

As Galatasaray SK, we play an important role in pioneering Turkish sports history. Besides being the only football team in Turkey that achieved a continental quadruple (UEFA Cup, UEFA Super Cup, Turkish Super League Championship, Turkish Cup) in the history, Galatasaray is also seen as Turkey's gateway to the West.

Additionally, on top of football together with our 14 sportive branches and 18 professional sports teams, we are a sportive powerhouse in Turkey. As one of the largest NGOs in Turkey, besides sports, we are an active participant in key CSR themes within Turkey. In this context, it is widely anticipated for Galatasaray to launch new projects to support the social and cultural development of our country.

Considering our association status, our role in the community, expectations from our members and our great influence power on the society, we have formally created our Corporate Social Responsibility (CSR) department and defined our annual CSR strategy going forward.

Our engagement with UN Global Compact is a critical pillar within our CSR strategy. Attached please find the presentation of what we performed in 2020 based on our CSR strategy also in light of our promises to UN Global Compact.

We are delighted to be a part of UN Global Compact community and we promise to continue with our strategies & executions in 2021.

Best Regards,

Chairman
Mustafa Cengiz
