

## Part II. Description of Actions

ECCA Nepal supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption. ECCA Nepal has been working on sensitizing private sector in responsible business issues through promoting different environmental campaigns (such as plant a tree, lights for all, school environment program, WASH, no rain in drain and one school one heritage) which directly or indirectly support the Sustainable Development Goals (SDG). ECCA Nepal has been approaching private sector to partner up for these campaigns to achieve the SDGs.

ECCA joined the UN Global Compact since 2008 and now in the recent changed context ECCA is founder of Global Compact Nepal which being officially registered and is taking responsibility of Treasurer by ECCA representative in GCN . ECCA is joining hand with different likeminded members to facilitate and manage the GCN professionally.

As ECCA being the founder member of Global Compact Nepal, together with other members we developed the GCN strategy documents and as a Treasurer maintaining the GCN finance and audit.

GCN organized the programs to introduce GCN with different small and micro entrepreneurs in different partner house and UN Building in 2019 and 2020. GCN has started to invite all potential members in every annual meeting to share the progress and potentiality of Global Compact. Learning from GCN, ECCA has started supporting home based women to generate income from possible activities like making solar lamp, cotton bags, masks, reusable sanitary pads, disinfectants (chlorine) etc. ECCA has been supporting water filters for schools for making available of safe drinking water in schools and also improve cooking stoves to improve the indoor pollution and health of women and children in villages.

Besides ECCA has been doing different projects, programs and activities in environment, WASH, alternative energy and environmental campaigns. For details we can see in [www.ecca.org.np](http://www.ecca.org.np)

## Part III. Measurement of Outcomes

As being ECCA as an environmental organization it has been performing different environment and social programs to support the improvement of the knowledge of youth, school and society. Program details can be seen in ECCA web [www.ecca.org.np](http://www.ecca.org.np) and in its blogs.

From ECCA, Mr. Yogendra Chitrakar, Executive Director representing as Treasurer in UN Global Compact and contributing accordingly on organizing GCN programs.
