

Oslo 15 April 2021

TO OUR STAKEHOLDERS:

Cermaq Group recognizes that a key requirement in the UN Global Compact is the preparation and reporting of an annual Communication on Progress (COP). Our 2020 Sustainability report is set for publication in early May 2020. This means that our COP will be published after the usual deadline in April.

We remain strongly committed to the Global Compact's principles and hope for your understanding in asking for an extension period until our report is published. Our COP will be made available on the UN Global Compact website in May 2021.

Kind regards
For Cermaq Group AS

Wenche Grønbrekk
Global Head of Sustainable Development
