- *Solidaridad works with people throughout the value chain is at the heart of our work, with a focus on small scale and family farmers, and workers on farms and in supply chains and their communities. In Paraguay, our work is focused on sustainability in its essence: power to the people (inclusivity), respect for the planet (producing in balance with nature) and a fair share for everyone in the chain (prosperity). - *In June 2019, Solidaridad Paraguay participated in the Green Recognition Award organized by the UN Global Compact Paraguay. Our MejorAgro Project was a showcase at the UN Global Compact Paraguay. In December 2019, Solidaridad Paraguay was invited to the Global Compact annual meeting in Mexico to present our work on how the inclusion of small producers in sustainable projects contributes to the eradication of poverty and inequality. MejorAgro started as an initiative to gradually and measurably increase the uptake of sustainable practices among smallholder farmers (less than 200 hectares). Cooperative Colonias Unidas is one of the most respected farmer associations in Paraguay, and currently exports 3% of the country's total soybean crop. Its members own small- and medium-sized farms in a region where a zero-deforestation law applies.*
- *The MejorAgro project won international recognition for its use of digital technology, real-time analysis of farming practices, and continual sustainability improvements. The United Nations Global Compact (UNGC), invited project staff to participate at its regional summit in Mexico in December 2019. Furthermore, Solidaridad Paraguay submitted the MejorAgro's project results to an assessment to gauge its real impact and extract lessons learned to take forward. For more information: <https://www.solidaridadnetwork.org/news/how-good-practices-are-improving-the-soy-supply-chain-in-paraguay>
- *Solidaridad Paraguay has actively contributed to the Global Compact local events.
