

July 16th, 2020

Dear Global Compact,

We are pleased to present to you and all our stakeholders our Annual Integrated Report 2019, as well as our Sustainability Report. These Reports depict some of the most relevant actions carried out related to the company's five pillars: Safety, Sustainability, Excellence in Service, Transparency and Corporate Governance and Passion for our Team, our core values in the way we operate day to day and long-term.

ALEATICA is a pure operator of mobility infrastructure company and as such, our reason for being is people, customers, communities, and collaborators, and because of the nature of our business we have a direct relation with environment, through our roads, ports, airport and light train.

It is within this context that we adhere to Global Compact and its Ten Principles on human rights, labor, environment, and anti-corruption. We are committed to take strategic actions to advance in the broader societal goals, the Sustainable Development Goals, especially in this Decade of Action, in which companies, governments, civil society, and all stakeholders must come together to accelerate the way we concretely contribute to them.

As you will see in our Annual Integrated Report, in ALEATICA, because of the nature of our business, we have committed specifically to the following SDG: 3. Good Health and Well-Being, 7. Affordable and Clean Energy, 10. Reduced Inequalities, 11. Sustainable Cities and Communities, 16. Peace, Justice and Strong Institutions, and 17. Partnerships for the Goals.

The Sustainable Development Goals, along with our pillars, will keep guiding our business to make it sustainable for people, the environment, and our planet, our home. COVID-19 has made evident many pending issues such as inequality, poverty, food security, water supply, the need for innovation, access to technology, among others. Our role is crucial for attending to them and we are committed in doing it.

Sincerely,

Ken Daley
CEO
