Beautiful, efficient, healthy offices

winya

WINYA (win-ya): to “Sit now” in Wiradjuri language.

**WINYA**

The only Australian company awarded  
by the **United Nations** for Leadership  
Sustainable Development Goals

Winya Indigenous Furniture is a Supply Nation Registered majority Indigenous owned genuine Indigenous business, supplying workstations, sit-stand desks, task seating, lounges and storage, lockers and boardrooms through Indigenous employment focused manufacturing. Winya is proud to be Steelcase's Indigenous partner in Australia.

Winya is a multi-award winning company, the only Australian company awarded by the United Nations for leadership in the Sustainable Development Goals, the Procurement and Supply Australasia in both 2017 and 2018, the City of Sydney Business Awards for Excellence in Sustainability, Excellence in Workplace Diversity and Overall Business of the Year Award, The Chartered Institute of Procurement Asia Pacific Award for Best Contribution to Corporate Responsibility and Overall Winner.

Winya works within a profit for purpose business model, Winya creates employment for Indigenous Australians through traineeships in each of the manufacturers used for jobs. When you specify Winya for large-scale fit outs, this gives us the capability to place an Indigenous trainee into the manufacturer we use to source our furniture for the job.

Seat Height 450- 580  
High Back 590-720h  
Medium Back 550-620h

chair Made in Melbourne Sydney Brisbane Darwin and Perth

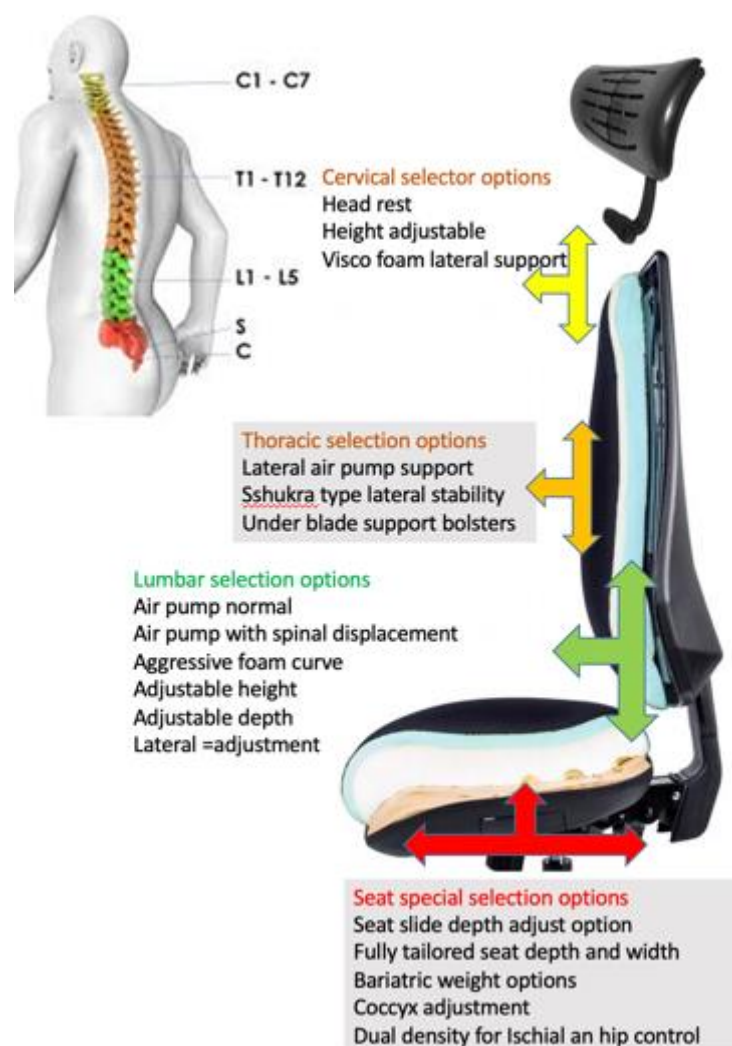

## Medi-select+

Medi-Select is Australia's leading custom made ergonomic chair. Medi-Select is tax-free as it is recognised as a medical device.

Over 70% of your body-weight is being dragged by gravity through the Ischial Tuberosities (commonly referred to as the 'Sitting Bones') at the base of your pelvis. In order to combat this, Medi-Select offers a layer of viscoelastic foam which will work to evenly distribute pressure throughout the surface of the cushion. Medi-Select utilises its high backed system to offer support for the thoracic and lumbar areas of the spine.

Medi-Select is customisable chair that can be made for people with back and coccyx issues and allows for the option of blusters around the shoulders to provide further thoracic and cervical support. The high-backed system acts as a headrest to provide further cervical support. Medi-Select offers a customisable depth adjustment and has a weight capacity that can be tailored. Made for weights of 50 kilograms through to 160 kilograms.

Medi-Select's allowance for such customisation enables it to be Australia's leading chair in ergonomic office furniture.

From \$410  
(based on house finishes)

## Macro Folding Table

The Macro range meets today's demand for a versatile frame system that can be supplied within a short lead time, at a favourable price point.

With it's telescopic beam for easy installation and the choice of a wide or narrow foot type, the Macro Folding system can accommodate a top size from as little as 1200mm x 600mm all the way up to 2100mm x 1000mm, and because it's a 'one size fits all' philosophy, the lead time is far shorter than other frames on the market.

Multiple frames nest with a low profile footprint, thanks to squared foot design.

The Macro Folding system comes standard with two locking and two non-locking heavy duty castors.

Available in Pearl White or Black Texture with optional chrome powder coat and custom finishes available, and back by a comprehensive 7 year

# WORKSTATIONS

- Desktop Pixel unit
- Desktop Pandora unit

## ACCESSORIES

"A decade of ergonomics research shows that using a negatively sloped adjustable keyboard tray maximizes the time spent working in neutral hand, wrist and upper body postures. These postural benefits can't be achieved by just using a keyboard on a height adjustable work surface."  
—Professor Alan Hedge, Cornell University

Pixel Desktop Power Unit – From \$155

Winya’s technology partner for integrative technology furniture is Ci (Corporate Initiatives), Australia’s most innovative AV integrator. Ci first rose to prominence more than 30 years ago, revolutionising how Telstra approached meeting room technology and since then has created many “firsts” for workplace technology in Australia (and in some cases the world). Ci workplace projects are universally highly regarded and regularly win national awards.

Being brand agnostic, Ci are able to tailor technology combinations within our furniture to specifically to suit your preferences. This enables you to tie in with any automation or replacement spare arrangements already in place. Winya Collabtech products are therefore able to dovetail neatly within any existing workplace situation and become a great way to supplement what you have already with extra resources, all expertly delivered with a minimum of fuss. All forms of cloud collaboration are supported, as are device based technologies.

Winya’s Ci integrative furniture not only offers great economy for incremental upgrades a room at a time. It also saves you a fortune when undertaking a fit out of new premises or refurbishing your existing offices. In fact the bigger the project, the more you will save.

# PERSONAL STORAGE
