To the kind attention of the Relationship Management Team,

I am pleased to confirm that Bank Audi reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

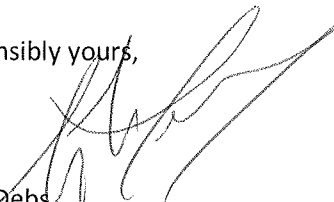

In fulfillment of our Communication on Progress, we opted to submit an online format, where we describe our actions to integrate the Global Compact and its principles into our business, strategy, culture and daily operations considering the current challenges related to the global pandemic, local economic issues and the Beirut Blast.

Our various actions listed in our submission convey the evolution of our CSR journey, guided by our longstanding core values, where our CSR strategy is embedded in our corporate understanding of sustainability.

Our initiatives are aligned with private public partnerships that subscribe to the UN Sustainable Development Goals (SDG), tackling issues that are relevant to our communities, seizing innovative opportunities that contribute to the SDGs, and generally reducing sustainability risks.

We also commit to sharing this information with our stakeholders using our primary channels of communication.

Responsibly yours,

Khalil Debs
