

**Rio de Janeiro April 17, 2021.**

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and

posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for

the UN Global Compact, a description of practical actions with regard to the principles of the UN Global

Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to We came through this letter to inform that we have not yet sent our COE, due to our headquarters in Rio de Janeiro having been robbed and unfortunately they took our documents and computers, which left us without our files, photos and videos of our social and environmental activities, both local, nationally and internationally, and with the pandemic we are working at home and our team is helping the needy communities in the city of Rio de Janeiro that are facing a difficult period of hunger, lack of water and countless cases of coronavirus, so we are very involved right now working to alleviate these problems, so we ask for a little understanding from you.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by therefore, we inform you that our COE will be published by May 17, 2021 at the latest.

Sincerely yours,

**Mr. Mauro Pereira**
