To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the fact, that we have not been able to ramp up our reporting cycle in the data gathering process nor in finalizing the annual integrated reporting compared to previous years. The St1 annual report is published 30th of April in each respective year, and due to severe resourcing challenges we are not able to speed the process to match the COP deadline, which is approximately two weeks prior to this.

We hereby ask for an extension period in order to be able to post a COP that describes our company's effort and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 30th of April 2021 at the latest.

Sincerely yours,
