Sustainability Accounting Standards Board Index

This index identifies Scotiabank's ESG disclosures that link to the voluntary standards developed by the Sustainability Accounting Standards Board (SASB). Scotiabank released its first SASB Index in our 2019 ESG Report. We have expanded these disclosures and will continue to evaluate additional industry standards and metrics in the future. Unless otherwise noted, all data and descriptions are as at or for fiscal year 2020 and apply to Scotiabank as a whole, not just the businesses within the industries identified by SASB.

205-1	Operations assessed for risks related to corruption All 595 Assessable Units (AUs) have self-assessed risks related to corruption as part of an annual review process, with none reporting residual risk higher than a moderate risk rating for 2020.
205-2	Communication and training about anti-corruption policies and procedures Adherence to the Scotiabank Code of Conduct (the Code) is a condition of employment at Scotiabank. All employees, directors and officers are required to receive, read and comply with the Code and any other applicable Scotiabank policies, and affirm their compliance on an annual basis. Scotiabank Code of Conduct training is provided to all new hires and annually to existing employees as part of the Global Mandatory Learning cycle. This course covers the six Guiding Principles as set out in the Code along with content relating to other key employee conduct policies. In addition to the Code training, a separate training on Anti-Bribery and Anti-Corruption (ABAC) is also
	required for all employees as part of the Global Mandatory Learning cycle. A total of 101,867 employees completed the ABAC course throughout 2020. A total of 102,100 employees were assigned the training and the participant rate was 99.8%.

Total Electricity and Fuel (GJs)	1,223,117	625,825

Note: The above information was collected from the best available data and methodologies, which includes information directly captured from invoices processed for payment from various utility vendors. Utility consumption figures are collected directly from invoices when entered for payment. Consumption entries are then subject to monthly audits by Real Estate and an energy consulting firm. These figures are then subject to a final audit by an independent third party for verification. The audited and verified consumption figures are then used by both third-party suppliers and Real Estate in comparing technical specifications for facilities projects and weighted average consumption estimates based on actual portfolio consumption to determine energy savings associated with any given initiative.

302-1 Our Canada data is based on 950 owned and leased retail locations and the space occupied by the Bank in 119 office buildings across Canada, representing approximately 1,044,472 square metres. Our International data is based on 1,824 owned and leased retail locations and the space occupied by the Bank in 135 office buildings outside of Canada, representing approximately 1,187,715 square metres.

*Includes renewable (hydro, solar, wind, geothermal, tidal) and nuclear sources, and may include the use of renewable energy certificates (RECs).

2020	557,082	0.53	281,910	0.91

Note: The above information was collected from the best available data and methodologies, which includes information directly captured from invoices processed for payment from various water vendors. We continue to expand the geographic scope of our reporting boundary with the objective of reporting total consumption. When necessary, some buildings were estimated using consumption data found in similar regions and building types.

In 2020, our Canada figures are based on a combination of owned/leased retail locations and office buildings occupied by the Bank across Canada, representing approximately 1,044,472 square metres. This represents the full Canadian portfolio. The increase in total water use and intensity from 2018 to 2019 in Canada is mainly attributed to more accurate estimated data for some large office buildings.

Our International figures are based on a combination of owned/leased retail locations and office buildings occupied by the Bank in countries where data is available, representing a sample of the International portfolio, equal to approximately 308,797 square metres.

Turnover is defined as permanent departures from employment with Scotiabank. Voluntary turnover includes Resignations and Retirements. Involuntary turnover includes all other reasons for terminating employment. Total turnover may not equal the addition of voluntary and involuntary turnover due to rounding. Turnover from 2018 and 2019 has been restated in 2020 due to the implementation of new human resource systems and a change in methodology.

Minimum notice periods regarding operational changes

A. Minimum number of weeks' notice typically provided to employees and their representatives prior to the implementation of significant operational changes that could substantially affect them.

In unionized locations in the English Caribbean, the following notice periods apply:

Antigua and Barbuda: Scotiabank consults with the Union three months in advance of a layoff due to lack of work.

Barbados: The Bank shall consult with the Union three months in advance of a layoff due to lack of work. Additionally, consultation with employees or the Union is required at least six weeks before any dismissals which will result in a reduction of 10% or another significant number.

Jamaica: Reasonable notice is required based on the circumstances of each case of an employment layoff.

In the unionized locations of Latin America, the following notice periods apply:

Mexico: Scotiabank's general practice to maintain positive labour relations is to socialize the operational change in advance with the Union.

Peru: At least eight days of notice is required when there are changes related to work schedules Also, at Crediscotia, eight weeks of notice is required for changes in work schedules.

Uruguay: Scotiabank's general practice to maintain positive labour relations is to socialize the operational change in advance with the Union.

Brazil: Four weeks of notice is required in advance of a layoff.

Human Resource policies and procedures	Our AskHR online repository makes it easy to find policies on wellness, benefits, occupational health and safety, flexible work arrangements and other workplace accommodations.
Traumatic mental stress	We provide resources and support to any employee in Canada who witnesses a traumatic mental stress event in the workplace and screen for indicators of mental stress.
Work injuries	We partnered with an impartial work injury service provider in Canada to ensure employees impacted by a work injury are given support for a safe return to the workplace.
Ergonomics and workplace	Our Ergonomic Policy outlines Scotiabank's commitment to providing optimal working conditions. For employees working remotely, the Bank supplies monitors and keyboards to assist with proper ergonomic workplace setup. We also adhere to recognized standards* for office illumination, noise levels, air quality, humidity and temperature.
Stress management training	The Employee and Family Assistance Program in Canada supports employees and their families through times of personal challenges through short-term counselling services.
Employee health and well-being	Core benefits coverage is provided to all regular-status employees and contract employees after one year of continuous service in Canada. We also give these employees the option to allocate benefit credits to healthcare and well-being spending accounts.

406-1 Incidents of discrimination and corrective actions taken

In the context of disclosure, an "incident of discrimination" refers to an official legal action filed with the governing authority of the jurisdiction or a complaint filed through Scotiabank's internal complaints procedures where the claim of discrimination is found, either through judicial proceedings or an internal formal investigation and fact-finding procedure and process, that there is a breach or non-compliance with established corporate policies, governing statutes or regulatory regimes. Substantiated cases of sexual harassment were included within the reporting data of an "incident of discrimination."

During 2020, the Bank had, across all jurisdictions in which it operates, 31 substantiated incidents of discrimination.

412-1

Operations that have been subject to human rights reviews or impact assessments

In 2015-2016, Scotiabank commissioned the Danish Institute for Human Rights and Business for Social Responsibility (BSR) to conduct a human rights assessment to understand how the Bank impacts the human rights of its employees, customers, contractors, business partners and community members in both positive and negative ways. The assessment was conducted in our key markets: Canada, Mexico, Peru, Chile, Colombia and Caribbean.

SOCIAL	
412-1 (cont'd)	In 2020, Scotiabank re-engaged BSR to evaluate progress against the salient human rights issues identified in the 2016 assessment, and to identify new and emerging human rights issues. Potential and actual human rights impacts on stakeholders related to Scotiabank's operations and business relationships were mapped, and then assessed and prioritized based on criteria in the UN Guiding Principles on Business and Human Rights, resulting in a priority list of human rights risks for Scotiabank to monitor and manage. BSR conducted dozens of interviews with internal and external stakeholders in our key markets: Canada, Mexico, Peru, Chile, Colombia and Caribbean.
412-2	Employee training on human rights policies or procedures See p. 54 in the 2020 ESG Report
413-1	Operations with local community engagement, impact assessments and development programs All of the markets where we do business are engaged in local community development programs. Year- end reports from our community partner organization are provided annually. For more information see pp. 43-49 in the 2020 ESG Report
414-1	New suppliers that were screened using social criteria New and existing suppliers invited by Global Procurement Services to participate in formal Request for Proposals were assessed and evaluated based on a set of quantitative and qualitative criteria, which includes ESG factors. See p. 56 in the 2020 ESG Report
415-1	Political contributions In Canada political contributions are not permitted federally, municipally and in many provinces. In an effort to be consistent across all our operations, Scotiabank made the decision in 2016 to end political contributions in all areas of operations.
418-1	 Substantiated complaints concerning breaches of customer privacy and losses of customer data We reported eight (8) privacy breaches to regulators internationally in 2020 that met regulatory reporting thresholds and all instances involved personally identifiable information (PII). However, none of these reported privacy breaches caused significant economic, environmental and social impacts; or substantively influenced the assessments and decisions of stakeholders. Of these privacy events: i. Seven (7) were identified internally by Scotiabank or received from outside parties and substantiated by Scotiabank in 2020: a. Canada five (5) b. Costa Rica one (1) c. Dominican Republic one (1) ii. One (1) complaint was received from the regulator in Uruguay There were two (2) additional privacy complaints received in 2019: i. Cayman Islands one (1) from an outside party and substantiated by Scotiabank ii. One (1) complaint was received from the regulator in Colombia
