous year

The corresponding amounts to the financial statements for the year ended in December 31, 2018 were audited by another independent auditors who issued a report, dated March 12, 2019, without modification.

Administration and Governance responsibilities for financial statements

The administration is responsible for preparing and presenting the financial statements in accordance with the accounting practices adopted in Brazil and for the necessary internal controls that it determined for allowing the elaboration of

financial statements free of misstatement material, regardless of whether caused by fraud or mistake.

In preparing the financial statements, the Administration is responsible for validating the Entity's ability to continue operating, disclosing, when applicable, matters related to its operational continuity and the use of this accounting basis in the preparation of the financial statements, unless the Administration intends to liquidate the Entity or cease its operations, or if it does not have any realist alternative to avoid closing operations. The responsables for the governance of the Entity are those who are responsible for supervising the process of preparing the financial statements.

Auditor's responsibility for the audit of financial statements

Our objectives are to guarantee reasonable assurance that the financial statements, are free of relevant distortion, whether caused by fraud or error, and issue an audit report containing our opinion. Reasonable security is a high level of security, but not a guarantee that the audit carried out in accordance with Brazilian and international auditing standards, which always detect possible distortions. Distortions can be arising from fraud or error and are considered relevant when, individually or in together, can influence, within a reasonable perspective, economic decisions based on those accounting statements.

As part of the audit executed according to Brazilian and international standards, we exercise professional judgment and maintain skepticism during the audit. Besides that:

- We identify and assess the risks of distortion in the financial statements, regardless if it was caused by fraud or error, we plan to and execute audit procedures in response to such risks, as well as obtaining evidence appropriate and sufficient audit substantiate our opinion. The risk of non-detection misstatement material resulting from fraud is greater than that from error, since the fraud can involve circumventing internal financial controls, false documents, omission, and others.

- We obtain an understanding of the internal controls which are relevant to the audit in order to plan audit procedures appropriate to the circumstances, but not with the objective of expressing an opinion on the effectiveness of the Company's internal controls;
- We assessed the adequacy of the accounting policies used and the reasonableness of the accounting estimates and respective disclosures made by the Administration;
- We conclude on the adequacy of the use, by the Administration, of the accounting basis for operating and, based on the audit evidence obtained, whether there is uncertainty material in relation to events or conditions that may raise a significant doubt regarding the ability to operational continuity of the Organization. If we conclude that there is significant uncertainty, we must draw attention to our audit report for the respective disclosures, in the financial statements or include changes in our opinion, if the disclosures are inadequate. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Company to no longer remain in business continuity;

- We evaluate the overall presentation, structure and the content of the financial statements, including the disclosures and whether the financial statements represent the corresponding transactions and events in a compatible manner with the proper presentation objective. We communicate it with the responsible governance regarding, among other aspects, the planned scope, the time of the audit and significant audit findings, including any significant deficiencies in the internal controls that we identified during our work.
