Dear Mr. Secretary-General,

I am pleased to confirm the continued commitment of the AKKA Technologies Group to the UN Global Compact and its principles within the areas of human rights, labour, environment and anti-corruption.

We are engaged in making the UN Global Compact part of the strategy, culture and day-to-day operations of our company, and in promoting the universal sustainability principles within our sphere of influence.

We support public accountability and seek to optimize the communication to our stakeholders on our commitment and efforts to implement the ten principles of the Global Compact.

To enhance transparency and oversight, the 2021 Communication on Progress (COP) has been integrated into the Statement of non-financial performance in our Annual Report for 2020. It includes the following:

- Descriptions of practical actions to comply with the Global Compact principles
- Qualitative or quantitative measurements of results (when applicable)
- Description of future corporate responsibility objectives

Sincerely yours,

**Mauro Ricci**
