

Do the right thing!

Integrated Report

Our sustainable value creation

Consolidated Non-Financial Statement pursuant to Legislative Decree 254/2016

Banking that matters. |  **UniCredit**

Report structure

UniCredit Group (hereinafter also “the Group”) has prepared this document in compliance with the requirements of Art. 3 and 4 of the Legislative Decree 254/2016, which implements European Directive 2014/95/EU in Italy.

The Integrated Report (the “Report”) has been approved by the Board of Directors of UniCredit SpA on March 5th, 2021 and has been produced by the ESG Strategy and Impact Banking structure, in collaboration with the all the relevant functions. In line with the requirements of Legislative Decree 254/2016, the process of preparing the Consolidated Non-Financial Statement (“NFS”) is regulated by a specific policy, issued in 2017. As foreseen by Article 5 of the Legislative Decree 254/2016, this document constitutes a separate report marked with a specific heading, to allow its reconciliation with the NFS required by the regulation.

The Report should be considered in its entirety, including its Supplement, which is here enclosed or available in the Sustainability section of our website (www.unicreditgroup.eu) and contains a number of essential indicators and underlying quantitative data.

The guidelines adopted for the preparation of the sustainability information included in the 2020 Integrated Report, including its Supplement, are the “GRI Sustainability Reporting Standards” and the “Financial Services Sector Disclosures,” issued both by the GRI - Global Reporting Initiative. The performance indicators reported in accordance to the guidelines adopted are included in the “GRI Content Index” section. The principles contained in the International <IR> Framework, published by the International Integrated Reporting Council (IIRC), were also used as reporting framework. Figures and information relating to the Scope 1, Scope 2 and Scope 3 classes of greenhouse gas emissions have been prepared in accordance with “The Greenhouse Gas Protocol: A Corporate, Accounting and Reporting Standard (Revised Edition, 2004)” as well as the “GRI Sustainability Reporting Standards.”

The information in the Report addresses the issues that were identified as material and their associated indicators, which reflect the main economic, environmental and social impacts of the Group or could have a substantial influence on the views and decisions of its stakeholders. The materiality analysis, updated in 2020, was fundamental to determine the topics to be reported on, in line with stakeholders’ needs. Following the analysis of the relevant topics indicated in Article 3 of the Legislative Decree 254/2016, the use of water was not considered significant for the representation in this NFS. The content of this Report refers to the year 2020 and, in particular, to the activities of UniCredit during the year, unless otherwise stated. Figures relating to previous years are provided for comparison and refer mainly to the 2019 fiscal year.

Concerning the reporting perimeter, in line with previous years the legal entities consolidated on a line by line basis by UniCredit SpA have been analysed in order to identify the relevant companies and ensure the Report would provide a proper understanding of the Group’s activities, development, performance and relevant impacts. In particular, with reference to year 2020, the reporting perimeter represents 98 percent of Group’s FTEs. Community contribution and initiatives in support of Communities included in the “Social and relationship Capital” chapter include data and information

related to UniCredit Foundation - Fondazione di studio in onore del Cavaliere del Lavoro Ugo Foscolo (the “UniCredit Foundation”), not included in the perimeter of the consolidated financial statements. The data reported in the paragraph of the Supplement “Compliance - Whistleblowing” refers to the legal entities currently monitored and considered relevant by Group Compliance. For figures related to staffing and calculations of the Value Added, the perimeter of the Report corresponds to the 2020 consolidated financial statements, unless otherwise indicated. In accordance with GRI Standards 207-4, taxation data, added this year, are related to the fiscal year 2019 and compared to 2018 data. The information’s source of the disclosed data comes from documents reported to the fiscal bodies as required by law. Any conditions that may limit the scope of the data are clearly disclosed throughout the Report.

To ensure reliability, the Report includes directly measurable quantities and limits the use of estimates as much as possible. Potential estimates are based on the best available information or spot checks. Restatements of previously published figures that have been provided for comparison are clearly indicated as such.

This Report has been externally assured by an independent assurance provider in accordance with the criteria established in the principle “ISAE 3000 Revised”. Its conclusions regarding the compliance of the information provided with Article 3, paragraph 10, of the Legislative Decree 254/2016 are set out in a separate external assurance report. The procedures followed for the assurance of the NFS are disclosed in the “Report of the External Auditors”, included in this Report.

During 2020 UniCredit decided to further enhance the governance of ESG aspects and embed them in the overall business strategy during 2020, by strengthening the former sustainability function and creating a structure fully dedicated to ESG Strategy and Impact Banking. A long-term journey aimed at defining a new ESG strategy was launched and represents a key component of a wider ongoing strategic review. For an overview of this process, the main targets and commitments as well as for the principal generated or perceived risks in relation to those issues and how they are managed, refer to Our Strategy and Our Sustainable Business Model chapters of this Report.

UniCredit signed the UNEP FI Principles for Responsible Banking (PRB) in October 2019. The full PRB Report disclosing the progress made in implementing the Principles has been approved by the Board of Directors together with the present Integrated Report and is available on the website of the Group, while a simplified table is provided in this Report. With reference to climate change, a separate document dedicated to the disclosure aligned with the Task Force on Climate-Related Financial Disclosures (TCFD) recommendations will be issued in June 2021.

UniCredit has taken decisive actions to support all the stakeholders during the Covid-19 pandemic. The initiatives adopted to face this unprecedented challenge are summarised in a specific section, Snapshot Covid-19, at the end of the Report, as well as spread throughout the relevant Chapters, within dedicated focuses.

BANKING THAT MATTERS

.....

“I am very proud of everything that we have achieved at UniCredit, over the past few years, especially in 2020.”

Chief Executive Officer's message

Jean Pierre Mustier
CHIEF EXECUTIVE OFFICER
UNICREDIT SPA

Dear Shareholders,

The year 2020 was a big shock for all of us. We faced new challenges with the benefit of a strong balance sheet, thanks to all the great work done by our teams. We were able to assist and support our clients and team members, while protecting them.

The needs of our clients changed even faster, so we accelerated the transformation of the Group already planned for in Team 23. All transformation requires courage and 2020 has been a year where our team members have shown extraordinary commitment. In UniCredit, we celebrated our branch heroes, who supported our customers throughout the lockdowns. We continue to collect their stories and those of other teams, across the Group, to discover how we have been, and are still, facing these unprecedented times. The health and safety of our team members and clients has always been and will remain our top priority.

Outside the Group, we also supported heroes in the medical sectors by supporting medical innovation, such as the CURA pod prototype, as well as offering zero interest rate loans and donating millions to hospitals and the healthcare services in several of our countries.

UniCredit in 2020: Do the right thing!

I am very proud of everything that we have achieved at UniCredit, over the past few years, especially in 2020. Thanks to our strong position, and our people, we were able to be part of the solution during a very challenging year.

Throughout the health emergency, we remained open for business and continued to serve customers in all our countries, while keeping them and our people safe. We did this by accelerating the switch to digital and remote banking. We made decisions quickly, based on data, to protect colleagues and clients. We rolled out new laptops and VPN access to give around 80,000 UniCredit employees the possibility of working remotely. We unlocked potential by giving our people the opportunity to work safely and effectively, while making sure they could continue to contribute.

While all this began as a response to the health crisis, the ongoing situation led to pronounced changes in our clients' mindset, behaviours and needs, as well as developments in our own. The Covid-19 pandemic created a need and an opportunity to accelerate our transformation.

We are now investing to make sure that these improvements are long-lasting. For example, we are rolling out training to help our people lead remote teams and manage hybrid working. We will also continue to support our employees with a new welfare and wellness offer: work-life balance will be increasingly important in the future.

Ethics & Respect

Do the right thing!

At the same time, human interactions will remain key to our Group culture. Our strong working relationships are one of the reasons why UniCredit has been able to work remotely so effectively over the past few months. The workplace will continue to be an important element of our lives, and while things will certainly be different, the change may be less extreme than some might think.

In 2020, we made important contributions to our communities and the real economy. These include our Social Impact Banking, which started in Italy in 2017 and has since been extended to 10 other Group countries. As at the end of 2020, we had disbursed well over €225 million to support nearly 4,400 projects and microenterprises that make a social impact. We remain on track to meet our goal of providing €1 billion of social impact financing by 2023.

We also responded to the health and economic emergency with a wide range of volunteering initiatives and donations, including millions of euros donated by UniCredit employees and customers and the UniCredit Foundation. You can read about some of these activities later in this report and on our website.

All this was possible thanks to our corporate culture, which is based on two values, Ethics and Respect, and our commitment to always **Do the Right Thing!** This guiding principle governs our interactions with all our stakeholders.

In 2020, we continued to lead most international peers on governance, such as pay practices and board structure. We are the only bank in Italy with an EE+ rating from Standard Ethics, recognised as a European excellence in terms of sustainability.

This is all thanks to our concrete ESG actions, such as the launch of our new coal policy, that commits UniCredit to ending all coal financing by 2028. We also ranked number one globally for sustainability-linked loans by Bloomberg¹ and were awarded Best Social Impact Bank in Europe by Capital Finance International. UniCredit will soon be launching other new initiatives, in line with our ESG strategy.

With our management leading by example, we will continue to build a sustainable future, where environmental, social and governance factors are essential for long-term growth. At UniCredit, sustainability is part of our DNA. We say what we do and do what we say, and we always favour long-term sustainable outcomes over short-term solutions. We will continue to support our clients, communities, partners and the industry at large, in becoming increasingly sustainable.

¹ Data refers to 3Q20.

Looking to the future

As the world adjusts to the changes brought about and accelerated by the Covid-19 pandemic, there is a clear need for companies investing in a long-term vision that is shared with all their stakeholders. This includes the financial services industry: banks will continue to play a very important role in ensuring that local companies have access to adequate funding.

UniCredit has shown the importance of pan-European banks, combining strong global products and local excellence. Our long-term focus is on being One Bank. The Group will continue to leverage on technology to accelerate the digital and remote banking transformation, while focusing on sustainability: continuing to look beyond purely economic profit to consider social impact banking initiatives and other community support.

This is the last time that I will address you as the UniCredit CEO. I am very happy that Andrea Orcel is joining the Group as my successor. He will be supported by a fantastic team, loyal clients and supportive shareholders. My warmest regards go to all my outstanding colleagues, who have worked relentlessly to transform the bank. I am immensely proud of everything that we have achieved together.

UniCredit is a very strong bank and all our stakeholders can count on us. We will continue to **“Do the Right Thing!”** to support our clients, communities and our team members, in order to create value for our shareholders.

Thank you!

Jean Pierre Mustier

Chief Executive Officer UniCredit SpA

Our sustainability journey

Roberta Marracino
HEAD OF GROUP ESG
STRATEGY & IMPACT BANKING

Despite the dramatic impacts on people, behaviours and the economy that the outbreak of the Covid-19 pandemic has generated, the decisive actions taken by UniCredit to protect and support its employees, customers and communities has enabled the Group to remain fully open for business across all geographies. This prompt reaction has boosted the digital transformation journey thanks also to our strong foundations, sustainable business model and the unfailing commitment of all team members.

Certain pre-existing trends have also further accelerated in this context in which Covid-19 acted as a catalyst on sustainability momentum: sustainability materiality and ESG factors have gained intensity, with Social and Governance components under the spotlight. The increasing attention paid by stakeholders to the social impact of banking activities is speeding up the transition towards a more ESG-driven organisation. European institutions and regulators are playing a strategic role in addressing a sustainable recovery, from climate change risk to a new approach to finance, in line with a new model of society and business.

UniCredit is already playing an important role in the ESG global framework and, as a leader in the sustainable finance sector, aims at guiding capital reallocation towards economic activities which generate a positive impact on society.

We wish to be at the forefront of social change and green transition, drafting a long-term sustainability strategy, embedding ESG factors in our risk framework and improving transparency because we recognise the importance of being purpose-driven global leaders, contributing to a more equitable and sustainable society: this is also a great business opportunity we cannot miss.

The growing importance of ESG is leading all companies to rethink their business models in many ways. For UniCredit, sustainability is not something new. ESG has become a hard rather than soft discipline and, fundamental for long-term value creation, will be fully integrated in our decision-making processes across our business and operations.

ESG helps us live by and deliver our values, continually increasing our impact on the community.

This is manifested both in our approach in accompanying customers in the transition towards a low-carbon economy and in the activities of our Social Impact Bank. Supporting and financing people and organisations at risk of financial and social exclusion is our contribution to achieving Sustainable Development Goals, as also highlighted by our best-in-class corporate governance and our continued focus on diversity and inclusion.

Through the UniCredit Foundation, we implement corporate citizenship, philanthropic, social and humanitarian initiatives and support students in their studies and research projects.

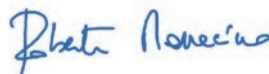

The constant involvement and commitment of the Board of Directors and its committee dedicated to Corporate Governance, Nominations and Sustainability are a clear signal that ESG topics play a central role in discussions regarding strategy.

A long-term journey aimed at further enhancing our ambitions with respect to ESG was launched last year and represents a key component of a wider ongoing strategy review.

Yet our underlying goal is to integrate all ESG factors in the bank's strategy, core business and processes, considering both risks and market opportunities and with a clear multi-stakeholder approach: this is UniCredit's mandate and the main aim of the journey.

With the certainty that sustainability is a key priority for the Group and an underlying pillar of its long-term strategy, with a view to reinforcing our role of purpose-driven global leader, the core functions of the Group have been involved in the project to design and implement the journey towards the definition of UniCredit's new ESG ambition, strategy and targets.

In a changing context, playing our role as part of the solution within the wider industry is crucial. Responding to market and societal challenges, supporting our customers, colleagues, and communities now and in the future, creating value for all our stakeholders in a responsible and sustainable way remains our guiding spirit in *Doing the right thing!*

Strategy & Impact Banking

UniCredit meets Treedom: the initiative which reduces CO₂ and engages all employees

UniCredit partnership with Treedom, the online platform allowing people to plant trees remotely and follow their growth online further confirm our commitment to sustainability.

The initiative will create the UniCredit Forest:

CONSISTING IN

> 90,000 NEW TREES ^A

CONTRIBUTING TO REDUCE GLOBAL CO₂ BY

~ 20,542,500 KG

OVER THE NEXT 10 YEARS, EQUIVALENT TO
THE EMISSIONS PRODUCED BY AROUND
4,400 CARS EACH YEAR ^B

^A Which will be planted across Italy, Colombia, Haiti, Kenya, Madagascar and Tanzania.

^B Source: <https://www.epa.gov/energy/greenhouse-gas-equivalencies-calculator>.

All employees of the Group will have the opportunity to get involved in the project by:

- > planting their own, personal tree in the UniCredit Forest for free
- > benefitting from a special discount if they want to plant more trees.

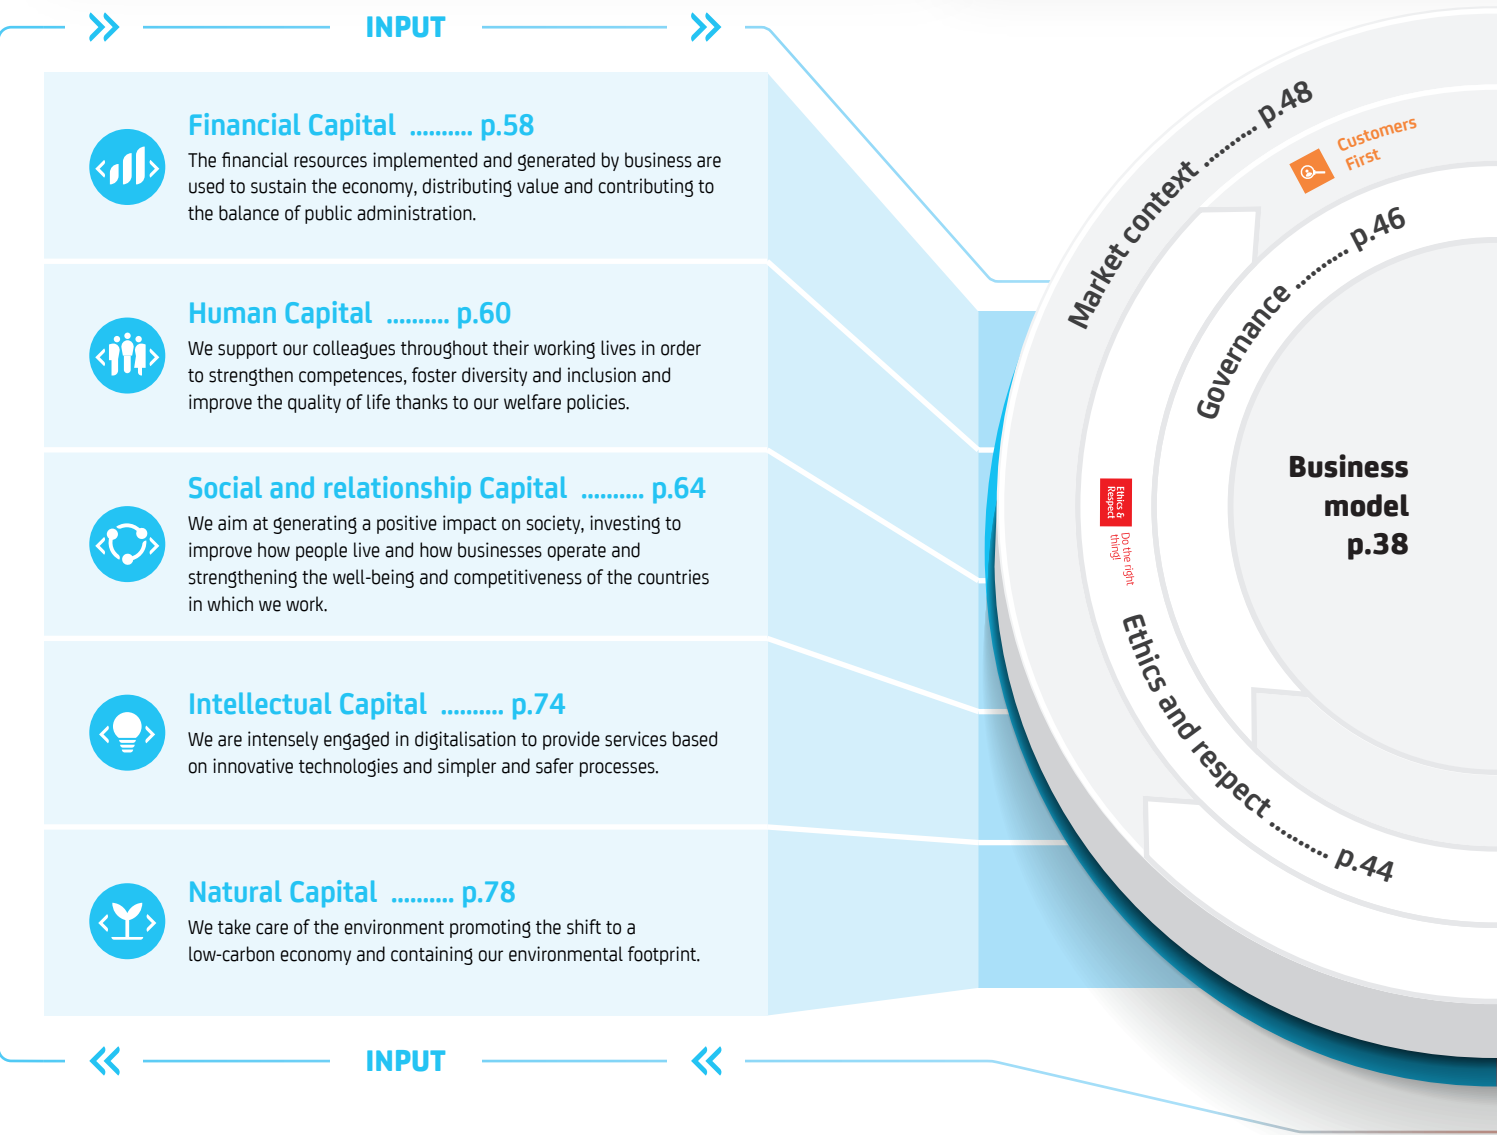

Our value creation over time

We create tangible value for all our stakeholders by providing real solutions to real needs. This is what we mean by Banking that matters.

1. CARING AND CONCRETE TO OUR RESOURCES

We take a caring and concrete approach. Adding value to our resources enables us to offer concrete solutions to stakeholders. We care and act as Banking that matters.

2. WE BUILD VALUE THROUGH OUR BUSINESS MODEL

We are *One Bank, One UniCredit* – a successful pan-European commercial bank with a fully plugged-in Corporate and Investment Bank (CIB), delivering a unique Western, Central and Eastern European network to our extensive and growing client franchise. In line with our Ethics and Respect values, we are committed to doing the right thing for shareholders, clients, colleagues, communities and the environment to make sure that UniCredit remains a pan-European winner.

^A Refer to Our Sustainable Business Model chapter for more information.

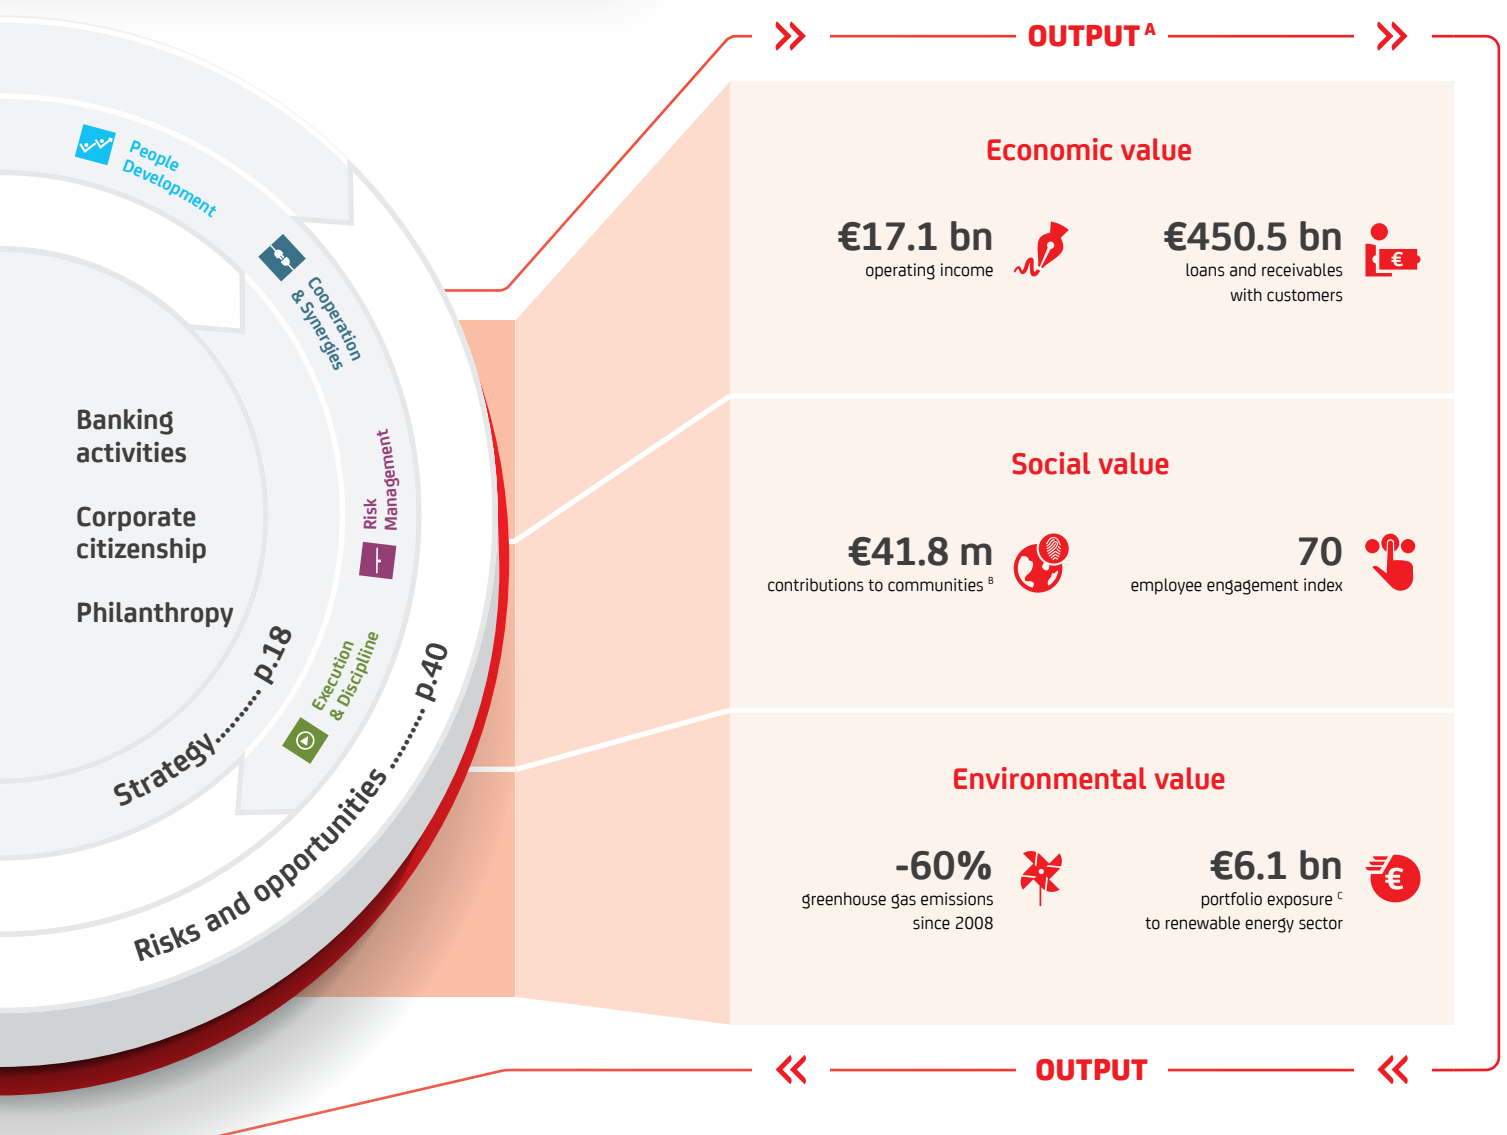

^B Impacts deriving from Business Innovation for Social Impact amount to a further €6.5 m in relation to the *Social Impact Banking* project. Refer to the Social and relationship Capital chapter for more information.

^C EAD, Exposure at Default.

Our governance and Group strategy, built on our Ethics and Respect values and *Do the right thing!* principle, guide us in dealing with market risks and opportunities.

3. WE DISTRIBUTE VALUE TO STAKEHOLDERS

Thanks to our approach and business model, we contribute to improve the well-being of people and the protection of the environment.

BANKING THAT MATTERS

Our Strategy

We are a simple, successful, Pan-European commercial bank, with a fully plugged-in Corporate and Investment Bank (CIB), and the *Team 23* Strategic Plan clearly conveys our intention to continue building on our existing competitive advantage characterised by the unique Western, Central and Eastern European network, a strong position as the go-to bank for Small and Medium Enterprises (SMEs) and an extensive and growing customer franchise.

We are proactive in **capturing commercial opportunities** whilst keeping a tight rein on risk, execution and cost control. *Ethics and Respect: Do the right thing!* is the statement that perfectly represents the values and principles on which our banking activity is based and which leads to the concrete

results achieved. Our people's enormous effort has been essential for these achievements and is a constant proof of belonging to *One Team, One UniCredit*. It is after them that our strategic plan has been named: **Team 23**.

^B Data as at 4Q20, where available (otherwise as at 3Q20), based on available public data. Peers include: BNP, Deutsche Bank, Santander, HSBC, Intesa Sanpaolo, Société Générale. FX exchange rate at 30 September 2020 for 3Q20 data.

^C Data as at 4Q20, where available (otherwise as of 3Q20), based on available public data. For Germany, only private banks, for CEE data as of 3Q20, compared to Erste, KBC, Intesa Sanpaolo, OTP, RBI, SocGen, UniCredit including Milan Profit Centre, for Austria ranking on single entities only possible on the basis of annual figures: FY19 latest figures available.

Team 23

Our **four-year Team 23 Strategic Plan**, covering the years 2020 to 2023, was launched on 3 December 2019 during our Capital Markets Day (CMD) following the successful execution of our previous *Transform 2019* three-year plan.

Team 23 is based on **four pillars**, while **Sustainability** represents its **underlying assumption**, showing how in UniCredit value creation means more than just generating financial values.

TEAM 23 STRATEGIC PLAN

In UniCredit **value creation** means integrating **sustainability** into our business strategies in terms of financial, human, social and relationship, intellectual and natural capitals. This commitment was reinforced in November 2019 with the announcement of a series of sustainability targets fully integrated into business strategies. From a financial perspective, *Team 23* is a pragmatic plan with tangible actions based on conservative assumptions. The targets here represented were set considering a framework characterised by negative interest rates impacting on the Bank's profitability, a limited macroeconomic growth and regulatory headwinds. A strategic update process has started in light of the impactful changes that occurred in 2020. The outbreak of the Covid-19 pandemic has indeed produced dramatic impacts on people, behaviours and the economy. From the onset in Italy, UniCredit has taken decisive actions to protect and support its employees as well as customers and communities while remaining fully open for business across all geographies.

Thanks to strong foundations and a sustainable business model, the key guidelines of *Team 23* have allowed UniCredit to react quickly and further accelerate the digital transformation journey.

TEAM 23 RESULTS IN 2020 (2023 TARGETS UNDER REVIEW)

	2020	TARGET 2023 ^A
RoTE:	2.5%	> 8%
Cost:	€9.8 bn	€10.2 bn
Gross NPE ratio:	4.5%	< 3.8%
Tangible Equity, EoP:	€50.5 bn	€60 bn
CET1 MDA buffer:	605.0 bps ^B	between 200 and 250 bps
Underlying net profit:	€1.3 bn	€5 bn

^A Refer to the 2019 Integrated Report for more information.

^B FY20, including deduction of share buyback of €179 m, subject to supervisory and AGM approval. FY20 stated MDA buffer at 611 bps. Comparable pro-forma FY20 CET1 MDA transitional buffer at 688 bps.

An unprecedented challenge

The Covid-19 pandemic constituted an unprecedented challenge for all economies worldwide. In light of the rapid spread of the disease in various countries, from the first months of 2020, the governments in question imposed restrictions and containment measures. These measures had a severe impact on economic activities in terms of

Gross Domestic Product (GDP) and, with regard to the banking sector, **deposits** and **loans**. Furthermore, **low interest rates** are continuing to affect every bank in Europe. Encouraging news regarding effective vaccines should sustain the recovery path although there are still some uncertainties for the near future.

MACROECONOMIC CONTEXT AND IMPACTS ON ECONOMIC ACTIVITIES

IMPACTS ON THE BANKING SYSTEM

MAIN DRIVERS

- I. containment measures making some purchases impossible or difficult
- II. higher uncertainties
- III. a greater precautionary saving, discouraging investment and the purchase of durable goods.

MAIN DRIVERS

- I. state guarantees support
- II. NFC preferences as opposed to holding cash in order to avoid liquidity shortfalls.

LOAN LOSS PROVISIONS (LLPS)

MAIN DRIVERS

- I. economic slowdown
- II. actions to reduce costs activated by most banks.

REVENUES

MAIN DRIVERS

- I. lower interest rates
- II. lower fees due to reduced business activity during lockdown periods
- III. volatile evaluation of some financial assets.

CAPITAL DISTRIBUTION STRATEGY

MAIN DRIVERS

European Central Bank's (ECB) recommendation to:

- I. not pay or limit dividends, starting from March 2020
- II. desist from share buy-backs for 2019 and 2020 in the short term.

^A Actual data for Rates and Real GDP growth for 2020 (GDP, preliminary data). UniCredit scenario based on 2020 GDP forecast for subsequent years.

^B Calculated as weighted average considering Nominal GDP of relevant countries for UniCredit (Italy, Germany and Austria).

^C UniCredit countries in CEE.

^D ECB statistics used in this document refer to Monetary Financial Institutions (MFIs) excluding the European System of Central Banks (ESCB) reporting sector. Adjusted Loans (growth rates adjusted for securitisation and loans sales) - all currencies combined. Euro area (changing composition) counterparts. December 2020 data is provisional. Chain-index series. The data is neither seasonally nor working-day adjusted.

The UniCredit reaction: a responsible and solid OneBank

In the face of this unprecedented challenge, thanks to the unfailing commitment of all colleagues, UniCredit acted swiftly and proactively as **one responsible and solid team** with the aim of continuing to deliver efficient customer

service while protecting the well-being of all stakeholders. Our focus remains on *doing the right thing*, placing the health and wellbeing of our **employees, customers and communities** first.

HOW WE HAVE FACED THE PANDEMIC WITH STAKEHOLDERS FOREMOST IN OUR MINDS

A UNICREDIT STORY

ONE BANK, ONE UNICREDIT

ACTS AS A **FIRST MOVER**, LEVERAGING THE EXPERIENCE GAINED ACROSS OUR **DIFFERENT COUNTRIES** AND **ANTICIPATING THE CHALLENGE**

PART OF THE SOLUTION

WE ARE COMMITTED TO **SUPPORTING BUSINESSES** AND THE **REAL ECONOMY** BY PROVIDING FINANCE, SUPPORTING SUPPLY CHAINS, RAISING BILLIONS OF EUROS OF NEW FUNDING

DO THE RIGHT THING

UNICREDIT AND ITS EMPLOYEES **SUPPORT COMMUNITIES** IN THE COUNTRIES WHERE WE LIVE AND WORK

SAFEGUARD EMPLOYEE SAFETY¹

Employee safety has been guaranteed by acting rapidly to deploy specific actions for all workers, including those required to maintain contact with customers. UniCredit promoted **remote working solutions** for all functions that do not require an in-presence interaction with customers or those necessary to carry out critical activities. Guidelines from the top management put particular emphasis on keeping all colleagues engaged and maintaining a close personal relationship while working from home. At the same time, our **people in the commercial network** continued to offer support to customers by accompanying them in their digital journey while ensuring the respect of all safety measures.

The results guaranteed high standards in terms of cybersecurity thanks also to **technological investment and development**, part of the *Team 23 pillar Transform and maximise productivity*.

The well-being of the employees working from home and the work-life balance has also been supported by new dedicated welfare agreements to cover emerging needs.

The safety of colleagues must always come first also in order to effectively safeguard customers, ensuring maximum focus on their needs in line with our fundamental Customers First strategy.

UniCredit **supported customers** in avoiding any emergency situations by ensuring they maintained liquidity.

> €2.4 bn lent ^A
> 3,300 deferments implemented ^A

Last summer, the bank joined the Covid-19 support package offered by the European Investment Fund (EIF) to **provide business support to CEE countries**, by offering SMEs working capital loans guaranteed better conditions.

Loans for SMEs at an interest rate of **80%** and based on **simplified eligibility criteria**

^A Data as at 15 January 2021 including all Covid-19 initiatives.

CLOSE TO CUSTOMERS: ACCELERATING DIGITAL TRANSFORMATION AND REMOTE INTERACTION

The **Group's digital transformation** as part of the overarching *Team 23* strategy remained a **key priority** during 2020 with a focus on enhancing customer experience and delivering increased productivity through accelerated digitalisation and remote banking initiatives.

Thanks to significant *Transform 2019* and *Team 23* IT investments, the Group was able to quickly adapt to the new ways of working with proven operational flexibility.

A SNAPSHOT OF OUR INITIATIVES AS A LEAN BANK

Enhancement of the **call centre**, transforming it into a real banking channel, leveraging ultimate technology

Roll-out of a new Western Europe **mobile app** with new functionalities

Dedicated campaigns to boost the digital on-boarding of our customers in our online and mobile banking:
600 Customer Managers appointed in Italian top branches and **3,000 new Digital Ambassadors** nominated

Creation of **UBook**, the tool that allows customers to make, change or cancel appointments, speeding up the execution of customer requests

E2E rooms optimisation through the release of a seamless online account opening process:
less than 15 minutes, excluding back office checks, needed to open an account

Our decisive actions led to an increase in **digital** and **mobile** active **users** as well as in digital **sales**.

DIGITAL ACTIVE USERS (M)

MOBILE ACTIVE USERS (M)

CLOSE TO COMMUNITIES: OUR SOCIAL COMMITMENT

During the Covid-19 pandemic, UniCredit has been close to the communities in which it operates. **In order to contain the virus, a deep social commitment has been demonstrated in favour of those in need.**

UniCredit banks in the different markets have made significant donations in the interest of *doing the right thing*, contributing to the fight against the pandemic and demonstrating its employees' attachment to the territory.²

² Refer to the Social and relationship Capital chapter for more information.

OUR CONSTANT GENERATION OF SOCIAL IMPACT

Despite the pandemic, the UniCredit Social Impact Banking (SIB) programme³ continued consolidating its international

presence in 11 Group countries and activating new solutions for its customers, confirming constant business growth.

³ Refer to the 2018 and 2019 Integrated Reports for more information.

PARTNERSHIPS FOR THE GOALS

THANKS TO OUR INTERNATIONAL PARTNERS

COVID-19

UniCredit has reformulated its subsidised offer for customers in the context of the Covid-19 crisis. In particular, SIB has integrated it with additional benefits to reward social innovation, particularly in the health and welfare sectors. Moreover, a **free on-line platform was made available to schools**, allowing teaching activities to continue and all training and accompaniment activities to be carried out remotely.

In Italy, SIB is also committed to supporting an emerging social problem: the burden, especially on women, of caring for families, thus increasing **gender inequality**. Through a campaign launched at the end of the year, a wide range of products has benefitted **micro-entrepreneurs**, organisations engaged in providing **welfare services for families** and companies that have welfare plans and family services dedicated to their employees.

Our ESG Strategy: Sustainability is part of our DNA

The Covid-19 pandemic outbreak has strongly impacted UniCredit and its stakeholders and has represented a tough challenge for the organisational resilience of the bank. Nevertheless, thanks to its *Ethics and Respect* values and guiding principles, UniCredit was able to adapt rapidly to the challenging circumstances, remaining open for business and close to employees, customers and communities.

The way we achieve our results is as important as the results themselves.

Sustainability is part of our DNA and we are continuing to take concrete actions to integrate ESG more fully into the core activities of our bank.

In 2019 we embarked on a journey of further integration of several sustainability topics in the business strategies of our Group. The initiative was greatly encouraged by the Corporate Governance, Nomination & Sustainability (CGN&S)

Committee and the Board of Directors.⁴

The inclusion of ESG-linked indicators in the Long-Term Incentive Plan (LTIP) for top management was an important milestone of this process, with a weight of 10% on variable compensation based on the assessment of three indicators: the ranking in terms of ESG rating by an external rating agency, the people engagement index and the customer satisfaction index.

The graph below illustrates our sustainability performance against our ESG commitments and targets. We have already achieved some of them and are well on track for the ones remaining, again demonstrating the strategic importance that sustainability has for UniCredit and all its employees, who work as *One Team, One UniCredit* to achieve the success of our Group.

⁴ Refer to the 2019 Integrated Report for more information.

UNICREDIT ON TRACK FOR TEAM 23 SUSTAINABILITY TARGETS

ESG KEY 2023 TARGETS		2019	2020	2023 TARGET	STATUS

	> Usage of renewable energy in UniCredit buildings in WEU, %	99	99	100	On Track
	> Position in EMEA combined green bonds & ESG-linked loans ^E	#5	#4	Top 5	On Track
S	> Support projects with a positive social impact, bn	0.13	0.22	1	On Track
G	> Women in senior leadership roles by 2023, %	12	15	30	On Track
	> LTIP: incentivises an improved ranking while penalising a worse ranking ^F	#5	#5	#3	On Track
	> LTIP: incentivises an improved absolute people engagement, ^G pts	73	70	73	On Track
	> LTIP: incentivises an improved customer experience vs. competition, ^H pts	+1	+4	+3	On Track

^A Based on New coal Policy issued in August 2020:

- Zero general financing in all cases of expansion of coal operations (i.e. coal-fired power plants acquisition or opening) by 2028
- Zero exposure to thermal coal mining and coal fired power plant projects by 2023.

^B Including: biomass, hydro, photovoltaic, wind, CHP, battery storage, energy from waste and other renewables as well as corporates predominantly operating renewable energy assets.

^C Including Individuals and SMEs.

^D Vs. base year 2008. Long-term target: 80% by 2030. 100% usage of renewable electricity in our buildings in Italy, Germany and Austria.

^E ESG-linked include: green loans, KPI-linked loans, ESG-score linked loans. Green bonds: include green, social and sustainability bonds. Positioning based on Dealogic league tables.

^F External rating by the independent provider, Sustainalytics, UniCredit ranks 5th among a peer group (15 banks).

^G People engagement is calculated as the average of two measurements across the Plan horizon.

^H Customer experience tracking is based on the strategic Net Promoter Score (NPS).

Our risk management and lending approach, with regard to our retail and corporate offering, are progressively incorporating sustainability factors that will also play an increasingly important role in our short and long-term incentive plans.

Defining clear ESG metrics and targets as we are now doing, both internally and externally, is essential in setting the overall direction.

TRENDS ACCELERATED DURING SUSTAINABILITY MOMENTUM

The Covid-19 pandemic has accelerated some pre-existing trends, acting as a catalyst to the sustainability momentum for all stakeholders: consumers, employees, regulators and investors.⁵

OF ENERGY EFFICIENCY LOANS TO INDIVIDUALS
AND SMEs IN 2020 IN WESTERN EUROPE⁶

We wish to be at the forefront of social change and green transition, drafting a long-term sustainability strategy, embedding ESG factors in our risk framework and improving transparency. We recognise the importance of being purpose-driven global leaders, contributing to a more equitable and sustainable society: this is a great business opportunity we cannot miss.

In July 2020, UniCredit decided to further enhance the governance of ESG aspects⁷ and embed them in the strategy by strengthening the former sustainability function and creating a structure fully dedicated to ESG Strategy and Impact Banking. A new senior leader, also member of the Executive Management Committee, was hired to cover this position.

A long-term journey aimed at defining a new ESG strategy was launched and represents a key component of a wider ongoing strategic review. This journey started with the review of the Group's coal policy⁸ issued in the third quarter of 2020 and sets an important and ambitious target of complete phase-out from thermal coal financing by the end of 2028. Not only will the Group cease its support to projects, as was already foreseen by the previous policy, but it will also end its relationships with customers that do not share its ambition of abandoning coal operations (mining or production of electricity) within the same timeframe.

Our underlying goal is to integrate all ESG factors in the bank's strategy, core business and processes, looking at both risks and market opportunities and with a clear multi-stakeholder approach: this is UniCredit's mandate and the main aim of the journey.

Our long-term ESG journey

With the certainty that sustainability is a key priority for the Group and the underlying pillar of our strategy, in order to strengthen our sustainability performance, an international external advisor with a deep sustainability expertise in

the financial sector has been involved in designing and implementing the journey towards the ridefinition of the ESG strategic plan.

TCFD FRAMEWORK ENHANCEMENT

THE INTERNATIONALLY RECOGNISED TCFD FRAMEWORK

3 KEY ELEMENTS OF ENHANCEMENT

The framework of the project has been primarily based on the Task Force on Climate-related Financial Disclosures (TCFD), which has been enhanced to cover the Social pillar

(S component) and adapted to reflect UniCredit's specificity elements, with deep-dives into its strategy and risk management.

THE PROJECT HAS BEEN STRUCTURED ALONG FIVE STEPS

1 MAPPING OF UNICREDIT ESG PRACTICES

The starting point of the ESG journey was represented by a mapping of all ESG initiatives undertaken at Group level. This activity allowed us to begin our journey with a precise overview of what our Group was doing in terms of ESG in

order to find most relevant areas and creating a direction towards the efficiency and effectiveness of the Group's energy regarding sustainability activities.

AS A RESULT OF UNICREDIT'S PERFORMANCE MEASUREMENT AGAINST A GROUP OF 20 PEERS

MAPPING RESULTS DEEP DIVE

The initiatives collected within the Group have been flagged as impacting on E, S or G pillars with some cross-pillar cases:

● Environment
● Social
● Governance

GRAPHIC DISTRIBUTION OF THE STAKEHOLDERS INFLUENCED BY THE INITIATIVES MAPPED

ENVIRONMENT

SOCIAL

GOVERNANCE

● Colleagues
● Customers
● Regulators
● Shareholders
● Community/society
● Suppliers

2 UNDERSTAND UNICREDIT POSITIONING

UniCredit's relative positioning has been thus identified by comparing scores versus best practices and peer group average.

The result of these activities was a list of the gaps that UniCredit wishes to close in the next three years, in fulfilment of its ambition to achieve recognition as one of the best banks in terms of ESG strategy and positioning.

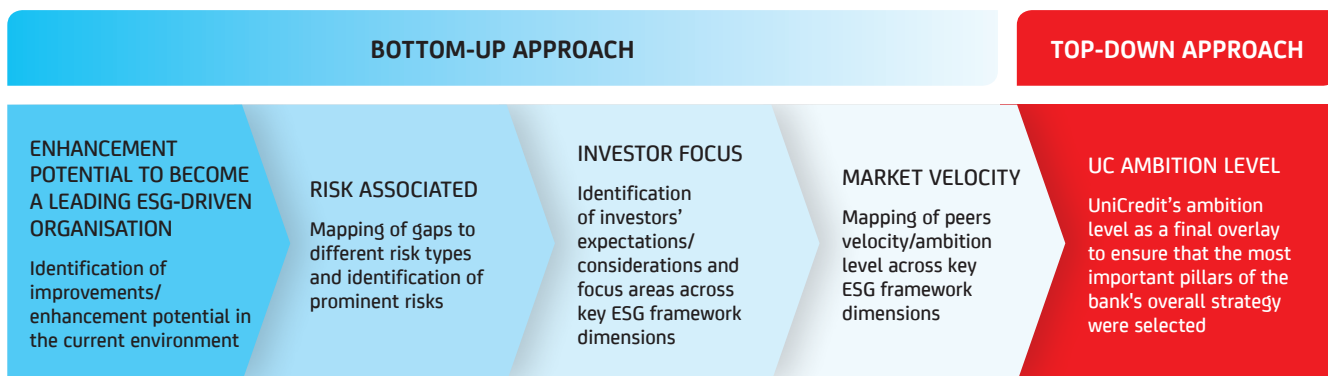

The process confirmed once again that our corporate governance is a best in class, thanks to the strong effort led by the Group on this topic during the recent years. Some areas with potential improvements have been anyway highlighted in order to help us strengthen and maintain our leadership position.

3 PRIORITISATION OF INITIATIVES

With the aim of closing the gaps and prioritising our tasks, a multi-step framework combining bottom-up and top-down approaches has been adopted. To do so, we considered different variables, including the expectations of

regulators and **supervisors**, the growing requirements from **institutional investors** and the speed of change from our **competitors**.

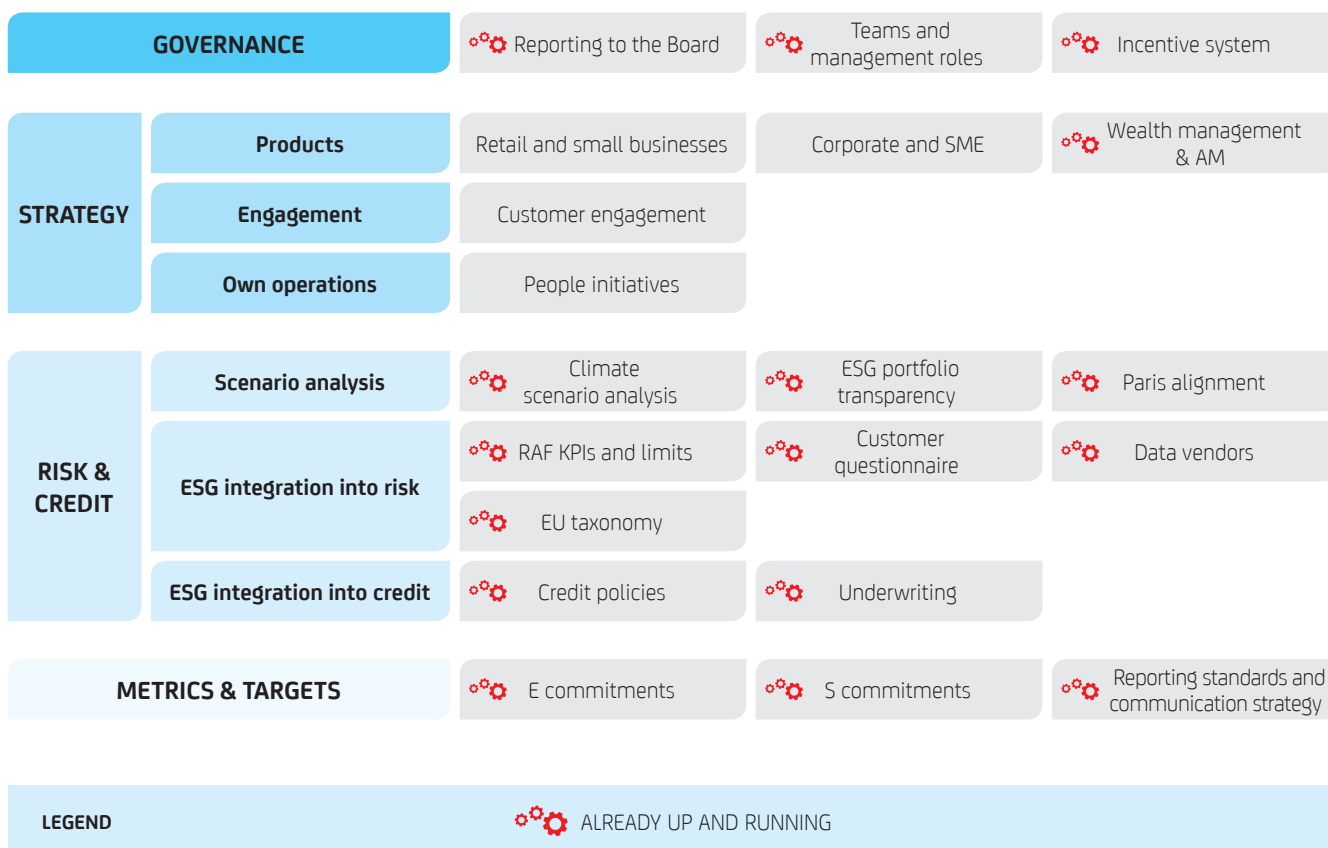

OUR MULTI-STEP FRAMEWORK APPROACH FOR PRIORITISATION

As a result of the prioritisation exercise, 20 high priority initiatives have been selected and will therefore be rolled out in the short term.

In the graph below the initiatives are linked to the elements of our enhanced TCFD framework. This will help us create a detailed roadmap for the successful implementation of the plan.

OUR 20 PRIORITY INITIATIVES

4 DEFINITION OF A DETAILED ROADMAP

We have been working on the definition of a detailed roadmap with an efficient and effective governance and organisation project. This requires the setting up of working groups with owners from all involved functions and legal entities across all countries.

Based on the priority initiatives mapped, we have built an **ESG monitoring framework** consisting of:

A **TABLEAU WITH A SET OF MEASURABLE KPIs**: each of the 20 initiatives was linked to one or more indicators in order to ensure that progress of the implementation could be appropriately measured

A **SUITE OF DASHBOARDS AND REPORTS** which, along with a punctual and reliable datapoints map, should safeguard the correct development of the process across regions and business units

The definition of new ESG targets, coherent with Group ambition level and market trends, is ongoing and will be part of a wider communication plan that will follow the completion of the ESG strategy redefinition.

5 OUR ESG INTERNAL AND EXTERNAL COMMUNICATION PLAN

Our ESG strategy communication plan is key and requires consistent effort across different dimensions. As an important part of this communication effort, we have started to review our Integrated Report, adopting a renewed set-up and an even greater focus on **Key Performance Indicators**. A separate document dedicated to the disclosure aligned with TCFD recommendations will also be issued in June.

The takeaways gathered during our ESG journey will help us ensure the sustainability of our financial capital in the long term as well as protect all our capitals, from natural and social and relationship to intellectual and human.

We aim to create value for our stakeholders in a responsible and sustainable way, in line with our key principle: *Do the right thing!*

Stakeholder Engagement

Our dialogue follows a two-pronged approach towards managing risks and opportunities efficiently. We aim at understanding who and what our business activities affects, as well as how our business development is affected.

Listening to our stakeholders has always been the underlying principle at UniCredit, leading us to regularly invest in mutual feedback activities. We systematically collect and assess opinions and concerns expressed by our stakeholders and promptly respond to their observations.

A greater awareness of the topics that interest our stakeholders can enable us to make more informed decisions, promoting a more sustainable strategy and investing in long-term value creation.

OUR SOCIAL MEDIA

ONE OF UNICREDIT STORIES

UniCredit strengthened its dialogue with non-governmental organisation (NGOs). In reviewing our Coal sector Policy, we submitted a draft to important NGOs to collect their feedback before publication. We wish to pursue our dialogue with NGOs in order to collect useful insights and be aligned with the expectations of the community.

The materiality matrix remains a fundamental tool for supporting our business strategy, creating value over the long term, and engaging with stakeholders.

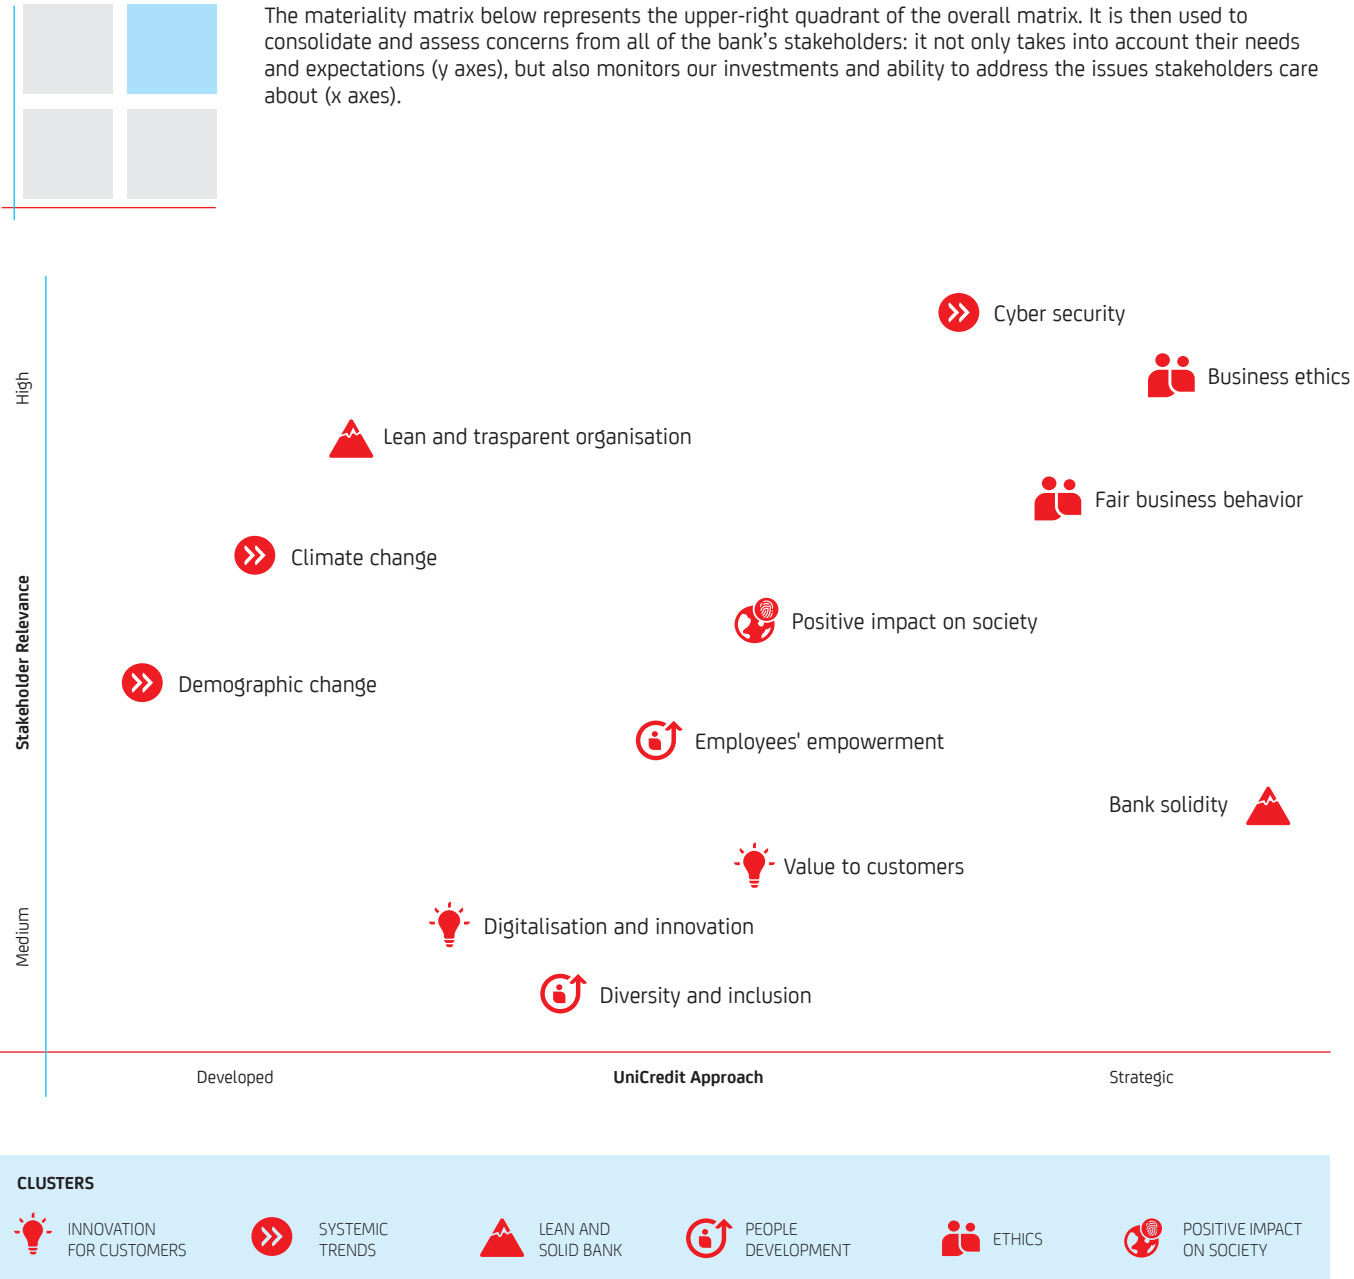

What may be immaterial to a company or industry today could become material tomorrow. This dynamic materiality concept underlines the strategic importance of making efforts to anticipate which issues might become financially relevant in the future, and requires a forward-looking approach to materiality.

Bearing this in mind, we build our analysis also applying information sourced both externally by the Datamaran tool

and internally by listening to our stakeholders. This allowed us, through external sources, to investigate the main laws and directives that impact the financial sector in all the regions in which we operate, to analyse the latest news on the sector on online media and social networks and to benchmark our report versus those published by other banks.

Also this year the top management and Board have demonstrated their strong engagement during several meetings, as well as the Corporate Governance, Nomination and Sustainability Committee (CGN&S) by overviewing ESG topics and our sustainability strategy.

MATERIALITY MATRIX

The matrix has in fact become a strategic tool to follow and monitor the implementation of targets, and to steer future decisions also in the reshaping of the new ESG strategy.¹ The global pandemic situation has put an even stronger focus than in the past on our Business Ethics and Positive impact on society.

Ethics and Respect: Do the right thing! are the values and the guiding principle on which the behaviour and decisions of our bank are founded. During the past year several initiatives have been undertaken giving proof of the strong commitment to our values and of the support to all our stakeholders in the difficult situation caused by the Covid-19 pandemic.²

BANKING THAT MATTERS

Our Sustainable Business Model

In a context where regulators, investors, consumers and market behaviours were already evolving rapidly, the Covid-19 pandemic delivered the biggest and broadest economic shock in recent years. By leading social and environmental transition, banks can concretely help bolster the economy and become purpose-driven global leaders.

Sustainability is part of UniCredit's DNA and we continue to take concrete actions to further integrate ESG in the core activities of our bank, reinforcing our leadership position in the ESG global framework.

MACROECONOMIC CONTEXT^A

GDP Decrease due to the containment measures adopted to limit the spread of the Covid-19.

Risks and Opportunities

At UniCredit we are aware of the constant evolution of the context in which we operate and remain committed to examining it regularly and to listening to all our stakeholders in order to **manage risks and capture business opportunities** efficiently.

In doing this, we apply our materiality screening process with the aim of selecting those who:

- > may affect our business activities
- > may be impacted by our operations.

RISKS AND OPPORTUNITIES IDENTIFIED THROUGH THE ANALYSIS OF THE MARKET CONTEXT AND LINKED TO OUR MATERIAL CLUSTERS ^A

INNOVATION FOR CUSTOMERS

RISKS

- Loss of market share due to a non-competitive and non-inclusive digital offering
- Unexpected shifts in customer expectations and disruptive technologies
- Loss of market share and business focus if banking is not driven by customer needs

OPPORTUNITIES

- Responding to digital challenges in a customer-centric manner, increasing customers' digitalisation and bank efficiency
- Leveraging new technologies and analytics (e.g. big data, machine learning) to enhance the risk management process
- Develop a product offer and commercial strategy which really reflect customer needs in order to create sustainable long-term value

SYSTEMIC TRENDS

RISKS

- Threat of cyber-attacks to our ICT systems, also in relation to the increase in smart-working
- Climate change impact managed only in terms of reputational risk and not as a driver for lending strategies
- Extreme weather events producing financial damage to bank premises and lending portfolio (physical risk)
- Decrease in young people's level of trust towards economic, political and social structures

OPPORTUNITIES

- Strong and safe ICT systems represent a building block for stakeholder trust
- Playing an important role in the transition to a low-carbon or circular economy by having a clear and effective strategy
- Including ESG factors in our risk assessment framework can strengthen our long-term strategy
- Intercepting ethical behaviours and values capable of inspiring younger generations can contribute to building their trust

^A Refer to the Supplement - Stakeholder Engagement section for more information on each material topic and cluster.

LEAN AND SOLID BANK

RISKS

Uncertain and volatile economic and geopolitical scenario affecting our short and long-term planning

Negative market developments can spread from economies, exacerbating the bank's environment

Bank's internal structures not ready to respond to a constant expansion of the regulatory framework

OPPORTUNITIES

Strong capital position and lean and solid structure increase stakeholder confidence

Leaner processes can increase our flexibility and speed of response to external challenges

Anticipating the regulatory framework updates can help us expand and strengthen our business

PEOPLE DEVELOPMENT

RISKS

A low attraction and retention of talents impacts on succession plans and pioneering in new business areas

Disruptive technologies and tough competition may force a significant reskilling of employees

Decrease in people engagement due to lack of incentives in terms of development, inclusion and work-life balance

OPPORTUNITIES

Transform employees into an innovative and tech-oriented workforce

Investing in training employees in modern skills can maintain our leadership in evolving market conditions

Be an employer of choice with a widespread diversity and inclusion culture and concrete work-life balance solutions

ETHICS

RISKS

Compliance and sanctions risk undermining bank's reputation

Being impacted by human rights abuses and other unethical business practices, also through our lending portfolio

Lack of pre-emptive measures aimed at preserving the working environment from the spread of viruses

OPPORTUNITIES

Maintain high reputation among stakeholders with a strong business ethics and by avoiding non-compliance sanctions

Increase awareness of importance of human rights and ethics in general within the bank and customer base

Build a safe workplace for employees by permitting new solutions to work efficiently from home and thus maintain our business continuity

POSITIVE IMPACT ON SOCIETY

RISKS

The attention of the bank to its social fallback not perceived or socially accepted by stakeholders

Risk of losing the role of backbone of the real economy

Failure in identifying and providing assistance to people and organisations at risk of financial and social exclusion, especially those most impacted by the pandemic

OPPORTUNITIES

Being perceived as the bank of choice thanks to our inclusive approach

Increase our offer of sustainable financing instruments with measurable ESG impact to foster the achievement of SDGs

Being a leader of economic growth, financial education and well-being in our communities, in particular after the pandemic

Business Model in action

At UniCredit, our *One Bank* integrated and sustainable business model is based on central support and local excellence. We provide our customers with a full commercial offer which harnesses strong synergies between our businesses, including **Corporate & Investment Banking**, **Commercial Banking** and **Wealth Management**.

Through our **Social Impact Banking**, we identify, finance and promote initiatives that can have a positive social impact and contribute to achieving Sustainable Development Goals. We implement **corporate citizenship** and **philanthropic initiatives** that support financial and social inclusion, also through the **UniCredit Foundation**.

SOCIAL VALUE

Ethics and Respect: do the right thing!

Ethics and Respect values unite us and define our Group culture: how we make decisions and how we act on them. ***Do the right thing!*** is the guiding principle which helps us live by these values. Furthermore, it indicates how to work as ***One Team, One UniCredit*** and supports us in the fulfillment of our ***Five Fundamentals*** which guide our daily actions and operations.

The year 2020 saw us struggling with an unprecedented sanitary crisis. Inspired by consolidated values and guided by the *Do the right thing!* principle, the Group was able to react promptly by designing specific programmes and services for customers, employees, suppliers and all the communities in which we live. At UniCredit, the health & safety of our people continues to be our top priority. Special attention was paid for our colleagues.¹ These specific actions were developed alongside the consolidation of several initiatives on Ethics & Respect (E&R) which started in 2019 and were further reinforced by the strong commitment related to the *Tone from the Top* Programme.

In this regard, all Executive Management Committee (EMC) members and local CEOs contributed towards making E&R visible throughout the Group thanks to their continuous endorsement.

¹ Refer to the Human Capital chapter for more information.

We further consolidated our efforts in rolling out E&R throughout the organisation, cascading down the hierarchy and across the various countries and pervading all the areas of our activity. This is clearly shown also by the sharp increase in figures related to E&R contents in our internal communication.

A selection of our activities is reported below, grouped according to the stakeholder of reference. For more information on each initiative please refer to the specified section of the Report.

COVID-19 INITIATIVES

Governance

UniCredit’s system of corporate governance promotes clarity, accountability and the creation of sustainable long-term value.

ORGANISATIONAL AND GOVERNANCE STRUCTURE (AS AT THE APPROVAL OF THIS REPORT)

^A Following the anticipated ending from the position of CEO and General Manager of Mr. Jean Pierre Mustier (effective from 11 February 2021), in order to ensure full managerial continuity, the Board appointed a General Manager. The General Manager, who will remain in office until the appointment of the new CEO, has been assigned all the powers already assigned to the CEO.
^B Position covered by two Co-CEOs.
^C Position covered by two Co-Heads.

BOARD COMPOSITION

The UniCredit Board of Directors meets the suitability requirements established by the relevant Italian and European provisions, concerning, among other aspects, experience, integrity and independence, the time commitment recommended for an effective attendance at the Board and Committees meetings and the limits upon the maximum number of offices that Directors may hold.

The personal qualities of the Directors match the theoretical profile approved by the Board itself.²

With specific reference to diversity, at the approval date of this Integrated Report the gender quota is temporarily under the threshold established by the applicable provisions. This is a consequence of Ms. Elena Zambon stepping down as Director and the co-optation of Mr. Pietro Carlo Padoan as Chairman candidate in view of the 2021 renewal of the Board of Directors (both with effect from 13 October 2020), and also follows the anticipated ending from the position of CEO and General Manager of Mr. Jean Pierre Mustier (with effect from 11 February 2021).

² Refer to the annual Report on Corporate Governance and Ownership Structure, available in the Governance section of the Company's website (www.unicreditgroup.eu), for more information.

FOCUS

2021 BOARD OF DIRECTORS RENEWAL

The 2021 milestones for the renewal process of the UniCredit Board of Directors, in line with international best practices are:

- a selection process for identifying candidates for the position of Board members, including the Chairman and the CEO, based on clear responsibilities and high professionalities
- the co-optation of a Director as Chairman candidate, playing an active role in defining the potential members for the Board's list
- the identification of the Board's list ensuring a balanced composition concerning both practical and theoretical experience and promoting inclusion and diversity across age, gender (with a minimum standard of 40% for the least represented gender), and geographic areas as well as adequately reflecting UniCredit's status as Italy's only G-SIB (Global Systemically Important Bank).

Risk Management and Compliance

Risk is an implicit aspect of our business that we necessarily have to deal with every day, making risk management and compliance fundamental processes of our culture. Our aim is to ensure an effective risk mitigation practice by adhering to a Risk Appetite Framework (RAF) which balances sustainable future objectives with the healthy long-term growth of our business.

We have further strengthened our evolving risk management approach with a specific focus on climate-related risks and cyber risk protection.

Climate & Environmental Risk

In 2020, the Group continued its effort to progressively integrate Environmental, Social and Governance (ESG) factors into the overall risk management framework, focusing primarily on environmental topics.

2020 MAIN ACTIONS TO FIGHT CLIMATE-RELATED AND ENVIRONMENTAL RISKS

PHYSICAL RISK ASSESSMENT

A one-off assessment considering the most important impacts connected to climate change was performed. This resulted mainly in an impairment in value of collateral located in high climate-risk zones subject to chronic risk (i.e. rise in sea level) and acute risk (i.e. flooding and landslides).

LIMITED IMPACT

FROM PRELIMINARY ANALYSIS

TRANSITION RISK MODEL

A sector-level climate transition risk heat map was put in place. The elaboration of the map will be complemented by a dedicated assessment of climate & environmental transition risks at counterparty level focused on the UniCredit lending portfolio.^A The climate and environmental assessment resulting into a scoring scale, will complement and enhance the ESG information already available at counterparty level and relevant for the credit decision-making process.

ACTIVITY FOCUSED ON A SIGNIFICANT SAMPLE OF CIB LISTED COMPANIES

ROLL-OUT 2021

CLIMATE & ENVIRONMENTAL TRANSITION RISK & OPPORTUNITY MATRIX

SCOPE

Large companies in the Group geographies^B

OBJECTIVE

Measuring the credit transition risk exposure and vulnerability of the bank's credit counterparts

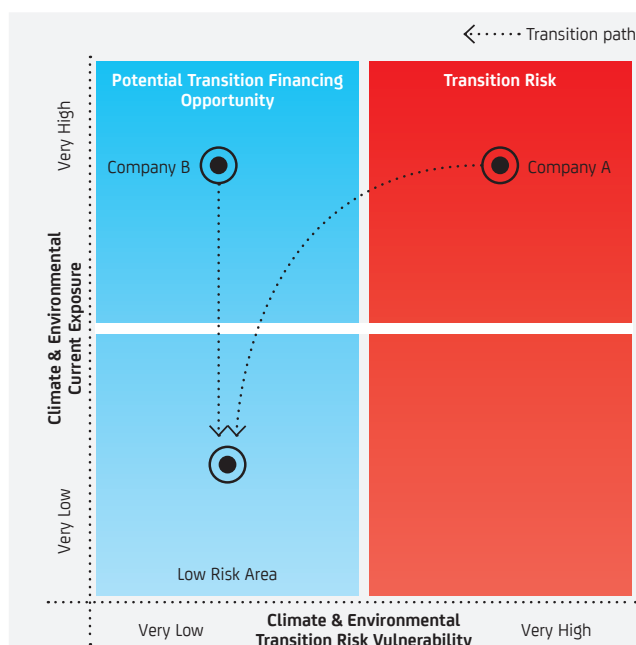

METHODOLOGY

Internally developed climate & environmental scoring. Each client was assessed against a set of qualitative and quantitative, current^C and forward looking^D indicators gathered directly from the completion of a dedicated questionnaire

PROCESS

During the credit granting decision making process Climate & Environmental assessment results are taken into account

Fostering the development of a dedicated and more restrictive climate strategy, e.g. company A transition path from a high-risk transition area to a low-risk position and unlocking potential transition financing opportunities by accompanying clients who have already declared a strong commitment, e.g. company B shifting to a low-risk area.

^A In 2020 there would have been approximately 400 counterparties.

^B Portfolio excluded: non performing, Financial Institutions, Banks, Sovereigns (FIBS), Public sector.

^C I.e. climate & environmental current exposure axis – considering, for example, the counterparty's actual level of GHG emissions.

^D I.e. climate & environmental vulnerability axis including, for example, the counterparty's commitment to a clear green investment target.

EBA SENSITIVITY PILOT EXERCISE

Voluntary signing of EBA (European Banking Authority) first sensitivity exercise with the aim to:

- > make a preliminary estimate of the amount of sustainable exposures, based on EU green taxonomy and held by EU banks
- > test different methodologies to classify sustainable exposures (learning exercise)
- > explore main data and methodological challenges for banks to assess.

ASSESSMENT FOR THE FEASIBILITY OF A LENDING REQUEST IN THE COAL SECTOR

^A New project: not registered in UniCredit's portfolio.

^B Existing project: already within UniCredit's portfolio.

^C A public credible statement/commitment/plan for phasing out from the coal business by end of 2028 must be available by end of 2021.

UNICREDIT COMMITS TO
**PROGRESSIVELY
REDUCE TO ZERO**
THE GROUP'S EXPOSURE TO THE COAL AND
COAL-RELATED SECTOR BY 2028 WORLDWIDE

2020 MAIN INITIATIVES

- 15 Corporate Governance, Nomination and Sustainability Committee (CGN&S) meetings held to propose and discuss improvements to our environmental and social strategy
- coal sector policy reinforcement
- over 1,100 transactions screened for environmental, social and reputational risk issues
- over 300 colleagues from 22 legal entities participated in workshops related to UniCredit policies
- over 50,000 people trained in human rights with more than 23,000 hours
- 110 ESG contents in internal dedicated communication to all the colleagues
- continue support to a constructive dialogue with stakeholders by participating in working groups and forums such as the Thun Group¹
- compliance with section 54 of the United Kingdom's Modern Slavery Act 2015
- set up of a working group to ensure the observation of ECB guide on climate-related and environmental risks.

¹ Thun Group is an informal group of bank representatives and experts on environmental & social/human rights topics working together on further understanding the United Nations Guiding Principles for managing human rights impacts in the activities of banks.

GROUP REPUTATIONAL RISK COMMITTEE (GRRC)

The GRRC is responsible for the assessment of the reputational risks of initiatives, transaction banking, projects, customers and other business activities. The GRRC supports the Group Chief Risk Officer (CRO) on governance guidelines for the management of the reputational risk on sensitive sectors and customer relationships, the related mitigation actions and all the other relevant topics submitted by the Reputational Risk function.

FOCUS

RAF ENHANCEMENTS - CLIMATE AND CYBER ACHIEVEMENTS

- four quantitative indicators integration. Inclusion of quarterly climate risk monitoring and reporting to the UniCredit board
- enhancement of The Risk Appetite Statement (RAS) on Climate & Environmental Transition Risk
- 2021 Group RAF enhancement with new specific indicators to increase coverage on the Cyber Risk Appetite and to face the emerging Third Party risk.

COVID-19

RISK MANAGEMENT PRACTICES AND STRATEGIES

A set of group-wide initiatives were undertaken:

- focus on the Operational Risks deriving from the accelerated digitalisation
- first initiative on operational resilience for the analysis of different regulatory input and the definition of a high-level framework
- strong effort to provide proper support to the economy via moratoria and liquidity lines under public guarantees
- frequent monitoring and analysis on Group Asset Quality.

Definition and adoption of the necessary actions with a common and coordinated approach across the Group:

- strategy:** several pre-emptive activities and internal guidelines, along all the dimensions of the RAF
- governance & managerial response:** active involvement of UniCredit Board of Directors in approving the strategy and monitoring the evolution of the asset quality
- segmentation:** portfolio clustering (eg. portfolio under moratoria and portfolio with guarantee schemes)
- ICT and Cyber Risk:** specific analysis to identify the risk scenario in new ways of working; specific actions identified and monitored to enforce presidium on ICT security controls. Specific Covid-19 risks evaluation: fraud, disruption and data breach risks
- liquidity risk:** safeguarding of operations by activating the business continuity plans, considering 4 pillars: the governance of the contingency phase, an enhanced monitoring of the liquidity position and absorption, a continuous dialogue with the supervisory team.

Information and Communication Technology (ICT)/Cyber Risks

Over the year, a number of initiatives were put into action to strengthen the Group's ICT & Cyber defences.

2020 MAIN ACTIONS TO MANAGE (ICT)/CYBER RISKS

GOVERNANCE REINFORCEMENT

- > cooperation between UniCredit and UniCredit Services is in place to holistically monitor and mitigate ICT & cyber risks throughout the Group
- > periodical analysis and meetings to ensure and address a common view of risks, root causes and mitigation actions
- > enhanced policy defining principles and rules for the management and control of operational risks in the Group.

CYBER RISK DASHBOARD

- > set-up and regular discussion with senior management to evaluate and measure cyber risk through a set of security managerial indicators covering the ICT security processes
- > strengthening of the set of monitored IT capabilities:
 - with dedicated analysis (i.e. assessment on outsourcers, focus on third party management, specific deep-dives on IT security processes)
 - with enhanced risk indicators.

ICT OPERATIONAL RISK ASSESSMENT PROCESS

- > annual evaluation of ICT and cyber risks exposure led at Group level by assessing residual IT risks and extreme scenarios, leveraging on a forward-looking standard methodology.

EXTERNAL EVENT SURVEILLANCE

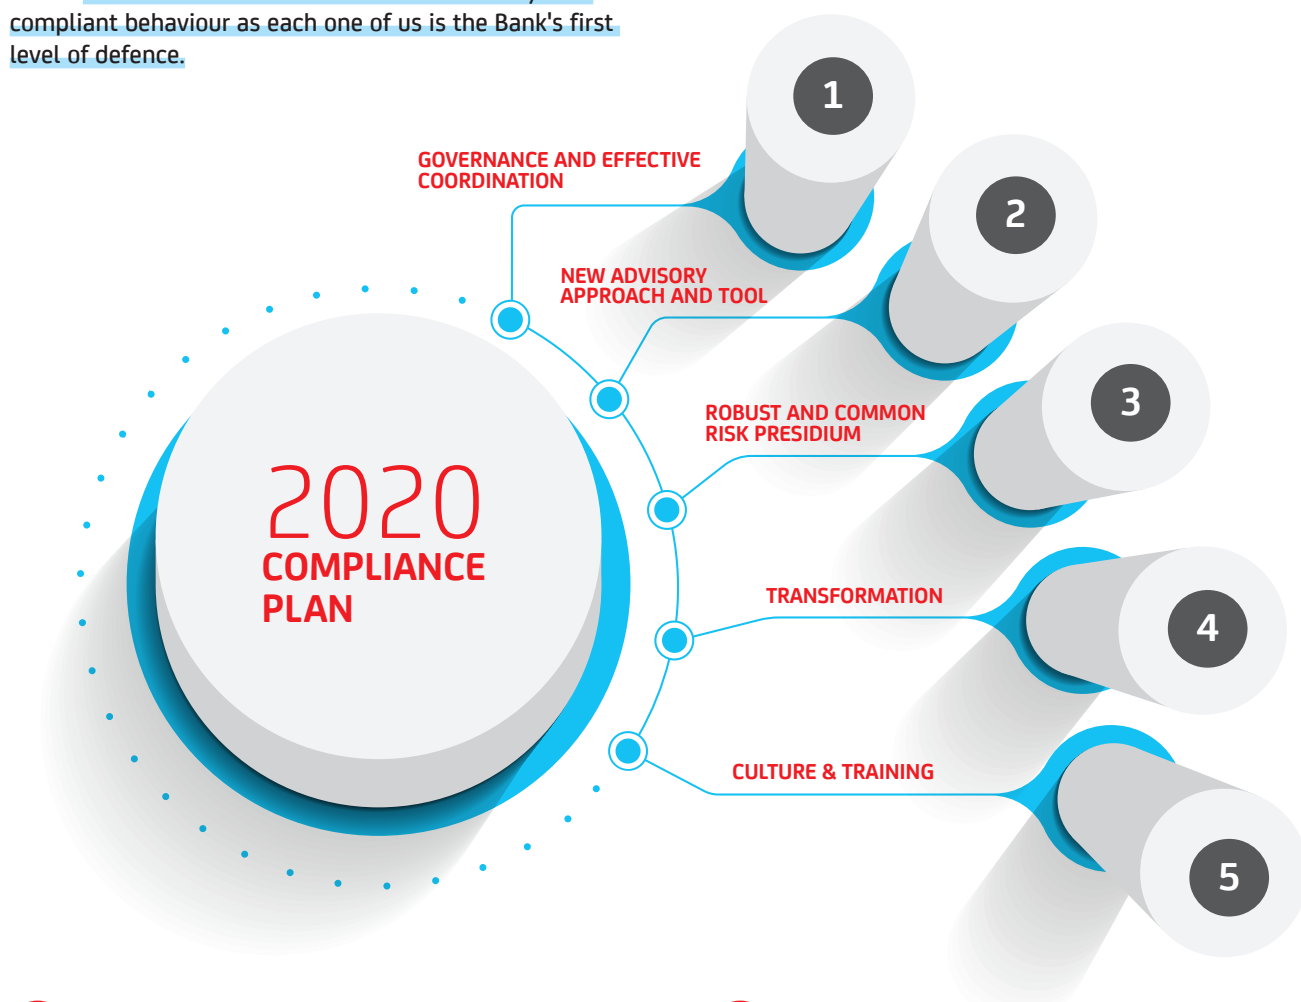

- > dedicated assessments on external ICT and cyber events to identify threats and evaluate impacts on the Group's posture
- > analysis of critical events with potential risks for the Group to communicate preliminary considerations or lessons learnt on the Group risk exposure
- > outcomes and related analysis sharing with senior management on a weekly basis.

Compliance culture: an inseparable aspect of the Group's business activities

Our internal approach and commitment to compliance is founded on our belief in proper conduct, consistent with our Group's core values and fundamentals, and meets the expectations of our customers, regulators and society as a whole. **At UniCredit we have zero tolerance of any non-compliant behaviour as each one of us is the Bank's first level of defence.**

UniCredit's 2020 Compliance Plan, approved by the Board of Directors, is based on **five strategic pillars**.

The plan includes the main initiatives implemented in 2020 based on the strategic priorities.

1 GOVERNANCE AND EFFECTIVE COORDINATION

Further enhancement and upgrade of the **Compliance Oversight and Steering Model** with particular reference to minor legal entities (LEs)/Foreign Branches (FBs) through:

- > full harmonisation of the **Controls Catalogues**: any change must be approved and monitored by Group Compliance
- > **new managerial reporting lines** in the Anti-Financial Crime area
- > **group Compliance guidelines** issuance and cascading towards LEs and monthly monitoring of their implementation, with a quarterly presentation to Group Committees
- > **culture and Tone from the Top** initiatives cascaded to all LEs, including Lessons Learnt. Local cascading monitored quarterly and reported to Chief Compliance Officer (CCO).

2 NEW ADVISORY APPROACH AND TOOL

- > a **common advisory process** to the advantage of all functions through the use of a Group tool to enhance consistency and effectiveness
- > assessment of a **New Target Operating Model** based on the level of complexity of the evaluations requested.

3 ROBUST AND COMMON RISK PRESIDIUUM

- > application of a **risk-based approach** within the Control Catalogue's review process
- > strengthening of the **escalation process** in case of reiteration of red flags and intensification of the zero tolerance culture regarding delays in performing planned corrective actions
- > increase in **automation of controls** supported by new technologies and data analytics.

4 TRANSFORMATION

- > enhancement of the **Anti-financial Crime ICT strategy** through increased use of digital tools
- > **cross-country re-Think Tank** to work on adapting the advisory and controls activities to the new business model through a review of the main processes and the setting up of use cases
- > **people development**: strengthening of compliance and data analytics skills and, as a future priority, improving the ability to work and manage people remotely.

5 CULTURE & TRAINING

- > **Tone from the Top** programme: all Executive Management Committee (EMC) members and local CEOs act as role models and endorse Compliance culture across the Group
- > **Tone at the Middle**: Compliance Ambassador Program involving about **140 employees** across the Group
- > **Compliance4Group**: Group-wide project to facilitate the spreading of Compliance culture, based on Compliance Insights for EMC members and local management, digital workshops, communication activities and the involvement of Compliance Ambassadors; 6 subjects in 2020: Payment Services Directive (PSD2), Financial Sanctions (FS), Anti-Money Laundering (AML), GDPR, Insurance Distribution Directive (IDD) and Anti-Bribery and Corruption (ABC)
- > **mandatory training** with 5 online courses with final tests rolled out in all LEs: Financial Sanctions; AML Correspondent Banking, Volker Rule, Antitrust Program and Whistle-blowing. In addition, all LEs developed local online training sessions on FS.

OFFICE OF FOREIGN ASSETS CONTROL (OFAC) COMPLIANCE PROGRAM AND INDEPENDENT CONSULTANT REVIEW

Following a settlement in April 2019, UniCredit evolved its OFAC Compliance Program and also appointed an Independent Consultant to conduct the OFAC Compliance Review in 3 hubs. It was originally planned to start in April 2020 but was then postponed to September due to the Covid-19 pandemic. The first year review has been completed in December 2020.

The OCP, aimed at strengthening the FS controls framework, was kicked off in July 2019 and formally approved by Fed on 5 December 2019. The initial focus was UC SpA, UCB AG and UCBA AG, then FED requested the extension to additional LEs and Foreign Branches.

COVID-19

COVID-19: IMPACTS AND LESSONS LEARNT

The Covid-19 pandemic has speeded up digital transformation. The Compliance function is constantly working on helping people live this new normal by:

- adapting the Compliance service model to the new business way of working based on digitalisation and remote processes
- preserving the health and safety of employees and customers by preferring the smart working solution
- further enhancing of the Controls Catalogue review process, focusing on the efficiency and effectiveness of processes and on a first line of defence control execution (e.g., following the reprioritisation of controls during remote working dedicated platform)
- further increasing automation and the remote range of controls, starting from the Covid-19 crisis, supported by new technologies and data analytics.

FOCUS

COMPLIANCE CULTURE AND TRAINING

A Compliance and risk culture is at the core of a healthy business. This is why UniCredit places enormous emphasis on embedding it into all employees' daily activities, particularly by:

- taking initiatives to support business proximity across the Group
- enhancing a culture and training needs analysis to increase detection capability by leveraging compliance data/Lesson Learnt as part of our daily business
- measuring the impact generated by training & culture by establishing common KPIs.

In 2020, UniCredit employees received more than 560,500 hours of Compliance training and in particular approximately 85,900 hours of Anti-corruption training. The enhancement of the remote format has led to an increase in participation of employees the majority of which are working from home at this particular moment in time.

A man with a beard, wearing a light-colored jacket and dark pants, stands on a paved surface. He is holding a smartphone in his left hand and has a dark backpack on his back. A silver bicycle is parked next to him. He is looking up towards a bright sky with scattered clouds. In the background, there are modern buildings, including a tall white one with many windows. The scene is brightly lit, suggesting a sunny day. A blue semi-transparent banner is overlaid on the left side of the image, containing the text "BANKING THAT MATTERS". A large red arrow points to the right, partially visible on the right edge of the image.

**BANKING THAT

Human Capital

We support our colleagues throughout their professional lives by listening to their needs, valuing their skills, implementing training programmes and development plans and promoting diversity, inclusion and welfare policies.

THE RESOURCES WE HAVE

- > engaged colleagues
- > competent and skilled professionals
- > diversified workforce.

COMMUNITY IMPACTS

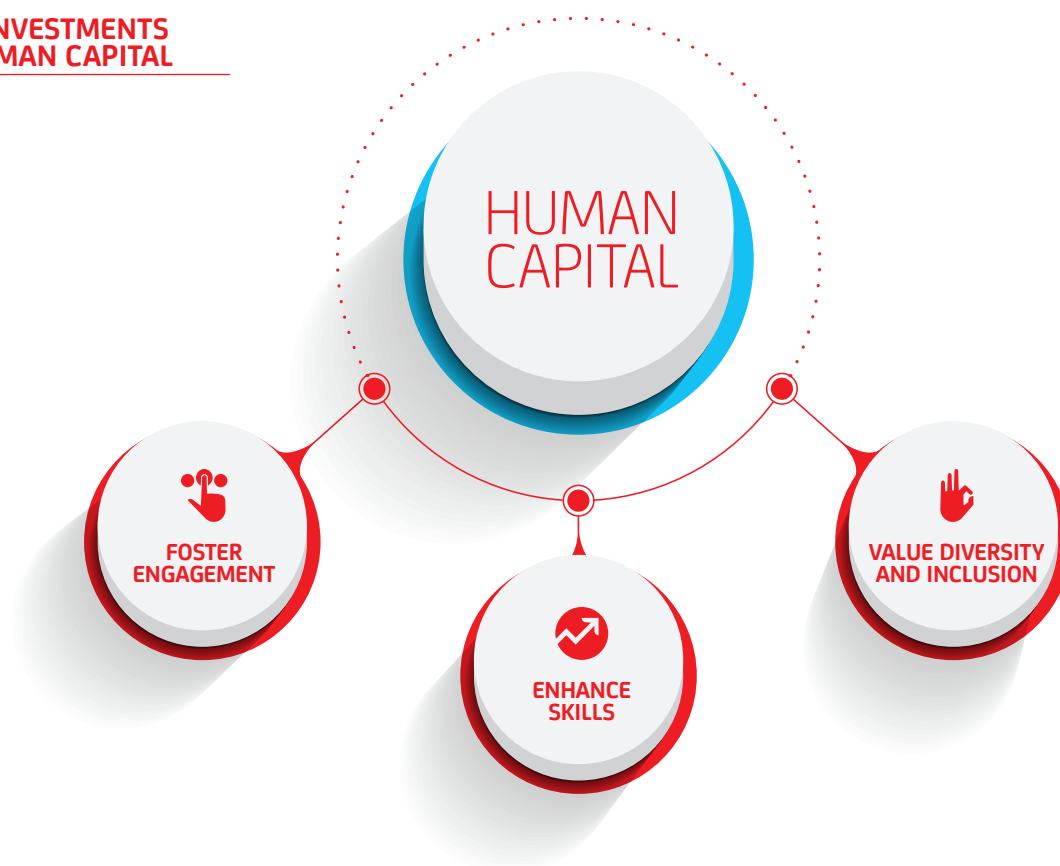

- > empowerment and development of skills
- > enhanced diversity and inclusion
- > strengthened quality of life through welfare policies.

HOW WE CONTRIBUTE TO A MORE SUSTAINABLE WORLD

- > committed to creating a positive environment based on respect, where our employees feel fully engaged at work and in their private lives
- > invest in attracting, managing and developing talent
- > foster the professional development of colleagues
- > committed to ensuring an equal opportunity workplace and a positive and inclusive environment for all our people.

OUR INVESTMENTS IN HUMAN CAPITAL

Foster engagement

The engagement of our employees is key to the viability of our business.

LISTENING AND INVOLVING

The last edition of our *People Survey* was launched in February 2020.

PEOPLE SURVEY 2020

 **~ 85,000**
EMPLOYEES ADDRESSED BY THE SURVEY

 **60%**
RESPONSE RATE

 **> 2 OUT OF 3**
COLLEAGUES ARE PROUD TO WORK FOR UNICREDIT
(ENGAGEMENT INDEX 70)

Most colleagues consider the working environment at UniCredit free from harassment and discrimination; they have also stressed the importance of development and growth opportunities.

 We leveraged digitalisation to enhance our listening approach and our continuous, open dialogue with employees.

Group-wide surveys allowed us to address our colleagues' main needs for safety, stability and security, as well as for the adoption of new ways of working and new tools.

CONTINUOUS DIALOGUE:
 **> 52,000**
VALUABLE INPUTS FROM GROUP-WIDE SURVEYS

We invested in internal digital communication channels to keep our people informed during the pandemic and a number of new formats (leadership team meetings, virtual coffees, informal digital meetings, ambassadors, etc.) engaged colleagues and allowed managers to stay close to their people despite physical distance.

BUILDING A POSITIVE WORK ENVIRONMENT

Our welfare offer¹ has always represented a key pillar of our approach, even more so since the Covid-19 crisis during which welfare has played a crucial role in supporting colleagues throughout their personal, family and professional challenges.

 In 2020 we established the UniCredit Family Board to coordinate a global action plan with local implementation focusing on flexitime, working remotely, psycho-physical wellbeing, support for homeschooling and new ways of working.

¹ Refer to the Supplement – Human Capital section for more information.

FLEXIBLE WORKING SOLUTIONS

>60%

EXTENDED TO MORE THAN 60% OF GROUP EMPLOYEES DURING LOCKDOWN PERIODS

JOINT DECLARATION ON REMOTE WORK

SIGNED IN OCTOBER 2020 WITH THE EUROPEAN WORKS COUNCIL[^]

TO UPGRADE AND STRENGTHEN OUR FLEXIBLE WORKING MODEL

Enhance skills

We strive to be an employer of choice in a company where people can fully deploy their skills, abilities and qualities.

ATTRACTING TALENT AND MANAGING PERFORMANCE

UniCredit has several graduate programmes to better match with hiring needs and assure dedicated development paths in its markets. **Within Impact, the Group Graduate Program, the 2020 selection process was transformed into a fully digital interactive experience.**

IMPACT GROUP GRADUATE PROGRAM

35 GRADUATES

SELECTED BY THE END OF THE YEAR

TO BE HIRED SIMULTANEOUSLY IN

3 GROUP COUNTRIES

We have established processes to set goals, assess performance and define career development.

UniCredit Performance Management is the Group-wide appraisal and development process by which all employees receive a performance review by their manager. The behaviours expected are based on our Ethics and Respect values and our *Five Fundamentals*. This process ensures a common approach to performance management and supports decisions on reward, career development, succession planning and learning opportunities. In addition, for Group executives our annual review enables us to manage, develop and strengthen a sustainable leadership pipeline.

DEVELOPING SKILLS

We invest in initiatives to foster the professional development of colleagues and to ensure they can support UniCredit's objectives.

A core development track path is available to all UniCredit employees and can be locally customised to meet specific business needs. For a selected pool of employees, identified according to outstanding performance and potential, a fast-track development path is available.

Our executive development offer supports our executives in each stage of their career.

In 2020 our training offer was redesigned to support our employees in adopting new ways of working to face the pandemic.

A REDESIGNED TRAINING OFFER TO MANAGE, WORK AND LEARN WITHIN A REMOTE/HYBRID ENVIRONMENT

5,000

COLLEAGUES ADDRESSED BY TRAINING INITIATIVES ON LEADING VIRTUAL AND HYBRID TEAMS, RESPECTING WORK-LIFE BALANCE, REMOTE AND INCLUSIVE LEADERSHIP, SMART MANAGEMENT

In addition we developed a learning path to enhance digital skills and become more familiar with the potential of digital both in the workplace and in personal life.

~ 37,000

ITALIAN EMPLOYEES ADDRESSED BY THE NEW DIGITAL AWARENESS PATH, TO BE EXTENDED TO OTHER GROUP COUNTRIES IN 2021

We continued to foster professional growth over the course of the year with our training programmes in specific competence and business lines, and to enhance professional skills in retail, corporate and private banking as well as upskilling in data science and advanced analytics.

27

TRAINING HOURS PER CAPITA DURING 2020

Value diversity and inclusion

In line with our Ethics and Respect values, during 2020, the Group continued to carry out awareness building activities to foster an inclusive culture, including learning modules to support our executives in developing an inclusive leadership style.

PROMOTING GENDER BALANCE

Our Global Policy on Gender Equality sets out principles and guidelines to ensure a level playing field throughout the organisation. Women currently represent 50 percent in our talent pools and 40 percent in our fast-track development programs. **Since signing the UK Women in Finance Charter in 2018, our female representation in senior leadership has grown to 15 percent, in line with our 2022 target of 20 percent. We have decided to strengthen this commitment to a target of 30 percent by 2023. To support our progress, specific targets have been set at different levels of the organisation and 27 promising female executives are being sponsored by our EMC members in a customised development program.**

FEMALE PRESENCE IN SENIOR LEADERSHIP

The Group remains committed to gender pay equality and the equal pay principle is embedded in the Group Remuneration Policy; non-demographic equal pay targets have been defined at Group and division level; a monitoring process has been defined and implemented. Thanks to these efforts we are already observing some progress in this respect.

Social and relationship Capital

Close relations with our main stakeholders create long-term value and support individual and collective growth.

THE RESOURCES WE HAVE

- > long-term stakeholder relationships
- > our business approach to foster social and economical development.

COMMUNITY IMPACTS

- > customer satisfaction
- > companies' competitiveness
- > well-being and social inclusion.

HOW WE CONTRIBUTE TO A MORE SUSTAINABLE WORLD

- > provide customers with high-quality service which begins by actively listening and absorbing feedback
- > interact with key stakeholders to build a sound banking environment based on transparency and mutual understanding
- > promote stronger economic participation for everyone.

BY 2023 TO SUPPORTING PROJECTS
WITH A POSITIVE SOCIAL IMPACT

OUR APPROACH TO SOCIAL AND RELATIONSHIP CAPITAL

Helping to develop the communities in which we operate is a cornerstone of our mission as a bank.

Invest in long-term stakeholder relationships

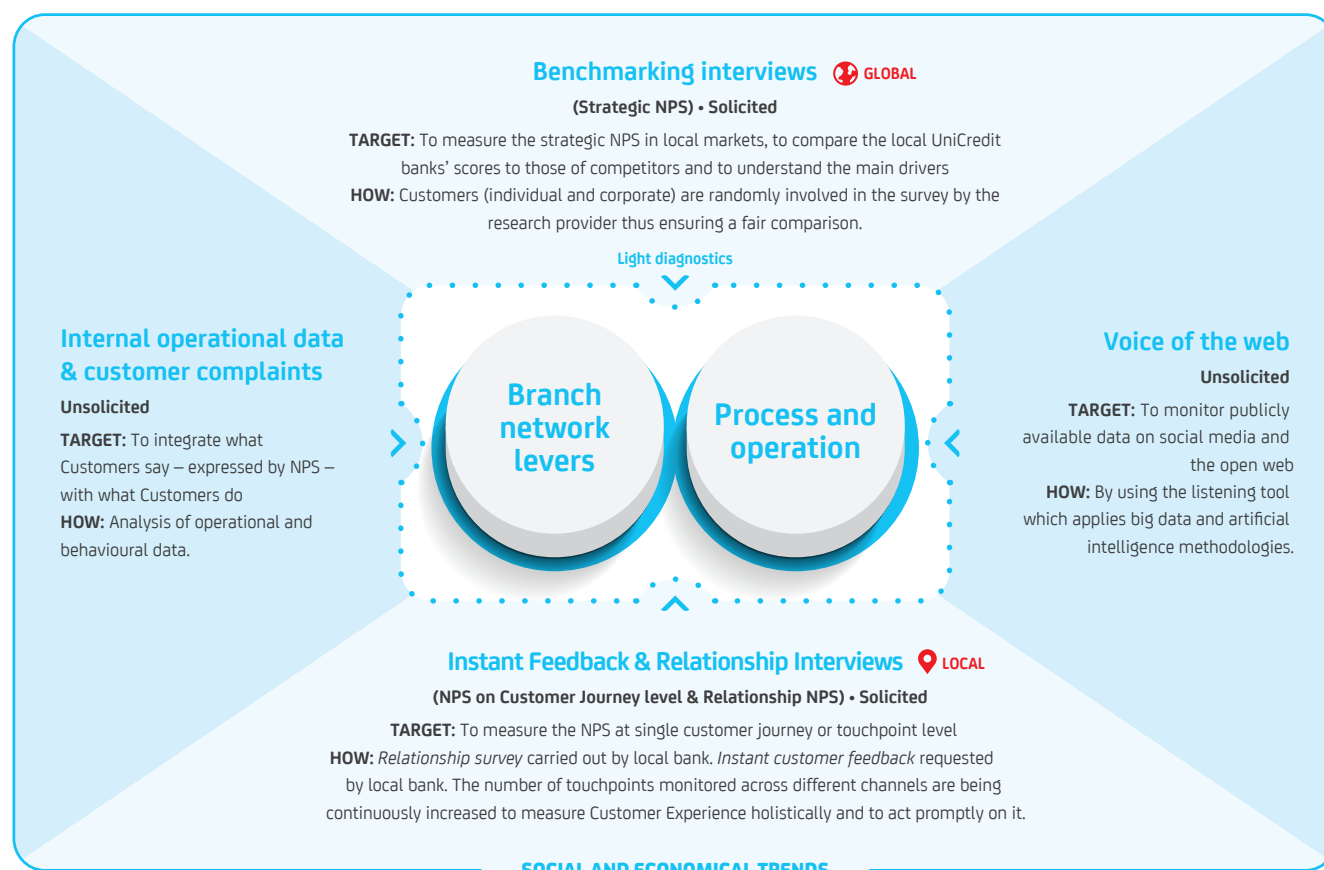

Engaging with stakeholders is essential to building trust.

ENGAGING WITH OUR CUSTOMERS

We measure the service we provide by prioritising interventions in areas in need of improvement by capturing business opportunities and by facilitating stakeholder engagement within the Group. These goals, strengthened and renewed in the *Team 23* Strategic Plan, have become even more important since the advent of the Covid-19 pandemic.

In its strategic plan, UniCredit has adopted the Net Promoter Score (NPS) as key performance indicator, fundamental to understanding how much customers appreciate our services and the experience they go through when banking with us and to guiding interventions accordingly. Starting with key customer journeys and touchpoints, the NPS is regularly measured, monitored, analysed and discussed, also examining the written feedback provided by customers on specific areas.

HOW WE LISTEN TO OUR CUSTOMERS: THE NET PROMOTER SCORE

With a view to improving Customer Experience, UniCredit uses design thinking and process mapping to improve processes from the customer's perspective, e.g., identifying complexities to be removed and improving experience through all channels.

All the data and feedback thereby collected are analysed in order to redesign processes and improve operations to better meet customer needs.

Group-wide, our complaint management system allows us to identify sources of concern and to promptly resolve them to the satisfaction of our customers.

	AUSTRIA	CROATIA	RUSSIA
ACTIVITY	There has been a regular working group analysing and solving complaints related to channels and processes since 2018	In the relationship with customers, the Instant Feedback solution allows us to listen to moments that matter and act upon them	Regular survey on Package sales quality
PROCESS	Middle-management of the responsible areas regularly reporting to country Executive Committee as well as to Western Europe management to foster fast decisions	Measurement activity to obtain feedback and rate the level of satisfaction. Analysis activity to assess the insights that matter the most for customers. Taking action to optimise experiences by finding flexible solutions	Raising branch staff awareness on the importance of the customer first fundamental and the timely and correct registration of complaints
2020	10 sessions took place discussing on the Internet and mobile banking app, the availability of self-service machines, complaints regarding debit cards and reachability of the call centre	Feedback from over 3,000 individual and 220 corporate customers was collected regarding credit card usage, loans onboarding, current accounts and package onboarding and branch visit	Complaints for Package fees reduced by 27% comparing to 2019

Our customer service is fully plugged-in on social media channels where client interaction and communication increased by approximately 27 percent during the course of 2020.

INTERACTING WITH STAKEHOLDER GROUPS

UniCredit is a Global Systemically Important Bank (G-SIB) and is subject to different regulatory measures and to scrutiny of supervisory authorities. Our engagement with regulators continued in 2020 at national, European and international levels.

The Group involvement became even more relevant in the wake of Covid-19 crisis, as European regulators and EU member states implemented a series of measures to support the real economy by providing the banking system with instruments to sustain individuals and companies in an unprecedented and challenging macro-economic environment.

Other key regulatory debates in which UniCredit was involved in 2020 include the development of an EU-wide framework for sustainable finance considering ESG factors.

We have actively taken part in the ongoing dialogue with the EU institutions (EC, EBA and ECB) and banking trade associations to define an EU taxonomy which can enable us to finance our customers' transition to a climate-neutral economy with a more sustainable business model.

Our Group remains committed to strengthening consumer protection and improving awareness. In Italy Noi&UniCredit, our longstanding partnership with national consumer associations in place since 2005, includes 14 different associations.

In 2020, many activities were developed focusing on cybersecurity, as the Covid-19 emergency pushed consumers towards greater use of digital tools to make purchases and access banking and financial services. Initiatives including guides providing practical advice on how to prevent cyber scams and information campaigns on online environment and electronic payments for the most fragile target of the population were introduced.

Invest in social and economic development

We strive to support the growth of our communities, always on the lookout for new ways to serve our retail and corporate customers. In addition to our traditional banking activities, we implement corporate citizenship and philanthropic initiatives that support financial and social inclusion.

CULTURAL SUPPORT

Supporting talent

UniCredit Foundation remains dedicated to promoting studies, research and initiatives aimed at building up knowledge of economic, finance, banking, and legal disciplines by awarding several scholarships, fellowships and grants every year.

> €19 M

FOR MORE THAN 300 SCHOLARSHIPS AND FELLOWSHIPS GRANTED TO MORE THAN 1,000 STUDENTS AND RESEARCHERS

Promoting cultural initiatives

UniCredit has a long tradition of sustaining culture, in particular art and music, as a way to promote social and economic growth.

In 2020 UniCredit continued to strongly endorse culture, one of the sectors most affected by the Covid-19 emergency, providing concrete support to its main cultural partners - Filarmonica della Scala and Arena Foundation in Italy, Bavarian State Opera and Kunsthalle Munich in Germany, Kunstforum Vienna in Austria - and exploiting new ways of participating, such as performances with reduced audience capacity and digital events and initiatives.

In Germany we supported **11 social and cultural organisations with a donation of €1 m from the proceeds of the Art4Future project** involving the selected sale of UniCredit's artworks in Germany, Italy, and Austria in order to make a concrete contribution to our local communities as well as promote emerging artists. With this project, In Italy we supported young artists in partnership with MAMbo, the Museum of Modern Art in Bologna.

SUPPORTING COMPETITIVENESS AND CONTRIBUTING TO COMMUNITY GROWTH

Our Group remains focused on a continuous interaction with stakeholders to support community growth.

In Italy, as partner in the Italian Alliance for Sustainable Development (Alleanza Italiana per lo Sviluppo Sostenibile or ASviS), we contributed to organise their 2020 Sustainable Development Festival to draw attention to SDGs and help raising awareness on ESG topics. **Due to the Covid-19 pandemic, this event took place online and with hybrid formats.**

An ongoing interaction is necessary if we are to understand the urgent needs of our corporate customers and address them with appropriate initiatives.

ESG on the road

A Pan-European events programme featured both internal and external experts delivering experienced insights from top-ranking representatives including the European Investment Bank (EIB), rating agencies Standard & Poors and Sustainalytics alongside corporate issuers and investors. Discussion focused on the impact of ESG on the future of corporate financing and practical issues relating to green financing, including regulation, ratings and reporting.

Strong acceleration in our digital transformation journey

The digitalisation path already undertaken with *Transform 19* and strengthened with *Team 23* has intensely engaged the Group with the aim of providing services based on innovative technologies and simpler and safer processes.

Despite these challenging times, our IT strategy has remained stable, a reflection of the long-term priorities on which our competitiveness relies.

Indeed, the constant strengthening of our technological infrastructure, in terms of evolutionary update and stability, represents a central pillar of the Group's development strategy. In line with this, investments in ICT architecture and in maintaining high-level safeguards against new cyber security threats contribute towards the Bank's digital transformation.

Our dedicated process and policy framework allows us to respond effectively to the dynamics of the threat landscape and evolving regulatory requirements.

In addition to this, **raising employee awareness is key in promoting safe behaviour throughout the organisation thus reducing vulnerability.**

Security training and tailored educational activities (e.g. periodic campaigns on phishing) provide a continuous learning process.

~ 90,000

EMPLOYEES REACHED BY SECURITY ACADEMY INITIATIVE
IN MORE THAN 15 COUNTRIES

A great effort was made to design the Next Normal context after the pandemic and to equip the Group with advanced tools for collaboration and enabling remote working. Skills in Real Estate, digitalisation, collaboration tools and process automation have made it possible to start and/or accelerate key projects for a new working environment via an increasingly more sustainable definition of space and tools to support remote working, sharing experiences, best practices and skills.

Innovation is hot topic for UniCredit. Financial services are changing at a rapid pace and we remain committed to developing cutting-edge solutions for our clients.

The following table provides a brief presentation of the most relevant initiatives in the area of Intellectual Capital launched or consolidated in 2020.

COVID-19

RESPONSE TO COVID-19: ENABLEMENT OF REMOTE WORKING

The response to the pandemic emergency was immediate and the restart in all areas was carried out effectively. Despite the emergency, business continuity and the focus on stakeholders was maintained and even enhanced thanks to a set of initiatives aimed at supporting people and boosting digital acceleration such as:

- **ensuring business continuity for all critical processes with resilient IT infrastructure and fast transition to remote working:**
 - VPN capacity was rapidly increased by 10 times compared to pre-crisis levels enabling 80,000 employees to secure remote working access. Colleagues have been provided with approximately 16,000 additional laptops in order to work remotely
 - bandwidth capacity of more than 2,700 Italian sites¹ has been increased by about 4 times.
- **concrete initiatives were put in place to reduce cyber security risks,** with the focus on fraud prevention, enhancement of cyber security monitoring and detection activities, network security and increase in security awareness
- **digital tools for business support and remote working were introduced**
- **support for the Next Normal model of remote banking and working:** contributing to the upgrade of our IT architecture to boost our digitalisation process and developing new collaboration tools such as digitALL² to further support the transition to remote working.

¹ Including branches, large buildings, ATM.

² Refer to the Stakeholder Engagement chapter for more information.

SELECTED STRATEGIC INITIATIVES

AREAS OF ACTIVITY	PROJECT TITLE	STAKEHOLDERS						
KEEP MODERNISING ICT Investing in a robust and secure ICT structure is core to our Team 23 strategic plan which is strongly focused on transformation initiatives and the enablement and acceleration of remote working and banking.	NEW TECHNOLOGIES: DEVELOPMENT OPERATIONS PROJECT (DEVOPS) to foster structural automation of the software development lifecycle							
	CLOUD JOURNEY to seize all the opportunities that public cloud can unfold							
SECURITY. MAKE IT A HABIT! We designed our dedicated process and policy framework to allow a fast adaptation to an ever-changing threat landscape and the widening of the regulatory spotlight to security issues.	SECURITY ROADMAP 2020-2023 to enhance the protection of UniCredit assets and clients							
	SECURITY CULTURE AND ACADEMY to focus on increasing awareness and education on security and cyber security topics							
MAKE IT SIMPLE! We further streamlined and simplified processes and services, boosting the digitalisation path and collaboration among people by equipping the Group with advanced tools.	REMOTE WORKING PROJECT to build the enablers needed to foster Remote Working in the Next Normal post-pandemic environment							
	PAPERLESS PROGRAMME to achieve the digitalisation of transactions and document flows (reusable across channels) ^A							
	MARKETPLACE and collaboration tools allowing employees to share competences and skills							
	DIGITALL new digital workplace allowing a more effective interaction and communication among colleagues							
	AUTOMATION AND PROCESS SIMPLIFICATION enhancing Group Operations back office productivity and accelerating efficiency							
ORCHESTRATING INNOVATION The Group Transformation Office is cooperating with various teams within the Group to foster innovation and transformation in different areas. Some of the supported solutions and initiatives will help UniCredit achieve ESG goals.	BEST PRACTICE SHARING to collect top internal practices following Group priorities and connect experts around the domain of expertise through Global Communities of Practice							
	GROUP INNOVATION BOARD (GIB) to ensure an effective management of innovation-related topics							
	FINTECH ACTIVITIES: FINDYNAMIC to better serve and support customers on working capital management

Natural Capital

The Earth’s natural resources and the countless services they provide make human life possible. The bank’s activities have an impact on natural capital which must be monitored and limited.

THE RESOURCES WE HAVE

- > soil, water, flora and fauna
- > ecosystem services.

COMMUNITY IMPACTS

- > air quality conservation
- > pollution reduction
- > awareness raising.

HOW WE CONTRIBUTE TO A MORE SUSTAINABLE WORLD

- > we offer support to businesses respectful of the environment
- > we contain our own environmental footprint.

Execute an effective environmental strategy

As part of its bigger strategy, UniCredit is committed to protecting natural capital and delivers sustainable financing solutions which are not limited to the environmental dimension alone.

Indeed, sustainable finance has rightly been defined by the EU as finance to support economic growth while reducing pressures on the environment and taking social and governance aspects into account.

We also aim at reducing the environmental impacts of our direct operations, applying smart solutions and energy efficient technologies.

In this scenario, UniCredit intends to play a central role in facilitating the transition to a more sustainable economy and sees sustainable finance as a means to achieve this goal. In this respect, within the Corporate and Investment Banking Division, the Sustainable Finance Advisory Team is responsible for:¹

- > deepening the dialogue with clients on ESG topics and facilitate their access to Europe's sustainable finance market
- > ensuring that relevant transaction in the Group comply with the Equator Principles.²

Our commitment to natural capital

Our constant attention has led us to develop a two-pronged approach to promoting and preserving natural capital:

- > we offer support to businesses respectful of the environment while accompanying clients operating in climate-sensitive industries in their journey along the transition path
- > we contain our own environmental footprint.

In support of this, UniCredit SpA is registered with EMAS while Bank Austria and UniCredit Bank Czech Republic and Slovakia are ISO 14001 certified.

Our actions to preserve natural capital

Our effort in shifting to a low-carbon economy and containing our environmental footprint was based on a number of specific initiatives which are highlighted in the infographics on the following pages, where we present an overview of major actions.

Shifting to a low-carbon and climate-resilient economy includes actions such as the endorsement of Task Force on Climate-Related Financial Disclosures (TCFD) recommendations for which we reported last year for the first time.³ Moreover, in 2020 we completed the road testing of the Paris Agreement Capital Transition Assessment (PACTA) methodology developed by 2° Investing Initiative (2°ii). Through the completion of the test last December, we achieved a first set of preliminary results regarding our lending portfolio alignment to climate scenario and markets.

Finally, we approved a new stricter policy on the financing of coal which will completely phase out coal industry financing by 2028.⁴

To contain our environmental footprint, we operate in several directions, such as procuring our electricity from renewable sources, improving the energy efficiency of our premises and our data centres, supporting our people with more sustainable mobility solutions and sourcing from environmentally friendly suppliers.

¹ Refer to the Natural Capital chapter of the 2019 Integrated Report for more information.

² Refer to the Supplement – Risk Management and Compliance section and to Risk Management and Compliance chapter for more information.

³ Refer to Natural Capital chapter of the 2019 Integrated Report for more information. The TCFD report released last year for the first time, will be updated later this year alongside other risk management features.

⁴ Refer to the Risk Management and compliance chapter for more information.

COVID-19

OUR ACTION DURING THE PANDEMIC

During the emergency situation, different actions were taken to ensure our employees' health and safety, such as extending the adoption of remote and flexible working solutions and reinforcing the investment and the promotion of smart solutions that enable online meetings. As a result of the widespread adoption of flexible working solutions

IN 2020 IN ITALY ALONE

> 50 M KM

IN EMPLOYEE'S COMMUTER TRAVELS WERE ESTIMATED TO HAVE BEEN SAVED

Furthermore, with special regard to premises in Italy, the air exchange ratios of the Heating, Ventilation, and Air Conditioning (HVAC) systems were reviewed in accordance with pandemic risk-specific technical guidelines and with respect for energy efficiency. Where possible during the first phase of the lockdown, operation of the HVAC systems was optimised based on the real building occupancy thanks to our remote control systems (e.g., systems were switched off for temporarily closed branches) avoiding approximately 1,800 GJ of unnecessary energy consumption, equal to approximately 170 tons of CO₂ emissions compared to 2019. Moreover UniCredit temporarily closed 5 main Italian buildings for at least 4 months starting on November 30th, relocating all the sensitive functions to the nearest buildings thus avoiding unnecessary energy waste amounting to a saving of approximately 115 tons of CO₂ emissions per month.

As our suppliers were also hit by the pandemic, we have launched a programme to speed up the payments cycle.

How did we preserve natural capital during 2020?

Shifting to a low-carbon economy

2019: endorsement of Task Force on Climate-Related Financial Disclosures (TCFD)

2020: completion of road testing of the Paris Agreement Capital Transition Assessment (PACTA)

Supporting renewable energy sources

PROMOTE BUSINESS THAT SUPPORTS NATURAL CAPITAL

€6.1 BN
invested in renewable energy projects

€9 BN
2023 target exposure

Promoting sustainable financial instruments

 **97**
deals

 **~ €120 BN**
raised in total ^A

Financing energy efficiency

Launch of *Credit Express Green*, subsidised personal loan to finance savings

In Italy, bridge funding for customers who use the **110% bonus** on energy-efficient refurbishment promoted by the government

of sheets of paper saved

Sourcing responsibly

Our suppliers are required to comply with the standards of the International Labour Organization and our Environmental Policy

25 completed audits of external service providers since 2014

95%
of purchased IT equipment is Blue Angel or Energy Star certified^e

^c Include all WEU countries as well as CEE countries with solution in-place. Data are calculated based on annualised 9 months data.

^d Paper based documents, scanned and centrally stored, related to Italian retail network.

^e Blue Angel is an environmental label in Germany that has been awarded to particularly environmentally friendly products and services since 1978; Energy Star is a programme run by the U.S. Environmental Protection Agency and U.S. Department of Energy which provides certification to buildings and consumer products which meet certain standards of energy efficiency.

Snapshot Covid-19

The outbreak of the Covid-19 pandemic has led UniCredit to take decisive actions with the aim of protecting and assisting employees, customers and communities and thereby enabling the Group to remain fully operative. We have selected just a few of the many measures adopted in support of all our stakeholders to face and get through

this unprecedented challenge together. The following is not a comprehensive view of all the initiatives undertaken at Group level but gives a good picture of how we have acted on different fronts in order to build a consistent and solid response to the pandemic. Please refer to the cited chapters for more details on actions highlighted.

RISK MANAGEMENT

HOW TO RESPOND TO COVID-19?

We have defined a collective and co-ordinated Group approach.

COMPLIANCE

HAVE THE ACTIONS UNDERTAKEN IMPACTED PEOPLE'S LIVES?

We have accelerated the digitalisation process to help people adapt to the new normal.

HUMAN CAPITAL

HOW TO CONTINUE VALUING OUR PEOPLE DURING THE PANDEMIC?

We have enhanced digital communication to support our HR policy.

LEGEND

RISK MANAGEMENT p.48

COMPLIANCE p.54

HUMAN CAPITAL p.60

SOCIAL AND RELATIONSHIP CAPITAL p.64

INTELLECTUAL CAPITAL p.74

NATURAL CAPITAL p.78

SOCIAL AND RELATIONSHIP CAPITAL

WHAT IS OUR SOCIAL ROLE IN THE FIGHT AGAINST COVID-19?

We have collaborated with institutions to support the real economy, helped the more fragile sections of the population by giving impetus to electronic payment and promoted cultural events.

INTELLECTUAL CAPITAL

HOW TO RESPOND TO AN ABRUPTLY CHANGED WORLD?

We have focussed more intensely on innovation and digitalisation. Remote working was enabled for employees wherever possible.

NATURAL CAPITAL

IS THE PANDEMIC AN OPPORTUNITY TO IMPROVE OUR ENVIRONMENTAL IMPACT?

The energy management of our branches was optimised during lock-down.

305-3	Other indirect (Scope 3) GHG emissions	2020 Integrated Report	S.52; Gases included in the calculation: CO ₂ , CH ₄ , N ₂ O; Sources for emission factors: - DEFRA, UK Government GHG Conversion Factors for Company Reporting (2020), ⁸ for business travel and waste disposal; - CEPI, CEPI statistics (2019), for copy paper use.	
305-4	GHG emissions intensity	2020 Integrated Report	S.52; In 2020, the Scope 1 emissions intensity amounted to roughly 0.51 tons of CO ₂ e per FTE; the Scope 2 emissions intensity (location - based) amounted to roughly 1.91 tons of CO ₂ e per FTE; the Scope 2 emissions intensity (market - based) amounted to roughly 0.67 tons of CO ₂ e per FTE; the Scope 3 emissions intensity amounted to roughly 0.03 tons of CO ₂ e per FTE.	
305-5	Reduction of GHG emissions	2020 Integrated Report	79; S.52	
305-6	Emissions of ozone-depleting substances (ODS)		In line with applicable regulations, where necessary UniCredit continues to replace refrigeration and cooling systems that contain ozone depleting substances. In recent years some episodes of refrigerant gas leakages have occurred in Germany and in Hungary and the relevant GHG emissions have been calculated and included in Scope 1 figures. In 2020, in Germany, 170 kg of refrigerant gas leakages were recorded (R134A, R404A, R407C, R407F, R410A, R422D), amounting to 0 tons of CFC- 11 equivalent; in Hungary 20 kg of refrigerant gas leakages were recorded (R407C), amounting to 0 tons of CFC-11 equivalent. Sources for emission factors: - Ozone Secretariat UNEP, Handbook for the Montreal Protocol on Substances that Deplete the Ozone Layer (14th edition, 2020), for refrigerant gas leakages [CFC-11e].	
305-7	Nitrogen oxides (NOx), sulfur oxides (SOx), and other significant air emissions		No other significant air emissions have been identified.

Making the connection by UN Global Compact Principles and GRI Standards Disclosures

UniCredit submits the Integrated Report as its annual Communication on Progress (COP), publicly disclosing to stakeholders also on progress made in implementing the Ten Principles promoted by the UN Global Compact in its core business, and in supporting broader UN development goals. The table included in this Report provides connections among UN Global Compact Principles and the GRI Standards Disclosures reported by UniCredit in this Report.

Categories	Principles	GRI Standards Disclosures
Human Rights	Principle 1 - Businesses should support and respect the protection of internationally proclaimed human rights	412-2; 412-3; 413-1; 414-1
	Principle 2 - Business should make sure they are not complicit in human rights abuses	
Labour	Principle 3 - Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining	102-8; 102-41; 401-1; 401-2; 402-1; 404-1; 404-2; 404-3; 405-1; 405-2; 406-1
	Principle 4 - Businesses should uphold the elimination of all forms of forced and compulsory labour	
	Principle 5 - Businesses should uphold the effective abolition of child labour	
	Principle 6 - Businesses should uphold the elimination of discrimination in respect of employment and occupation	
Environment	Principle 7 - Businesses should support a precautionary approach to environmental challenges	201-2; 301-1; 302-1; 302-3; 302-4; 302-5; 303-3; 305-1; 305-2; 305-3; 305-4; 305-5; 305-6; 305-7; 306-2; 307-1; 308-1
	Principle 8 - Businesses should undertake initiatives to promote greater environmental responsibility	
	Principle 9 - Businesses should encourage the development and diffusion of environmentally friendly technologies	
Anti-corruption	Principle 10 - Businesses should work against corruption in all its forms, including extortion and bribery	102-16; 102-17; 205-1; 205-2

UniCredit participation in institutional and international initiatives

TCFD TASK FORCE ON CLIMATE-RELATED FINANCIAL DISCLOSURE

After the subscription of the recommendations of the TCFD and the publication of our first disclosure, a separate document dedicated to our new disclosure aligned with TCFD recommendations will also be issued in the month of June.

UNEP-FI PRB PRINCIPLES FOR RESPONSIBLE BANKING

UniCredit signed the UNEP FI Principles for Responsible Banking in 2019.

In 2020 we joined several working groups organised by UNEP FI in support of PRB implementation.

We are now publishing our first reporting.

OECD BUSINESS FOR INCLUSIVE GROWTH COALITION (B4IG)

UniCredit signed up to the initiative launched at G7 in Biarritz.

UNEP FI Principles for Responsible Banking reporting

UniCredit signed the UNEP FI Principles for Responsible Banking in October 2019.

In 2020 we joined several working groups organised by UNEP FI in support of PRB implementation. In particular, we have been participating in working groups dealing with:

- > impact analysis guidance and peer exchange
- > communication and knowledge-sharing
- > engaging with clients.

Our full report disclosing the progress made in implementing the PRB is available on our Group website.¹ Below is a simplified table which reports on UniCredit's main advancements in implementing each Principle.

Principle	High-level summary of bank's response	Reference(s)/link(s) to bank's full response/relevant information
Principle 1 Alignment We will align our business strategy to be consistent with and contribute to individuals' needs and society's goals, as expressed in the Sustainable Development Goals, the Paris Climate Agreement and relevant national and regional frameworks.	UniCredit is a Pan-European Commercial Bank, with a fully plugged-in Corporate & Investment Banking, delivering a unique Western, Central and Eastern European network. Sustainability is part of UniCredit's DNA and a key component of its business model.	https://www.unicreditgroup.eu/en/unicredit-at-a-glance.html?topmenu=INT-TM_ABO0_en052 https://www.unicreditgroup.eu/en/business.html https://www.unicreditgroup.eu/en/a-sustainable-bank/sustainability-strategy.html IR 2020, Our Sustainable Business Model, page 38
Principle 2 Impact and Target Setting We will continuously increase our positive impacts while reducing the negative impacts on, and managing the risks to, people and the environment resulting from our activities, products and services. To this end, we will set and publish targets where the most significant impacts can be achieved.	The viability of our business depends on our ability to generate positive impacts for our customers and the wider community. This is demonstrated also by our participation in several initiatives such as the Paris agreement portfolio composition analysis, the EBA sensitivity pilot exercise and our active approach to controversial sectors and human rights with our policies. Our <i>Social Impact Banking</i> (SIB) project represents UniCredit's commitment to building a fairer and more inclusive society by identifying, financing and promoting initiatives that can have a positive social impact. An attentive assessment of our initiatives and their positive impacts on society has allowed us to define a set of strategic ESG targets.	IR 2020, Value Creation, page 14 IR 2020, Our Strategy, page 18 IR 2020, Stakeholder Engagement, page 32 IR 2020, Risk management and Compliance, page 48 IR 2020, Social and relationship Capital, page 64 IR 2020, Natural Capital, page 78
Please provide your bank's conclusion/statement if it has fulfilled the requirements regarding Impact Analysis and Target Setting. We have made progress on the implementation of the PRB but we still have to work on the development and testing of a fully-fledged methodology to analyse all the impacts of Group activities.

Principle	High-level summary of bank's response	Reference(s)/link(s) to bank's full response/ relevant information
<p>Principle 3</p> <p>Clients and Customers</p> <p>We will work responsibly with our customers to encourage sustainable practices and enable economic activities that create shared prosperity for current and future generations.</p>	<p>Over the years UniCredit has developed an effective and regular dialogue with commercial customers which has helped us to identify critical ESG aspects important to them and incorporate these aspects in our product offering.</p>	<p>https://www.unicreditgroup.eu/en/a-sustainable-bank.html</p> <p>https://www.unicreditgroup.eu/en/a-sustainable-bank/sustainability-governance.html?topmenu=INT-TM_SUS02_en097</p> <p>https://esg.brochure.unicredit-cib.eu/</p> <p>IR 2020, Stakeholder Engagement, page 32 IR 2020, Natural Capital, page 78</p>
<p>Principle 4</p> <p>Stakeholders</p> <p>We will proactively and responsibly consult, engage and partner with relevant stakeholders to achieve society's goals.</p>	<p>Listening to our stakeholders has always been the underlying principle at UniCredit, leading us to regularly invest in mutual feedback activities. We collect and assess opinions and concerns and promptly respond to observations. We carry out our materiality analysis and leverage the resulting matrix as a tool to support business strategy in order to create value and positive impacts over the long term.</p>	<p>IR 2020, Stakeholder Engagement, page 32 and Supplement, page S.30</p>
<p>Principle 5</p> <p>Governance & Culture</p> <p>We will implement our commitment to these Principles through effective governance and a culture of responsible banking.</p>	<p>The Sustainability Governance of the Bank is steered by the Board Committee on Corporate Governance, Nomination and Sustainability, by the Executive Management Committee chaired by the CEO and by the newly created function Group ESG Strategy & Impact Banking. In 2020 a vast range of education and awareness activities aimed at engaging colleagues and customers on ESG topics were fulfilled. Sustainability KPIs have been formally embedded in the <i>2020-23 Long-Term Incentive Plan (LTIP)</i> for the CEO, Top Management and other Key Players in the Group.</p>	<p>IR 2020, Our Strategy, page 18 IR 2020, Governance, page 46 and Supplement, page S.12</p>
<p>Please provide your bank's conclusion/statement if it has fulfilled the requirements regarding Governance Structure for Implementation of the Principles.</p> <p>UniCredit has an effective and clear Sustainability Governance in place, further reinforced in 2020 by the creation of the new function Group ESG Strategy & Impact Banking. This Governance ensures the implementation of the PRB which are a key component of the overall ESG strategy of the Group. Growing efforts are being made on awareness and engagement on ESG topics for our employees, moving from dedicated communication campaigns on ESG to a more concentrated and constant communication on sustainability.</p>		
<p>Principle 6</p> <p>Transparency & Accountability</p> <p>We will periodically review our individual and collective implementation of these Principles in order to be transparent about and accountable for our positive and negative impacts and contribution to society's goals.</p>	<p>Full disclosure on UniCredit's commitments and achievements on Sustainability is available in our 2020 Integrated Report.</p>	<p>https://www.linkedin.com/posts/unicredit_sustainability-unicredit-unicredit4esg-activity-6714089667760799744-HPDb</p> <p>IR 2020, Natural Capital, page 78</p>
<p>Please provide your bank's conclusion/statement if it has fulfilled the requirements regarding Progress on Implementing the Principles for Responsible Banking</p> <p>In the past year UniCredit has progressed in its journey towards responsible banking and the implementation of the PRB. The Integrated Report provides a comprehensive view of UniCredit's commitment to ESG topics. We are specifically reporting our progress on implementing the Principles in our first PRB report.²</p>

**INDEPENDENT AUDITOR'S REPORT
ON THE CONSOLIDATED NON-FINANCIAL STATEMENT PURSUANT TO ARTICLE 3,
PARAGRAPH 10 OF LEGISLATIVE DECREE No. 254 OF DECEMBER 30, 2016 AND
ART. 5 OF CONSOB REGULATION N. 20267/2018**

**To the Board of Directors of
UniCredit S.p.A.**

Pursuant to article 3, paragraph 10, of the Legislative Decree no. 254 of December 30, 2016 (hereinafter "Decree") and to article 5 of the CONSOB Regulation n. 20267/2018, we have carried out a limited assurance engagement on the Consolidated Non-Financial Statement of UniCredit S.p.A. (the "Bank") and its subsidiaries (hereinafter "UniCredit Group" or "Group") as of December 31, 2020 prepared on the basis of art. 4 of the Decree and approved by the Board of Directors on March 5, 2021 (hereinafter "NFS").

Responsibility of the Directors and the Board of Statutory Auditors for the NFS

The Directors are responsible for the preparation of the NFS in accordance with articles 3 and 4 of the Decree and "Global Reporting Initiative Sustainability Reporting Standards" established by GRI – Global Reporting Initiative ("GRI Standards"), which they have identified as reporting framework.

The Directors are also responsible, within the terms established by law, for such internal control as they determine is necessary to enable the preparation of NFS that is free from material misstatement, whether due to fraud or error.

The Directors are moreover responsible for defining the contents of the NFS, within the topics specified in article 3, paragraph 1, of the Decree, taking into account the activities and characteristics of the Group, and to the extent necessary in order to ensure the understanding of the Group's activities, its trends, performance and the related impacts.

Finally, the Directors are responsible for defining the business management model and the organisation of the Group's activities as well as, with reference to the topics detected and reported in the NFS, for the policies pursued by the Group and for identifying and managing the risks generated or undertaken by the Group.

The Board of Statutory Auditors is responsible for overseeing, within the terms established by law, the compliance with the provisions set out in the Decree.

Auditor's Independence and quality control

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the *International Ethics Standards Board for Accountants*, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour. Our auditing firm applies *International Standard on Quality Control 1 (ISQC Italia 1)* and, accordingly, maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor's responsibility

Our responsibility is to express our conclusion based on the procedures performed about the compliance of the NFS with the Decree and the GRI Standards. We conducted our work in accordance with the criteria established in the "*International Standard on Assurance Engagements ISAE 3000 (Revised) – Assurance Engagements Other than Audits or Reviews of Historical Financial Information*" (hereinafter "*ISAE 3000 Revised*"), issued by the *International Auditing and Assurance Standards Board (IAASB)* for limited assurance engagements. The standard requires that we plan and perform the engagement to obtain limited assurance whether the NFS is free from material misstatement. Therefore, the procedures performed in a limited assurance engagement are less than those performed in a reasonable assurance engagement in accordance with ISAE 3000 Revised, and, therefore, do not enable us to obtain assurance that we would become aware of all significant matters and events that might be identified in a reasonable assurance engagement.

The procedures performed on NFS are based on our professional judgement and included inquiries, primarily with Bank personnel responsible for the preparation of information included in the NFS, analysis of documents, recalculations and other procedures aimed to obtain evidence as appropriate.

Specifically we carried out the following procedures:

1. analysis of relevant topics with reference to the Group's activities and characteristics disclosed in the NFS, in order to assess the reasonableness of the selection process in place in light of the provisions of art.3 of the Decree and taking into account the adopted reporting standard;
2. analysis and assessment of the identification criteria of the consolidation area, in order to assess its compliance with the Decree;
3. comparison between the financial data and information included in the NFS with those included in the consolidated financial statements of the UniCredit Group;
4. understanding of the following matters:
 - business management model of the Group's activities, with reference to the management of the topics specified by article 3 of the Decree;
 - policies adopted by the entity in connection with the topics specified by article 3 of the Decree, achieved results and related fundamental performance indicators;
 - main risks, generated and/or undertaken, in connection with the topics specified by article 3 of the Decree.

Moreover, with reference to these matters, we carried out a comparison with the information contained in the NFS and the verifications described in the subsequent point 5, letter a) of this report;

5. understanding of the processes underlying the origination, recording and management of qualitative and quantitative material information included in the NFS.

In particular, we carried out interviews and discussions with the management of UniCredit S.p.A. and with the employees of the main legal entities of the Group and we carried out limited documentary verifications, in order to gather information about the processes and procedures which support the collection, aggregation, elaboration and transmittal of non-financial data and information to the department responsible for the preparation of the NFS.

In addition, for material information, taking into consideration the Group's activities and characteristics:

- at the parent company and subsidiaries level:
 - a) with regards to qualitative information included in the NFS, and specifically with reference to the business management model, policies applied and main risks, we carried out interviews and gathered supporting documentation in order to verify its consistency with the available evidence;
 - b) with regards to quantitative information, we carried out both analytical procedures and limited verifications in order to ensure, on a sample basis, the correct aggregation of data.
- for subsidiaries UniCredit S.p.A., UniCredit Leasing S.p.A., UniCredit Factoring S.p.A., Cordusio SIM S.p.A., UniCredit Services S.C.p.A., UniCredit Bank AG, UniCredit Leasing GmbH, Wealthcap Kapitalverwaltungsgesellschaft mbH, UniCredit Direct Services GmbH, Food & More GmbH, UniCredit Bank Austria AG, Schoellerbank Aktiengesellschaft, Card Complete Service Bank AG, UniCredit Leasing (Austria) GmbH, UniCredit Services GmbH, UniCredit Bulbank AD, UniCredit Leasing EAD, UniCredit Consumer Financing EAD, Zagrebacka Banka D.D., UniCredit Leasing Croatia d.o.o., UniCredit Bank S.A., UniCredit Leasing Corporation IFN S.A., UniCredit Consumer Financing IFN S.A., UniCredit Leasing Fleet Management S.R.L., AO UniCredit Bank e UniCredit Leasing OOO, which we selected based on their activities, their contribution to the performance indicators at the consolidated level and their location, we carried out remote meetings, during which we have met their management and have gathered supporting documentation with reference to the correct application of procedures and calculation methods used for the indicators.

Conclusion

Based on the work performed, nothing has come to our attention that causes us to believe that the NFS of the UniCredit Group as of December 31, 2020 is not prepared, in all material aspects, in accordance with article 3 and 4 of the Decree and GRI Standards.

DELOITTE & TOUCHE S.p.A.

This report has been translated into the English language solely for the convenience of international readers.

A group of children are gathered around a large sheet of paper, drawing environmental art. The central drawing is a large globe with continents in green and oceans in blue. Surrounding the globe are various drawings: a sun, a trash can with a red 'X' over it, a car, a recycling bin, a peace symbol, a fish, a plant, and a person. Several colored pencils are scattered on the paper. A blue arrow points from the right towards the center of the drawing.

Information on Tax Management

Approach to Taxation

UniCredit SpA, in its capacity as Parent entity, has issued a series of Global Policies on tax management.

The UniCredit Group's approach to taxation is described in the **Global Policies** adopted internally and made available to employees. Chief among them are the **Code of Conduct** and the **Tax Strategy** document of the UniCredit Group (available also at the following link: <https://www.unicreditgroup.eu/en/governance/our-governance-system.html>), which defines the guidelines and principles of UniCredit Group for the management of tax matters and associated risks (both financial and reputational). Specifically, this latter document was prepared in line with the Group's values, which also reflect international best practices, and shall be read and applied in the context of the other policies and procedures issued by UniCredit and the Group Companies.

The UniCredit Group is guided by the following principles in relation to the tax management of its business activities:

- i. **compliance with form and substance of all relevant tax laws**, regulations and practices applicable in every jurisdiction where the Group carries out its business
- ii. prohibition from using **aggressive tax planning** and tax avoidance schemes
- iii. application of a tax strategy that is consistent with the general rules of the Group, with its approach to risk and the values of the Group
- iv. use of **professional risk management standards** for all the risks associated with tax and ensuring that the procedures applied from time to time to that end are appropriate
- v. establishment of relations of mutual **trust, cooperation and transparency with the Tax Authorities** in the various jurisdictions where the Group operates, including through participation in projects/systems of co-operative compliance
- vi. foster a **culture of tax compliance and awareness** of relevant tax laws throughout the Group, including organisational units, not directly working within the tax departments of the Group.

Since it is highly sensitive to tax issues and takes an approach intended to mitigate tax risk as much as possible, the Group has long been encouraging participation in Enhanced Co-operation initiatives with Tax Authorities where provided for by the legislation of the countries where the Group operates. In accordance with such principles:

- in Ireland, since 2005 the Group has been participating in the Co-operative Compliance Framework with the Irish Tax Authorities
- in the United Kingdom, since 2010 the Group has adopted the Code of Practice on Taxation for Banks issued by UK Tax Authorities (HRMC) and is unconditionally committed to full compliance with it
- in Italy, since 2016 and 2017, respectively, UniCredit SpA and UniCredit Services SCpA have been voluntarily participating in the Italian Tax Cooperative Compliance Scheme as per articles 3-7 of Italian Legislative Decree no. 128/2015 with the Italian Tax Agency. Above Group companies are therefore included in the list of entities admitted to the mentioned Scheme, which is published and freely available on the Italian Tax Agency's website (<https://www.agenziaentrate.gov.it/portale/web/guest/schede/agevolazioni/regime-di-adempimento-collaborativo/elenco-societa-ammesse-al-regime-imprese>).¹

¹ Additional information is available in the 2018 Integrated Report.

Tax Governance, Risk Control and Management

The Board of Directors of the Parent entity defines UniCredit's tax strategy by vesting tax management powers in the Chief Financial Officer and the Head of Group Tax Affairs. Each Group Company makes sure it has a specific internal Tax Function or, in the case of small-sized entities, an internal Manager, who is vested with tax management powers. The Tax Function is responsible for defining domestic, international and supranational tax scenarios, as well as implementing appropriate and effective procedures to properly fulfil tax obligations and ensure the Group is taxed correctly.

Specifically, the Group exercises its tax governance by issuing Global Policies that are directly applicable to UniCredit SpA and issued to all Group Companies, which transpose and implement them in accordance with applicable local legal and regulatory requirements.

The Tax Function of the various Group Companies is committed to ensuring its staff receives continuous training (base, advanced and specialist training).

Considering the complexity of tax laws, to achieve the above objectives, several entities of the Group, chief among them UniCredit SpA, have adopted an effective Tax Control Framework (TCF), which forms part of the corporate governance system and ensures the constant monitoring of tax risks that could potentially concern them.

Specifically, the TCF of the Parent entity, UniCredit SpA, provides for (i) a clear division of roles and responsibilities between corporate bodies and functions, with appropriate skills and experience (ii) adequate processes to detect, measure, manage, and control tax risk, ensuring compliance with the relevant procedures at all levels of the company (iii) specific procedures to correct any shortcomings detected and activate the necessary corrective actions.

The system for assessing the effectiveness of tax compliance, as well as the analysis of the outcomes of such assessment, is implemented through a system of controls and assessments by bodies and functions within UniCredit SpA as well as external entities, such as:

➤ **Internal Audit**

- the **BoD**, after the **Internal Controls and Risks Committee (IC&RC)** and the **Board of Statutory Auditors** have been informed, receives a report on the status of the control system, the tax audits carried out and the relevant findings, the measures taken to correct any shortcomings found, and scheduled activities. The findings and the assessments made by the Governing Body are then shared with the Italian Tax Agency
- **Compliance** establishes the method of conducting, and monitors, the second level controls performed by Global Tax Compliance, in its capacity as specialist of the Compliance function as per Circular no. 285/2015 of the Bank of Italy; Global Tax Compliance, set up in 2014 to monitor the risk of non-compliance with tax laws associated with the operations conducted by the bank, performs second level controls, which are formalised and planned as part of a specific Framework outlining the risks, the operations to be audited, the outcomes of the controls, the level of risk, etc.
- the structure of the controls set out in the above Framework, approved by the Italian Tax Agency at the time of the admission to the Co-operative Compliance Scheme, is constantly reviewed and shared with the Italian Tax Agency. Every year, the latter presents the outcomes of the audits of the control system and the discussions held in a Final Report and the Compliance Letter, in which the Agency also reports on the in-depth investigations conducted at the Bank's request or on its own initiative.

With respect to **whistleblowing** on tax matters, please note that:

- since some tax crimes have been included in UniCredit SpA's Organisation and Management Model as per Italian Legislative Decree no. 231/2001, any conduct that constitutes such crimes is to be reported to the Supervisory Body
- the Whistleblowing system guarantees a specific and confidential channel, as well as the whistleblower's anonymity, for reporting violations of the relevant internal regulations, chief among them those outlined in the Code of Conduct, including any conduct that could constitute tax fraud or attempted tax fraud or is intended to facilitate tax fraud by third parties
- the Group companies participating in the Co-operative Compliance Scheme have the obligation to report any crimes that could result in tax non-compliance to the Italian Tax Agency as soon as they are formally informed about them.

Through its tax function, the Bank actively participates in meetings hosted by **trade and other associations** of which it is a member and that promote initiatives intended to develop best practices for tax management.

It inspires, supports and encourages companies to continually improve their impact on society by carrying out a series of activities which aim to promote the concept of corporate social responsibility both in the business sector and for the wider general public.

Governance

Governance

UniCredit SpA is an Italian company with shares listed on the Milan, Frankfurt and Warsaw regulated markets adopting the traditional management and control system and, as a bank, parent company of the UniCredit Banking Group, it carries out, pursuant to the provisions of Section 61 of the Italian Consolidated Banking Act, in addition to banking activities, governance and coordination ones, as well as control functions vis-à-vis the subsidiary banking, financial and instrumental companies within the banking Group itself.

The overall corporate governance framework of UniCredit¹ has been defined in compliance with current Italian and European provisions, as well as the recommendations of the Italian Corporate Governance Code for listed companies.²

UniCredit is also subject to the provisions contained in the Supervisory Regulations issued by Bank of Italy and, in detail, to the regulations on banks' corporate governance.

UniCredit, as issuer of shares also listed on the Frankfurt and Warsaw regulated markets, also fulfils the legal and regulatory obligations related to listings on said markets as well as the provisions on corporate governance contained in the Polish Corporate Governance Code issued by the Warsaw Stock Exchange.

Governance framework

UniCredit's corporate governance adheres to current rules and regulations as well as to the recommendations laid out in the Italian Corporate Governance Code for listed companies. The governance system is regularly verified and updated to ensure that UniCredit complies with evolving regulatory, environment, operating and market practices, which are constantly monitored in order to verify their implementation.

UniCredit governance components include:

- the Articles of Association which set forth corporate governance provisions aimed at ensuring the correct execution of corporate activities
- the Regulations for the Shareholders Meeting, governing the conduct of ordinary and extraordinary meetings
- the Corporate Bodies and Committees Regulation, governing the function and competencies of the corporate bodies and Board Committees, in compliance with relevant legal and regulatory provisions, and the UniCredit Articles of Association, also incorporating the principles and criteria set out in the Italian Corporate Governance Code for listed companies
- the Group Compensation Policy, establishing an approach consistent with sustainable remuneration and its standardised implementation across UniCredit
- the Group Managerial Golden Rules (GMGR), a set of guidelines defining managerial and governance rules at Group level in order to properly carry out its mission of defining a clear governance as well as managing and coordinating all Group legal entities.

In accordance with the GMGR guidelines, UniCredit issues Global Rules to regulate, inter alia, relevant activities for compliance with law and/or risk management purposes, to foster Group stability and ensure one single approach to corporate planning and overall efficiency. In particular these are:

- rules consistent with GMGR principles, exercising guidance, coordination and control functions and disciplining any activities deemed as significant in terms of compliance with the legal and regulatory provisions in force and/or in terms of risk management

¹ Refer to the annual Report on Corporate Governance and Ownership Structure and the 2020 Group Remuneration Policy available on the Governance section of the Company's website (www.unicreditgroup.eu) for more information.

² Since 2001, UniCredit has adopted the Italian Corporate Governance Code for listed companies, which, based on the experience of major international markets, inter alia, identifies the corporate standards and best practices for Italian listed companies recommended by the Italian Corporate Governance Committee - which is inspired by transparency, accountability and a long-term perspective - to be applied according to the comply or explain principle that requires the explanation in the Report on corporate governance and ownership structure of the reasons of failure to comply with one or more recommendations contained in its principles or criteria.

- > the Global Rules are classified into three different document types:
 - Global Policies (GP) which contain behavioural and methodological principles, guidelines and rules issued by the Holding Company, as well as the general framework of responsibilities between the Holding Company and the recipient legal entities
 - Global Process Regulation (GPR) which describe the key elements for the discipline of processes classified by the parent company as Global due to relations between activities, responsibilities and supporting tools
 - Global Operational Regulation (GOR) which provide detailed technical, operational or methodological instructions issued by the parent company
- > service contracts between UniCredit and its related subsidiaries, which formally regulate the provision of intercompany services and ensure transparency regarding the services provided and the related compensation.

Governance structures

UniCredit has adopted the so-called Italian traditional management and control system based on the existence of two corporate bodies whose members are appointed by the Shareholders' Meeting: the Board of Directors, in charge of the strategic supervision and the management of the company, and the Board of Statutory Auditors, responsible for supervising management. Legal accounting supervision is entrusted by the Shareholders' Meeting to an external audit firm, upon proposal of the Board of Statutory Auditors, in compliance with relevant current laws.

Members of the Board of Directors and Board of Statutory Auditors are appointed by the Shareholders' Meeting on the basis of a proportional representation mechanism (*voto di lista*). This voting system features lists of competing candidates to ensure the election of minority shareholders' representatives.

The appointing process of the above-mentioned corporate bodies guarantees that they are gender-balanced in compliance with current regulations and provisions.

In compliance with the current Italian and European provisions applicable on such topics, the Board of Directors establishes its qualitative-quantitative composition deemed to be optimal for the effective completion of the duties and responsibilities entrusted to the body with strategic supervisory function by law, by the Supervisory Provisions and by the UniCredit Articles of Association. The Board also establishes the requirements that the UniCredit Directors shall meet, in addition to possessing those envisaged under current provisions.

Before appointing the body with strategic supervisory function, the Board informs shareholders on the composition deemed to be optimal in order that the expertise required may be taken into consideration in the choice of candidates. However, shareholders may carry out their own assessment on the best composition of the supervisory body and file candidacies consistent with that assessment, giving their reasons for any difference vis-à-vis the analyses carried out by the Board.

With regard to the following:

- > the qualitative and quantitative composition of the Board of Directors and the profile of candidates to the position of Director
- > the time commitment recommended for an effective attendance at the Board and Committees meetings
- > the limits upon the maximum number of offices established by the current provisions
- > the gender composition criteria for the body with strategic supervisory function.

Reference can be found in the document Qualitative and Quantitative Composition of the Board of Directors of UniCredit, published on the Company's website, Governance section.

The Director's personal qualities matches the theoretical profile and meets the suitable requirements established by the Italian and European provisions. In particular, also in light of the information given by the persons concerned, the requirements regarding experience, integrity and independence,³ as well as the time commitment and the limits upon the maximum number of offices that Directors may hold, were accounted for.

Furthermore, with reference to professional expertise gained in the areas of competence envisaged by the profile, all areas of competence were represented in the Board and the experience possessed by all the Directors is in line with the requirements of the profile, given the good understanding and experience in more than two of the required areas of competence.

³At the approval date of this Integrate Report, the number of independent Directors in office is above the minimum required by current regulatory and statutory provisions (11 out of 13 under UniCredit's Articles of Association and the Italian Corporate Governance Code, 13 out of 13 under Legislative Decree No. 58/1998, 13 are non-executives).

With specific reference to diversity, at the approval date of this Integrated Report the gender quota is temporarily under the threshold established by the applicable provisions as a consequence of the stepping down of Director Ms. Elena Zambon and the co-optation of Mr. Pietro Carlo Padoan as Chairman candidate in view of the Board of Directors' renewal for the 2021-2023 financial years (both effective from 13 October 2020), as well as following the anticipated ending from the position of Chief Executive Officer and General Manager of Mr. Jean Pierre Mustier (effective from February 11, 2021). In this regard, the Company announced that the number of the directors belonging to the least represented gender will be restored as soon as possible.

In order to support the Board of Directors, also pursuant to the provisions of the Italian Corporate Governance Code for listed companies, there are four established Committees,⁴ vested with research, advisory and proposal-making powers and diversified by sector of competence:

- > the Internal Controls & Risks Committee
- > the Corporate Governance, Nomination and Sustainability Committee
- > the Remuneration Committee
- > the Related Parties Committee.

In particular, the first three Committees were set up in compliance with the provisions of the Bank of Italy Supervisory Regulations on banks' corporate governance envisaging three specialist Committees – one on appointments, one on risks and one on remuneration. The Related Parties Committee was established for overseeing issues concerning transactions with related and associated parties, in compliance with the relevant Italian Companies and Exchange Commission (CONSOB) regulatory provisions and the Bank of Italy Supervisory Regulations, carrying out the specific role attributed to independent Directors in the aforementioned provisions. The Committees' duties are undertaken according to the terms of reference and procedures set forth by the Board.

BOARD SELF-EVALUATION ⁵

In compliance with the provisions of the Bank of Italy Supervisory Regulations on banks' corporate governance, and also pursuant to the provisions of the Italian Corporate Governance Code for listed companies, the Board of Directors undertakes a regular self-evaluation process at least once a year. It is focused on the adequacy of the Board itself and Board Committees in terms of composition and functioning, tangibly measured in specific theme-based areas, particularly those relevant to sound and prudent management.

The self-assessment process is undertaken with the assistance of an external consultant chosen according to skills, expertise in the field of corporate governance and the need for neutral, objective and independent judgement which are the hallmarks of the self-assessment process.

INDUCTION INITIATIVES AND RECURRENT TRAINING ⁵

In UniCredit a permanent induction programme is active for the Board members, also for the benefit of the Board of Statutory Auditors members, based on three-year cycles connected to the Board mandate, the aim of which is to ensure ad hoc training on a continuous basis by taking into account both individual and collective needs.

The induction programme, which is put in place with the support of an external consultant, includes both sessions aimed at fostering the integration of new Directors and recurrent training to preserve over time the expertise needed for the proper fulfilment of their duties.

In addition, individual training plans will be activated, should they be deemed necessary, to strengthen specific technical knowledge and expertise and to increase the level of diversity and the collective experience of the Board of Directors.

⁴ Refer to the annual Report on Corporate Governance and Ownership Structure and the Group Compensation Policy, available in the Governance section of the Company's website (www.unicreditgroup.eu), for more information.

⁵ Refer to the annual Report on Corporate Governance and Ownership Structure, available in the Governance section of the Company's website (www.unicreditgroup.eu), for more information.

Board and senior management compensation⁶

The CEO is the only Executive Director who sits on the Board of Directors and part of his remuneration is linked to the sustainability of UniCredit's financial results. All other Board Members are non-executive Directors and are not beneficiaries of incentive plans utilising stock options or, more generally, of any incentive plan that makes use of financial instruments.

The remuneration for members of the administrative and auditing bodies of UniCredit is represented only by a fixed component, determined on the basis of the importance of the position and the time required for the performance of the assigned tasks. This policy applies to non-executive Directors as well as Statutory Auditors.

The approach to compensation for UniCredit's top managers, as detailed in the Group Remuneration Policy, is performance-based, market-aware and aligned with UniCredit's business strategy and shareholders' interests. The variable remuneration for the CEO is entirely based on the *2020-2023 Long Term Incentive Plan*, supporting the achievement of the strategic plan targets and sustainability over time. More details on the compensation for top management leaders and for members of the administrative and auditing bodies of UniCredit are reported in the Group Remuneration Policy.

To ensure competitiveness and effectiveness of remuneration, as well as transparency and internal equity, the principles of sustainable conduct and performance define the key pillars of the Group Remuneration Policy. The Remuneration Policy framework is designed to ensure the consistency of the remuneration elements and systems while also conforming to our Group's long-term strategies and principles of sound risk management.

The Group Remuneration Policy, as proposed by the Remuneration Committee, is submitted for approval to the Board of Directors and, subsequently, to shareholders at the Annual General Meeting.

⁶ The information relates to the 2020 Group Remuneration Policy; please refer to the Company's website (<https://www.unicreditgroup.eu/en/governance/compensation.html>) for more details.

Risk Management and Compliance

Managing environmental and social risks

Sound risk management requires a deep understanding of many types of risk, including environmental and social risks, and their subsequent impacts on financial results and statements.

Through its Global Policy on Group Credit Operations (chapters on Project Finance and Structured Trade and Export Finance) and other special policies and practices, UniCredit assesses and manages traditional economic and financial, as well as non-financial impacts. These include environmental, social and other reputational risk impacts associated with performance of its customers in these areas.

With this in mind, UniCredit implements and integrates the Equator Principles (EP), whenever applicable. Furthermore UniCredit has adopted detailed special policies regarding sectors that present significant environmental and social risks and monitors portfolio exposures to them accordingly. In keeping with our commitments, we strive to disseminate a strong inner culture of risk management that prioritises environmental and social issues.

HOW WE MITIGATE ENVIRONMENTAL, SOCIAL AND REPUTATIONAL RISKS

POLICIES	SCOPE & OBJECTIVES	2020 HIGHLIGHTS
EQUATOR PRINCIPLES +	<ul style="list-style-type: none"> framework of standards for determining, assessing and managing environmental and social risk for large projects. 	<ul style="list-style-type: none"> 62 project transactions evaluated 17 projects financed.
SECTOR POLICIES Coal, Mining, Arctic and Non-Conventional Oil & Gas Industry, Defence/Armaments, Nuclear energy, Water Infrastructure +	<ul style="list-style-type: none"> framework of sector-specific standards/guidelines to identify, assess and mitigate environmental, social and reputational risks/impacts on an ongoing basis with our clients. 	<ul style="list-style-type: none"> >1130 transactions were screened for environmental, social and reputational risk issues (vs. >830 in 2019) ~ 300 colleagues were trained in UniCredit sector policies pertaining to sector policies.
OTHER ENVIRONMENTAL AND SOCIAL IMPACTS (AD HOC ASSESSMENT) +	<ul style="list-style-type: none"> specific high risk cases/transactions analysis not covered under the defined policies ad hoc analysis leveraging the data analytics and key internal functions of external ESG providers. 	<ul style="list-style-type: none"> ~ 230 transactions were screened for environmental, social/human rights and reputational risk issues.
ENVIRONMENTAL, SOCIAL AND REPUTATIONAL RISK - PREVENTION PROCESS	<ul style="list-style-type: none"> dedicated Committee (GRRC) to assess business initiatives, transaction banking, projects, customers, etc. awareness and knowledge of potential reputational risks across the Group. 	<ul style="list-style-type: none"> >90 transactions analysed by GRRC (vs. >40 in 2019) Quarterly analysis presented/discussed in Group Operational Reputational Risk Committee (GORRIC) 110 ESG topics in communication and engagement activities to all employees.

Implementation of the Equator Principles

In 2003, UniCredit adopted the EP,¹ a financial industry benchmark for determining, assessing and managing environmental and social risk in projects. The EP provide a minimum standard for due diligence to support responsible risk-related decisions and are based on the International Finance Corporation (IFC) Performance Standards on Environmental and Social Sustainability and the World Bank Group Environmental, Health and Safety (EHS) Guidelines.

UniCredit was one of the first adopters of the ten principles that constitute the EP. From the outset, our Group has actively contributed to the framework's development. In 2020, we continued to be engaged in the work of the EP and to strengthen our internal and external commitment.

Internally, as of 1 January 2020 the tasks and responsibilities of the EP Advisory team were integrated in the Sustainable Finance Advisory team which oversees and supports implementation of the EP across the Group and represents UniCredit in the EP Association.

In 2020, UniCredit externally committed to the adoption of EP4, with the approval of a new set of rules taking effect from 1 July 2020. The development of EP4 was an intensive process which extended over several years and included feedback from a wide variety of stakeholders and experts. As an example, the UniCredit Sustainable Finance Advisory team participated in the Social Impact and Human Rights Working Group which provided essential input for the development of EP4 and associated guidelines. We will actively continue to support this Working Group and others in the future.²

EQUATOR PRINCIPLES – PROJECTS EVALUATED AND FINANCED, 2020

Projects evaluated	Projects financed ^A
62	17

^A Includes 17 Project Finance transactions.

Risk category ^A	2020 ^B	2019 ^B	2018 ^B
Category A	4	1	7
Category B	6	6	11
Category C	7	7	5
Total	17	14	23

^A Category A: projects with potential significant adverse social or environmental risks and/or impacts that are diverse, irreversible or unprecedented.

Category B: projects with potential limited adverse social or environmental risks and/or impacts that are few in number, generally site-specific, largely reversible and readily addressed through mitigation measures.

Category C: projects with minimal or no social or environmental risks and/or impacts.

^B Projects financed by UniCredit Bank AG, UniCredit SpA and UniCredit Bank Austria AG.

	Category A	Category B	Category C
Designated Country	2	6	7
Independent Review	4	6	7

^A Designated countries are those countries deemed to have robust environmental and social governance, legislation systems and institutional capacity designed to protect their people and the natural environment. The list of Designated countries may be found on the EP Association website.

^B An Independent Review is a review of the Assessment Documentation, including the ESMPs, ESMS and Stakeholder Engagement process documentation carried out by an Independent Environmental and Social Consultant.

EP in facts

NORTHVOLT, SWEDEN

UniCredit – together with a consortium of commercial banks, pension funds and public financial institutions comprising APG, BNP Paribas, Danske Bank, Danica Pension, IMI – Intesa Sanpaolo, ING, KfW IPEX-Bank, PFA Pension, SEB, Siemens Bank, SMBC, Société Générale and Swedbank, as well as the European Investment Bank, the Nordic Investment Bank and the Export-Import Bank of Korea (KEXIM) – arranged a USD1.6 bn non-recourse financing in Northvolt's 16GWh large-scale battery manufacturing plant in Skellefteå, Sweden (the Project). The loan was structured with certain guarantees from Euler Hermes, Nippon Export and Investment Insurance (NEXI) and BPI France.

The overall purpose of the Project is to support and accelerate the transition to a sustainable way of producing, storing and consuming electricity in different industries. Northvolt aims to produce high quality, cost-effective batteries leveraging a sustainable production process with minimal environmental impact. Li-Ion batteries are predicted to be the leading battery technology of the future, demonstrating an excellent energy charge density and space efficiency, as well as a suitability to multiple uses in that they are one of the safest battery technologies available.

With a future potential total annual output of 40GWh, the Project is currently under construction and production start-up is scheduled for 2021. Northvolt targets a 25 percent market share in Europe by 2030, equalling approximately 150GWh of commissioned annual production capacity. At the same time, Northvolt aims to secure 50 percent of its raw material requirements from recycled batteries.

The Project benefits from a multi-contract construction strategy with experienced Tier-1 contractors in line with similar projects. It is being developed in compliance with the strict laws and regulations of Sweden as an EP Designated Country and is compatible with the lenders' environmental and social standards, including the IFC Performance Standards, Equator Principles and EIB Environmental and Social Standards. As part of the Technical Due Diligence, an environmental and social assessment was conducted on behalf of the lenders by a reputable external consultant. It was based on the review of a set of documents as well as site visit observations and discussions with the relevant stakeholders of the Project.

In consultation with the lenders' advisor, the Project has been categorised as Category 'A' in accordance with Equator Principles whereby potentially significant environmental and social impacts can be avoided or mitigated by adhering to nationally adopted and enforced standards as applied through the Swedish national environmental permitting process, as well as the definition and implementation of an Environmental and Social Management Plan.

Regular monitoring by an Independent Advisor of the implementation of mitigation actions and of the environmental and social status of the Project has been agreed for construction and operation phase of the Project.

BINA ISTRA, CROATIA

UniCredit supported the BINA ISTRA Toll Road PPP in Croatia, a 145 km highway concession owned by the Republic of Croatia and a core client of UniCredit - Bouygues (France), in raising €921.3 m of debt financing for all existing facilities and new capital expenditure for the expansion of the motorway.

UniCredit acted as one of the two leading banks in the transaction and secured all available side roles and cross-selling. Roles of UniCredit: Structuring Bank, Global Coordinator, Bookrunner, Mandated Lead Arranger, Hedging Bank, Facility and Documentation Agent and Account Bank.

The Project rationale is that once completed, it will improve overall safety, create road standard homogeneity across the Croatian motorway network and accommodate the significant traffic increase to and from EU countries subsequent to Croatia's accession in the summer of 2013.

The Project includes expansion work parallel to the existing stretch of a 2-lane motorway therefore no material impact on biodiversity is anticipated. This is confirmed by Environmental Impact Assessment results which state that the motorway passes through the existing Ucka tunnel and so fully avoids crossing the Ucka Nature Park, a protected mountain area of app. 160 km² which includes a number of hiking/biking trails. The remainder of the Project follows the natural borders of the habitat, thus reducing any potentially adverse impact on biodiversity to a minimum.

We categorised the Project as an EP Category B, i.e. a Project with potential limited adverse environmental and social risks and/or impacts that are few in number, generally site-specific, largely reversible and readily addressed through mitigation measures.

The international consultancy mandated as Lenders Technical Advisory (LTA) confirmed in their due diligence report that the environmental mitigation measures as defined in the EP Action Plan (EPAP) are sufficient to mitigate adverse impacts by the Project. The LTA will regularly monitor the implementation of these actions and report the status to the Lenders.

Compliance

How compliance is managed at UniCredit

The constant evolution of the international scenario and an increasingly demanding regulatory framework makes the Compliance function even more crucial and central for our Group. Indeed, its mission, under the responsibility of the Chief Compliance Officer, is to monitor and enhance the management of compliance risk in terms of guaranteeing the correct application of the regulatory framework, and of ensuring a consistent interpretation of the framework at group level, also in accordance with strategic plan *Team 23*. It is also responsible for the identification, evaluation, prevention and monitoring of overall compliance risks, and assists the Group, its management, the corporate bodies and employees, in carrying out their activities in compliance with mandatory rules, internal procedures and best practices.

In order to accomplish such goals, the Compliance office defines, develops and monitors both the implementation of and adherence to compliance rules, procedures, methodologies, training and, in particular, the minimum compliance standards within the Group. Moreover, inherent in its mission is the goal of being a valuable partner to the Business in terms, firstly, of ensuring the necessary advice to deal promptly both with new regulations and emerging risks impacting on the Bank's strategic interests and, secondly, of enhancing awareness on conducting business in an ethical way.

The Compliance function is embedded in the second-level internal control system and aims at preventing and managing the risk of regulatory non-compliance and conflict of interest with a view to preserving the Bank's reputation and customer confidence as well as contributing to Group Sustainability (corporate value creation/consolidation). It does this through: strategic guidance (policies and opinions) and support and monitoring (compliance risk mapping, preventive evaluation) of all compliance activities. Moreover, by regularly interacting with the other control functions, especially in the prompt detection of upcoming emerging risks, it ensures consistency in the functioning of the second level internal defence line.

KEY POLICIES ON THE MAIN COMPLIANCE TOPICS

Topic	Global Policy	Definition	Updates 2020
Governance	Group Compliance Framework	This Rule defines the mission of the Compliance function within the Group, its organisational and operational requirements as well as its scope and main related tasks to be performed accordingly	Renewal
	ICT Compliance Framework	This Rule aims to set up guidelines and principles to ensure compliance with laws and regulations in force regarding ICT and to define the organisational framework of responsibilities and main activities to be performed by Compliance functions	No
	Compliance Culture	This Rule defines the principles and guidelines to establish, promote and sustain a culture of Compliance. The document integrates UniCredit's Compliance culture framework, its components and defines the stakeholders involved	No
	Code of Conduct	This Rule lists the principles which all employees and third parties of UniCredit must comply with in order to ensure high standards of professional conduct related to their activity in or on behalf of UniCredit	No
	Group Outsourcing Control Framework	The objectives of the document are: <ul style="list-style-type: none"> ➤ to provide operating instructions to Local Compliance Functions for the execution of ex ante and ex post controls and a standardised implementation of the Group outsourcing controls framework ➤ to define the distribution of activities between Group Compliance Indirect Model, Oversight & Policies and Local Compliance Functions in the controls execution process 	Renewal
	Compliance Risk Assessment	This rule provides operating instructions for a standardised implementation of the Global Policy – Compliance Risk Assessment Methodology and the related process and procedures that UniCredit SpA, the Sub-holding and all legal entities/Foreign Branches must follow in carrying out Compliance Risk Assessment activities according to the perimeter as defined by the Oversight questionnaire	Renewal
	The operating model aimed at protecting against risk of usury	This policy governs the methods by which the Bank must operate to comply with the provisions on usury in order to prevent the risk of criminal and/or administrative sanctions deriving from their violations	New
	Organisation and Management Model of UniCredit SpA pursuant to Italian Legislative Decree 231/01	This document illustrates the scope, aims and contents of the UniCredit SpA Organisation and Management Model, providing indications on: the reference regulatory framework, the methodology adopted for monitoring risks, the composition and role of the Supervisory Body and on the internal disciplinary system	Renewal

Topic	Global Policy	Definition	Updates 2020
Data Protection (GDPR)	Privacy	This Policy implements the provisions introduced by the EU GDPR n. 2016/679, in order to define minimum requirements on data protection-related topics. This rule is aimed at uniform enforcement of the GDPR requirements and principles at Group Level	No
	Record of Processing Activities	This regulation defines the guidelines for the correct implementation of the provisions introduced by Article 30 of the EU GDPR n. 2016/679 related to the Records of Processing Activities. This rule applies to all UniCredit Group legal entities, even ones outside the EU if their data processing activities relate to the offering of goods or services to individuals in the EU or to the monitoring of these individuals' behaviour	Renewal
	Data Protection Risk Assessment Methodology	This document defines the characteristics of the Risk Assessment Methodology, including the execution of Second level controls, to fully monitor the emerging risks in the processing of personal data, according to the contents of the GDPR (Reg. N. 679/2016 – General Data Protection Regulation), in line with the approach outlined by the GOR IR 1425/2. All general principles and instructions not explicitly mentioned in this document are covered by and in line with Group Compliance Risk Assessment methodology	New
	Right to Be Forgotten Approach	This Rule incorporates the provisions introduced by the GDPR 2016/679 and in particular establishes the application of the storage limitation principle based on which Personal Data must not be kept for a period of time exceeding the achievement of the purposes for which they were collected, pursuant to art. 5 E) of the same Regulation	New
Customer protection	Provision of investment services and activities under MIFID II	This rule provides UniCredit SpA and Group Companies with common standards and minimum requirements when providing investment services and activities falling within the scope of MIFID II, with the exclusion of ancillary services	No
Conflicts of interest	Conflicts of interest	This Policy sets out rules and standards to be implemented by the UniCredit Group for properly detecting, managing and recording Conflicts of interest, with particular regard to: <ul style="list-style-type: none"> > conflicts in the provision of investment services and activities > conflicts in the provision of insurance products distribution services > conflicts related to the issuance of financial instruments > conflicts arising from the administration and/or contribution to financial benchmarks > conflicts arising from the provision of investment recommendations > conflicts in the provision of banking services and activities > conflicts arising from employee's personal interests > organisational conflicts > conflicts arising from assignment of services and/or activities to external providers 	No
	Outside Business Interests	This rule sets out the operational procedure, as identified by Group Compliance, that employees must follow when they hold or intend to hold an Outside Business Interest (hereinafter the OBI) in order to receive authorisation from the Company OBI includes: <ul style="list-style-type: none"> > providing services to third parties > acquiring or holding company positions > relevant shareholding in a company > Interest in business transactions > interest in authorities or other organisations 	Renewal
Anti-Bribery and Anti-Corruption	Anti-Bribery and Anti-Corruption	This Policy aims to: <ul style="list-style-type: none"> > clearly articulate UniCredit's commitment to prohibiting bribery and corruption > define principles for identifying and preventing potential bribery and corruption > clearly communicate anti-bribery and anti-corruption principles both to internal and external stakeholders > provide a framework for a Group-wide Anti-Corruption Programme 	No
	Whistleblowing	The purpose of this rule is to foster a corporate environment where employees and third parties may feel free to make reports on unacceptable conduct within the Group since they are considered as significantly contributing to self-correction and excellence. This Rule defines: <ul style="list-style-type: none"> > unacceptable conduct subject to reports from employees > the process for the management of reports by identifying the persons in charge of the relevant receipt and analysis > the measures provided by the Group for the protection of whistle-blowers and their identity as well as measures related to the filing of the documentation connected to reports 	No

Topic	Global Policy	Definition	Updates 2020
Anti-Money Laundering (AML), Counter-Terrorist Financing and Financial Sanctions	Anti-Money Laundering and Countering of Terrorist Financing	This rule provides a high-level framework for employees to identify potential money laundering and terrorist financing risks and to assist them in determining how to manage those risks. It also provides general information on the measures taken by Group Companies to identify, mitigate and manage money laundering and the terrorist financing risk	No
	Financial Sanctions	This rule defines the principles and rules for setting out the framework by which the Group manages its risks with respect to Financial Sanctions and establishes minimum standards for the controls which must be implemented throughout the Group	Renewal
	Trade Finance Sanctions Screening	This rule sets out the minimum standards for sanctions compliance in trade finance business across the Group	Renewal
	AML Due Diligence Requirements for Customers	This rule provides the customer risk assessment and classification standards as well as the KYC requirements for customers of UniCredit legal entities. With respect to Correspondent Banking relationships, this rule must be read in conjunction with the GOR – AML Standards for Correspondent Banking	Renewal
	AML CTF Transaction Monitoring	This rule provides requirements and procedures to all Group entities and applies to all members of strategic, control and executive bodies, employees, tied agents (e.g. financial advisors) and temporary employees of the Group involved in the execution, support and monitoring of customer transactions. With respect to Correspondent Banking relationships, this rule must be read in conjunction with the GOR – AML Standards for Correspondent Banking	Renewal
	AML Standards for Correspondent Banking	This rule defines the principles and rules for setting out the framework from which the Group sets forth the risk mitigation and due diligence requirements in connection with Correspondent Banking relationships to support sound business practices, protect the bank against money laundering, terrorism financing, evasion of financial sanctions and other financial crime risks	Renewal
	Financial Benchmarks	This rule is aimed at defining Group internal principles and rules to regulate the contribution to, the provision of and the use of financial benchmarks, according to Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds	Renewal
Market Integrity	GOR - Financial Benchmarks	The purpose of this rule is to set out the technical, operational and methodological instructions for the administration, contribution and use of benchmarks	New

Policies

ANTI-MONEY LAUNDERING

The Global Policy on AML and Countering of Terrorist Financing is built on the Group Compliance Framework Global Policy and sets out guidelines and instructions on risk assessment, customer classification and due diligence requirements for the Know Your Customer process, screening of customers, transaction monitoring, investigation and reporting of suspicious transactions, record keeping, Funds transfer, training, regulatory tracking, management information and reporting, monitoring of controls considering relevant regulation and best practices.

The AML Policy sets out the framework the Group uses to manage its money laundering and terrorist financing risk and establishes minimum standards for the Group Entities AML programmes. The operational guidelines for the implementation of the AML Policy are detailed in the Group Operational Regulation.

Key achievements 2020	Priorities 2021
<ol style="list-style-type: none"> 1. implementation of negative news screening in 31 legal entities 2. implementation of regulatory projects 3. execution of AML risk assessment 4. execution of three investigations in addition to those planned 5. enlargement of second level controls catalogue to include emerging risks identified 6. execution of Quality Assurance plan. 	<ol style="list-style-type: none"> 1. continue roll-out of negative news screening 2. Continue investigations on specific money laundering typologies 3. independent review of transaction monitoring tool 4. testing of CDD tools in group entities.

ANTI-CORRUPTION

The Group has zero tolerance for acts of corruption, it prohibits facilitation payments and does not permit any transfer of value to public officials without approval.

Our approach to anti-corruption and anti-bribery is set out in the Global Compliance Policy on Anti-Corruption and associated Group Operational Rule.

The Global Policy sets out the minimum anti-corruption standards throughout the UniCredit Group and is published on the Group website.¹ Whenever local rules in a country of operation are stricter than the Global Policy, the stricter local rules apply. Each local entity is responsible for the development and implementation of an effective local Anti-Corruption Programme.

The Global Policy and Group Operational Regulation are reviewed periodically. Moreover, Italian Group legal entities have also implemented the Organisational and Management Model pursuant to the Italian Legislative Decree 231/01 (Administrative liability of legal entities, companies and associations). This Model establishes specific Protocols preceding bribery and corruption issues.

For the purposes of the Policy, an act of corruption is defined as the giving, offering, promising, receiving, accepting, demanding or soliciting directly or indirectly of monetary or non-monetary and tangible or intangible benefits in order to obtain or retain an undue advantage in the course of business activities, irrespective of:

- > whether the recipient of the act of corruption is a domestic or a foreign individual, a public official or a private individual
- > where the act is committed
- > whether the result of such an act entails an actual undue advantage or the improper performance of a function or activity.

All employees are responsible for complying with the Global Policy and Group Operational Regulation, any corresponding local internal rules and procedures and all applicable anti-corruption laws in the performance of their duties.

All employees shall report to the Local Anti-Corruption Officer or the Local Head of Compliance any instances of actual or attempted acts of bribery or corruption they become aware of, whether they be offered, given or received.

Although any reports must be made according to the established internal procedure, they must first of all be made to the Local Anti-Corruption Officer and, where actual or suspected money laundering is involved, also to the local AML Officer. Failure to make such a report may give rise, in certain jurisdictions, to individual criminal liability of the employee concerned, as well as exposing the Group to potential legal or regulatory action. Potential acts of bribery and corruption may be reported also under the Global Policy on Whistleblowing.

The following mechanisms have been put in place to monitor the effectiveness of the Group's approach to preventing corruption and bribery: escalation procedures employed for significant and strategic issues; quarterly report to the management of second level controls; compliance risk assessments performed for each regulatory area in all legal entities within the Compliance function's jurisdiction; internal audit reviews. The last two mechanisms result in risk mitigation actions that must be completed on time to ensure the management of identified risks.

Key achievements 2020	Priorities 2021
<ol style="list-style-type: none">1. implementation of the Group Operational Regulation, roll-out in all the Group legal entities2. roll-out and update of Group Control Catalogue3. dedicated training (workshop/classroom) on ABC topics for specific target of employees4. training on new ABC course to all Group employees.	<ol style="list-style-type: none">1. review of the Global Policy Anti-Bribery and Corruption which defines principles for identifying and preventing potential bribery and corruption2. update of the Global Operational Rules Anti-Bribery and Corruption which defines process, roles and responsibilities for managing ABC topics3. review of the ABC Framework4. annual review of the second level controls Catalogue5. update and review of the Acorrd tool and implementation in most relevant legal entities.

ORGANISATIONAL AND MANAGEMENT MODEL PURSUANT TO ITALIAN LEGISLATIVE DECREE 231/2001

UniCredit SpA has adopted an organisational and management model (hereinafter the Model) pursuant to Italian Legislative Decree 231/01 (administrative liability of legal entities, companies and associations, hereby L.D. 231/01). The Model is integrated within the rules, procedures and control systems already in place and applied in UniCredit SpA.

In drawing up the Model, the Bank particularly considered the Italian Banking Association (ABI) Guidelines.

In particular, the bank's organisational framework consists of the set of rules, structures and procedures that ensure the proper

¹ Refer to <https://www.unicreditgroup.eu/en/governance/our-governance-system/articles-association-code-ethics.html>.

functioning of the Model; it is a structured, comprehensive system with the aim of guaranteeing the prevention of unlawful conduct, including conduct regulated by specific legislation on the administrative liability of entities. In particular, the Bank has defined the rules of Corporate Governance, the Internal Controls System, the system of authorities and delegation, the Code of Conduct, in order to plan and implement business decisions and carry out relevant checks.

In addition, the Bank has formalised the Special Section containing specific Decision Protocols listing all at-risk activities and relative potential offences, as well as the principles of conduct and control rules aimed at preventing these offences. As an integrated part of The Model, UniCredit SpA established additional rules of conduct in the Code of Ethics pursuant to the decree.

The UniCredit SpA Model was updated in August 2020. In particular, the General Section and the Decision Protocols was updated as follows:

- > General Section:
 - (i) Master Record was updated according to the new names of the structures
 - (ii) Paragraph 2.2 Crimes and offences that give rise to the administrative liability of entities and Attachment 1 List of predicate offences and illegal conducts were integrated with the new Tax offences as introduced in L.D. 231/01 in December 2019
 - (iii) Paragraph 4.4.2 Reports of unlawful conduct and breaches of the Model – whistleblowing was revised and aligned to the new name of the structures
 - (iv) The Integrity Charter was replaced with the Ethics and respect: Do the right thing! Manifesto
 - (v) The Code of Ethics as per Legislative Decree 231/2001 was updated following the introduction of the new Tax offences.
- > Decision Protocols:
 - (i) The new Tax offences
 - (ii) The results following the periodical information flows to the Supervisory Body provided by the Bank's competent structures, the new/amended internal regulations, the results of protocol control activities and the audit reports
 - (iii) The Integrity Charter was replaced with the Ethics and respect: Do the right thing! Manifesto
 - (iv) Decision Protocol no. 25 (related to Health and Safety) was updated with activities related to the management of biological risk from contagion.

During 2020 UniCredit SpA managed the project aimed at updating the UniCredit 231 Model and the enforcement of the Group 231 Framework. The project, ended in December 2020, provided for the overall Risk Assessment of the Model, the new version of which will be presented to the UniCredit Board of Directors by the first quarter of 2021.

Key achievements 2020	Priorities 2021
1. update of the Project 231 - UniCredit 231 Model and the enforcement of the Group 231 Framework.	1. roll-out of the updated Model post Project - UniCredit 231 Model and the enforcement of the Group 231 Framework.

ANTITRUST

UniCredit has always been highly committed to compliance with Antitrust rules. In this framework, in 2016 UniCredit defined the Compliance-Antitrust Program at Group level (hereinafter CAP) aimed at:

- > increasing the governance of Antitrust matters at both company and Group level
 - > strengthening compliance culture and enhancing the Group's reputation on the markets
 - > managing the risk of both Antitrust breaches and penalties more effectively
- The CAP is subject to monitoring and periodic review to ensure its continued effectiveness.

Following the deployment of CAP in the main banks of the Group in 2016 (and subsequent extension to further Group Companies and foreign branches in 2017 and 2018), in 2019 UniCredit started the refresh of Compliance Antitrust Program throughout the Group. According to that, in 2019 the CAP was refreshed and updated in 15 banks of the Group.

As regards the other Group Companies, in 2020 the format of the CAP has been fine-tuned to identify two alternative forms of CAP (with different features) based on the Antitrust sensitivity of the relevant Group Companies, namely

- (i) CAP Standard, performed through:
 - > a dedicated mapping of any sensitive company functions (i.e. those exposed to potential Antitrust risks, including but not limited to Business ones)
 - > targeted interviews of key people of the impacted functions to identify specific Antitrust risks
 - > a dedicated assessment of the Antitrust risks and subsequent roll-out of internal processes and controls (where needed)
 - > tailor-made training sessions assigned to selected employees within the Functions affected by antitrust risks.
- (ii) CAP Simplified, executed through:
 - > the local implementation of the GP Single Antitrust Rulebook (unless already in force)

- > commitment of senior management on Antitrust rules
- > tailor-made training sessions designed for employees.

Particularly, in 2020 the CAP Standard was cascaded to 16 Group Companies (in Austria, Czech Republic, Germany, Italy, Slovakia, Poland, Romania, Russia) and 6 Foreign Branches of UniCredit SpA. As regards to CAP Simplified, it was performed in 14 Group Companies (in Austria, Bulgaria, Croatia, Czech Republic, Italy, Hungary, Serbia, Slovakia, USA), while 21 Group Companies (in Austria, Bulgaria, Croatia, Czech Republic, Germany, Hungary, Italy, Luxembourg, Romania, Serbia, Slovakia, Slovenia) were required to perform the calculation of the Antitrust inherent risk to define whether the implementation of either CAP Standard or CAP Simplified is needed in 2021, depending on the result of such calculation.

Key achievements 2020	Priorities 2021
1. involvement of more than 50 Group Companies and 6 foreign branches in the activities related to CAP.	1. cascading of Compliance Antitrust Program to further Group Companies potentially affected by antitrust risks, which have been selected on the basis of the Antitrust oversight perimeter, based on the antitrust sensitivity of their activities. In particular, by 4Q2021 the CAP will be implemented in the Group Companies that performed the inherent risk calculation in 2020.

MAIN LEGAL ACTIONS REGARDING ANTI-COMPETITIVE BEHAVIOUR, ANTITRUST AND MONOPOLY PRACTICES^A

Country	Update on legal actions listed as ongoing in the 2019 Integrated Report
Germany and Italy	<p>During 2019 UniCredit SpA and UniCredit Bank AG received a Statement of Objections from the European Commission referring to the investigation by the European Commission of a suspected violation of antitrust rules in relation to European government bonds. The subject matter of the investigation extends to certain periods from 2007 to 2012, and includes alleged activities by UniCredit Bank AG in a part of this period.</p> <p>The Statement of Objections does not prejudge the outcome of the proceedings; should the Commission conclude that there is sufficient evidence of an infringement, a decision prohibiting the conduct and imposing a fine could be adopted, with any fine subject to a statutory maximum of 10% of the company's annual worldwide turnover.</p> <p>UniCredit SpA and UniCredit Bank AG had access to the entirety of the European Commission's file on the investigation from 15 February 2019 onwards. As a result of the assessment of the files, the Bank regards it no longer remote but possible, even though not likely, that a cash outflow might be required to fulfil a potential fine arising from the outcome of the investigation. On the basis of the current information, it is not possible to reliably estimate the amount of any potential fine at the present date.</p> <p>UniCredit SpA and UniCredit Bank AG responded to the objections raised on 29 April 2019 and participated in a hearing before the European Commission on 22-24 October 2019. Proceedings are ongoing. There is no legal deadline for the Commission to complete antitrust inquiries.</p>
Italy	<p>In April 2016, the AGCM notified the extension to UniCredit (and to 10 other banks) of the proceedings I/794 ABI/SEDA opened in January vis-à-vis the Italian Banking Association (ABI). The proceedings are aimed at ascertaining the existence of alleged concerted practices with reference to the Sepa Compliant Electronic Database Alignment system (SEDA).</p> <p>On 28 April 2017, the AGCM issued a final notice whereby it confirmed that the practices carried out by the ABI, UniCredit and the other banks in connection with the adoption of the SEDA service model of compensation constituted an anti-competitive practice and therefore a violation of European competition regulations. With such notice, the AGCM ordered the parties to cease the infringement, submit a report evidencing the relevant measures adopted by 1 January 2018 to the AGCM and refrain from enacting similar practices in the future. Given the fact that the infringements were minor in light of the legislative framework, the AGCM did not impose any monetary or administrative sanctions against UniCredit (or the other 10 banks) also in consideration of the fact that, in the course of the proceedings, the ABI and the banks proposed a redefined SEDA service remuneration model which, if correctly implemented by the banks, is expected to decrease the current SEDA costs by half, benefitting the enterprises utilising the service and, ultimately, the end-users of the utilities. UniCredit decided to appeal the AGCM decision at the TAR (the Italian Regional Court). The appeal is still pending.</p>
Hungary	<p>The Hungarian Competition Authority (GVH) began a cartel investigation of 7 Hungarian banks, including UniCredit Bank Hungary Zrt, in connection with foreign currency mortgage loan repayments (early repayments). In 2013, the GVH fined UniCredit Bank Hungary Zrt. HUF306,300,000 (approximately €1 m).</p> <p>The Bank appealed against such decision and the appeal was rejected at the first and second instance.</p> <p>In December 2016, in the judicial review framework, the Supreme Court (Curia) instructed the Competition Authority to conduct a new procedure over fines it had levied on Banks. The Competition Authority reimbursed the fine paid by the Bank in 2013. In the new proceedings the Hungarian Competition Authority re-calculated the fines which resulted in their reduction to HUF185,000,000 regarding UniCredit (approx. €572,200). The amount of the new fine is approximately 60 percent of the original fine. The Bank appealed against the decision to achieve a further reduction of the fine.</p> <p>On 3 August 2020 all appeals were rejected by the Court, meaning that the fine for the amount of HUF185 m is applicable. The participating banks (including UniCredit) appealed against the decision and the appeal is pending.</p> <p>In 2012, the GVH began a cartel investigation on the Hungarian Banking Association, the International Training Centre for Bankers and 38 Hungarian Banks (including UniCredit Bank Hungary Zrt), all of which participate in the BankAdat system, the interbank database for Hungarian credit institutions. At the end of the investigation, UniCredit Bank Hungary Zrt was not fined but the Hungarian Banking Association was fined HUF4 bn (approximately €13 m) and the International Training Centre for Bankers was fined HUF15 m (approximately €48,000). In the event that they cannot fulfil their payment obligations, participating banks that were the objects of the investigation (including UniCredit Bank Hungary Zrt) will be jointly and severally held responsible for payment. HBA and most of the affected banks appealed against the decision. On 10 September 2018 the court decided to repeal the decision and close the proceedings without issuing any fines. GVH appealed to the Supreme Court against the decision and action is ongoing. On 22 January 2020, the Supreme Court confirmed the first instance decision, which is now final and binding. The Competition Authority was ordered to reimburse the fine paid, as well as interest and legal costs, to the Banking Association which, in turn, has reimbursed the due amount to UniCredit Bank.</p>

Romania	<p>On 27 November 2017, the Competition Council carried out dawn raids of the headquarters of several banks (including UniCredit Bank S.A.), financial non-banking institutions, leasing companies (including UniCredit Leasing Corporation IFN S.A. and UniCredit Fleet Management), professional associations and employer associations working in the financial services market. The dawn raids were conducted within the framework of two investigations opened by the Competition Council on the operating lease service market and on the financial services and consumer credit market respectively. In December 2019, the investigations by the Council were almost complete: UniCredit Leasing Corporation IFN S.A. submitted its observations in relation to the Investigation Report to the Competition Council. The observations aimed at rebutting the alleged infringement by object and by effect. The investigation, however, was resumed during 2020 after the Competition Council plenum decided not to validate the first investigation report issued by its team in 2019. After receiving the new investigation report in October 2020, UniCredit Leasing Corporation IFN S.A. submitted its objections in this regard.</p> <p>On 3 December, the hearing in front of the plenum of all investigated parties took place. As a follow-up of the hearing, on 8 December, UniCredit Leasing Corporation IFN S.A. submitted additional conclusions in writing to the Competition Council on 27 October 2020.</p> <p>At the end of December 2020, the final minutes of the plenum's decision were made available for analysis to the investigated parties at the Competition Council's headquarters.</p> <p>The plenum decided to fine the investigated parties for an alleged breach by object regarding an exchange of information which took place for a limited period of time in the industry professional association. Under the Competition Council's plenum decision, UniCredit Leasing Corporation IFN S.A. was fined an amount of L9,054,491, representing 2.75 percent of the previous year's annual turnover (calculated as per the Competition Council's instructions). The 2.75 percent demonstrates that UniCredit Leasing Corporation IFN S.A. obtained all the relevant mitigating circumstances (and therefore fine reduction) available to it in its procedural position.</p>
----------------	---

^A The cases reported refer to administrative procedures. For further information related to pending legal actions please refer to the Consolidated Financial Report 2020, section B. Legal risks.

CONFLICTS OF INTEREST

UniCredit Group provides a wide range of products and services to a diversified client base and consequently faces a number of potential conflicts of interest considering the different kinds of relations and stakeholders.

The types of conflicts of interest identified are the following:

- conflicts in the provision of investment services and activities
- conflicts in the provision of insurance product distribution services
- conflicts related to the issuance of financial instruments
- conflicts arising from the administration and/or contribution to financial benchmarks
- conflicts arising from the provision of investment recommendations
- conflicts in the provision of banking services and activities
- conflicts arising from employees' personal interests
- organisational conflicts
- conflicts arising from assignment of services and/or activities to external providers.

UniCredit has implemented a Global Policy that sets standards and rules for properly detecting, managing and recording conflicts of interest.

The Group has adopted a single model for the identification and management of various types of Conflicts of Interest. The Model is based on the following steps:

1. identification of Events which could generate conflict to the Company, its employees, customers and to the structures relating to those Events
2. identification of the applicable Conflicts of Interest to the Company itself
3. identification of the Organisational Measures suitable to mitigate/neutralise the Conflict in point 2 above and the additional processes requested (e.g. escalation and disclosure)
4. recording of Conflicts
5. controls on the effectiveness and completeness of the COI-related processes.

Key achievements 2020	Priorities 2021
1. review and extension of the scope of application of the Global Operational Rule Outside Business Interest to all Group legal entities.	<ol style="list-style-type: none"> 1. review and update of the Global Policy Conflicts of Interest and related matrix 2. review of the Conflicts of interest framework and execution of the new risk assessment 3. review of the conflicts of interest second level controls Catalogue 4. update and review of the OBI tool and, once completed, implementation in the most relevant legal entities 5. review and update of conflicts of interest training course, to be launched in 2022.

PRIVACY MANAGEMENT

UniCredit ensures its compliance with data protection rules set forth both in the GDPR (EU Regulation 2016/679) and in Italian Legislative Decree n. 196/2003 updated by the Italian Legislative Decree n. 101/2018, and in particular in the Global Policy on Privacy (which replaced the previous version of the Global Compliance Guidelines on Privacy) last updated in March 2020. Within the scope of data protection activities, the Compliance Risk Assessment and the second level controls performed by UniCredit are aimed at identifying, monitoring and managing compliance risks in this regulatory area. A data protection risk assessment was performed Group-wide in 2020. A second level controls catalogue will be further improved in order to cover new processes (e.g. Third Party Risk Management). In addition ad hoc surveys at Group level are launched when specific events occur also in other institutions or industries (e.g. data breaches, fines imposed by the Data Protection Authorities) to evaluate if the Group is potentially exposed to similar risks.

Furthermore, the Data Protection Office works with the Security Governance function in order to incorporate certain flows/results of security controls related to data processing within the overall GDPR Risk Assessment.

At Group Level UniCredit has developed a Data Protection Officer (DPO) Community which ensures that the DPOs of the various legal entities of the UniCredit Group share their opinions on different issues, experiences, lessons learnt and local/European regulatory evolutions.

Moreover, within Group process guidelines issued by the Group DPO regarding the management of Data Processor appointments, standard Data Processing Agreement (DPA) formats have been defined (including both external and infra-Group Data Processing Agreements).

Key achievements 2020	Priorities 2021
<ol style="list-style-type: none"> 1. completion of GDPR Group project (residual activities related in particular to Right to be forgotten implementation on IT applications to be finalised in 2021 according to standard local processes - local and Group DPO to maintain oversight) 2. adoption of new version of Group GDPR 2 Level Controls catalogue; 3. issuing of new Group Rule related to Data Protection Risk assessment methodology 4. periodical meetings of DPO Community to share experiences, best practices and evolutions 5. annual certification campaign of Record of processing Activities by involving Bank process owners 6. fine-tuning of GDPR global policies already in place 7. support to Third Party Risk management programme for the definition of methodology and process for Third Party risk assessment and monitoring. 	<ol style="list-style-type: none"> 1. Strengthening of existing monitoring activities and instruments of oversight on Subsidiaries/Foreign Branches with info flows to local and Group DPO (so called DPO cockpit collecting) 2. Enhancement of GDPR second level controls catalogue with particular reference to new areas to be monitored (e.g. Third Party Risk Management and Transfer of personal data outside EEA) 3. Activation of second level controls on Right to be forgotten 4. Finalisation of risk assessment methodology for the evaluation of Data transfer outside EEA; issuing of relevant GOR; implementation in all legal entities starting with new contracts and integration in the overall Third Party Risk Management framework 5. Development of initiatives, in all countries, aimed at increasing contacts and enhancing exchange of information/experiences with local Data Protection Authorities and Consumers and/or Other Categories Associations 6. Extension of GDPR Lessons learnt training to all legal entities of the Group, including new topic of Transfer of personal data outside EEA 7. Monitoring of Right to be forgotten implementation on new and existing GDPR relevant IT applications detected during UCS IT certification campaign completed at the beginning of 2020 8. Annual certification campaign of Record of processing Activities by involving Bank process owners and fine-tuning of Group tool functionalities 9. Fine-tuning of GDPR global policies already in place.

Whistleblowing

The Group's approach to whistleblowing is set out in a specific Global Policy. In order to promote a corporate culture based on ethical behaviour and good corporate governance, the Policy governs reports of unacceptable conduct² by employees within the Group.

The Policy is intended to:

- > grant a corporate environment where employees may feel free to make reports on unacceptable conduct
- > define adequate communication channels for the receipt, analysis and use of the reports.

² This data is drawn from the following subset of Group legal entities: UniCredit SpA (Milan – included branches in Abu Dhabi, London, Madrid, Munich, New York, Paris, Shanghai), UniCredit Bank AG (included branches in Athens, Hong Kong, London, Luxembourg, Milan, New York, Paris, Singapore, Tokyo, Vienna, Zurich); UniCredit Bank Austria AG, UniCredit Bank Ireland, UniCredit International Luxembourg Sa, Schoellerbank AG, Schoellerbank Invest AG, UniCredit Bank ad Banja Luka, UniCredit Bank d.d. Mostar, UniCredit Bulbank AD, Zagrebačka Banka DD, UniCredit Bank Czech Republic and Slovakia as, UniCredit Bank Hungary Zrt, UniCredit Bank SA, AO UniCredit Bank, UniCredit Bank Serbia Jsc, UniCredit Banka Slovenija DD, UniCredit Leasing SpA, Cordusio Società Fiduciaria per Azioni, Cordusio SIM SpA, UniCredit Factoring SpA, UniCredit Leasing (Austria) GmbH, UniCredit Leasing EAD, UniCredit Leasing Croatia doo za Leasing, UniCredit Leasing CZ as, UniCredit Leasing Hungary Zrt., UniCredit Operativ Lizing Kft, UniCredit Biztosításközvetítő Kft, OOO UniCredit Leasing Russia, UniCredit Leasing Corporation IFN Romania, UniCredit Leasing Srbija doo, UniCredit Leasing, leasing, doo, SIA UniCredit Leasing, UniCredit Subito Casa SpA, Zb Invest D.O.O. Za Upravljanje Investicijskim Fondovima, UniCredit Consumer Financing IFN SA, Factorbank Aktiengesellschaft, Ooo UniCredit Garant, UniCredit Factoring Czech Republic And Slovakia, A.S., UniCredit Consumer Financing EAD, UniCredit Factoring EAD, Bank Austria Real Invest Immobilien-Management GmbH, DC Bank AG, UniCredit Services (Austria) GmbH, Card Complete Service Bank AG, Bank Austria Finanzservice GmbH, Wealthcap Kapitalverwaltungsgesellschaft GmbH, Food & More GmbH, UniCredit Leasing GmbH, UniCredit Jelzalogbank Zrt., UniCredit Services ScpA (included branches in Czech Republic, Germany, Great Britain, Hungary, Poland, Romania, Singapore, Slovakia, United States).

Since 2019, the whistleblowing channels have been open to Third Parties.

The management of this process is designed to ensure the greatest possible protection and confidentiality of the identity of the whistleblower and of the accused individual and to prevent any possible retaliatory or discriminatory behaviour in response to the report.

At local level, for example in Italy, UniCredit SpA has identified the Head of Group Compliance CEE, ABC, Governance, Education & Business Management, as the person responsible for internal whistleblowing systems and for ensuring that the procedure is followed correctly. If the people referred to above are hierarchically and functionally subordinate to the person to whom the whistleblowing report relates or if they themselves are accused of violation or if they have a potential interest in the report that would compromise their impartiality and independence of judgement, then they may contact Internal Audit directly as the reserve function.

The channels, some of which are available 24 hours a day also during the pandemic, provided by UniCredit SpA for employees to make whistleblowing reports, anonymously if desired, are:

- by phone. The UniCredit SpeakUp line allows the employee to leave a voice message report with an option to remain anonymous
- on the website, where the UniCredit SpeakUp web service allows the employee to submit a written report with an option to remain anonymous
- by e-mail to the UniCredit Italy Whistleblowing e-mail address
- by letter to the dedicated UniCredit Italy Whistleblowing postal address
- by physical meeting.

Vulnerability and penetration tests on the SpeakUp platform are carried out annually with the cooperation of Group ICT Security. At Group level, the Whistleblower's Champion of every legal entity annually edits a Report on the Internal Whistleblowing system, with aggregated information on the actions taken and its results and the observance of confidentiality and the non-retaliation principles. The Whistleblowing Annual Report is approved by the Corporate Bodies and the main information are made available to the staff of each legal entity.

At UniCredit SpA the Supervisory Body, in accordance with the Legislative Decree 231/01, requested a monthly report session to the Compliance structure in charge of receiving Whistleblowing, with the purpose of assessing any possible offence against regulations. Also, the same structure regularly provides the Board of Statutory Auditors with an update on whistleblowing cases, which were not considered relevant in accordance with the Legislative Decree 231/01.

In 2020, UniCredit set up an international working group dedicated to developing a specific training on Whistleblowing, which was launched at the end of the year in all the Group's main legal entities. It aims at encouraging communication of illegal behaviour, especially in a non-anonymous way, through different channels, including a dedicated Whistleblowing tool.

Finally, the section dedicated to Whistleblowing on the Group's intranet has been updated, thus to ensure that all Group employees have access to the latest and correct information on how to report unlawful conducts in the workplace to the relevant departments.

Human Capital¹

Portrait in numbers

The data in this part of Supplement applies to UniCredit employees in Head Count as at 31, December 2020-2019 and does not include external staff (e.g., interns or consultants). Numbers reflect all employees of fully consolidated entities and represent 100 percent of the population unless otherwise noted. 2020 data shows a general decrease of the company's overall population, mainly due to the reorganisation of the Group through our strategic plan.

Training hours include e-learning and classroom instruction.

Industrial Relations²

We at UniCredit believe that social dialogue contributes to value creation over time by strengthening our capability of collaboration, of listening to and understanding both national and international labour needs.

A consistent, group-wide approach has allowed us to build a high standard of social dialogue over the years, helping us to implement our business strategies. The Global Framework Agreement (GFA) on Human Rights and Fundamental Labour Rights signed in 2019 with UNI Global Finance has reinforced our social dialogue, in particular on human rights and collective bargaining.

In all the countries in which UniCredit operates, we remain committed to improving social dialogue and focussed on building a strong European identity. At national level, Group workers' interests are represented by trade unions, works councils or other representatives in line with applicable labour laws and local industrial relations systems. At international level, workers are represented by the European Works Council (EWC) which, since its foundation in 2007, ensures the right to information and consultation on transnational Group topics that could significantly affect workers' interests. The EWC currently has 30 members representing 15 countries (Austria, Bosnia and Herzegovina, Bulgaria, Croatia, the Czech Republic, Germany, Italy, Luxembourg, Poland, Romania, Russia, Serbia, Slovakia, Slovenia and the United Kingdom).

Over the past years, UniCredit and the EWC have achieved important results, defining a distinctive global approach to industrial relations. The four joint declarations signed over the last decade (on training, learning and professional development; on equal opportunities and non-discrimination; on responsible sales; on work-life balance) have established a global strategic overview, demonstrating their success in facilitating social dialogue at local level as well as across Europe.

In 2020 UniCredit and the EWC signed a new joint declaration, the first one on remote work. The document defines the principles and future minimum reference quality standards for remote work solutions, to be implemented according to the applicable laws and agreements in our countries. This will allow the Group to extend the opportunities offered by technological advancements and enable new ways of working to support a better work-life balance and greater efficiency.

The implementation of every joint declaration is subject to periodic monitoring, both by UniCredit and the EWC employee representatives.

The parties commit to ensuring a broader dissemination, implementation and monitoring of the content of these documents throughout all Group countries, with the common purpose of using social dialogue to reinforce Group culture, taking into account any special requirements and current local best practices in addition to standards that have already been met.

Welfare and work-life balance³

UniCredit has adopted a global approach for its welfare strategy, in line with the Human Capital mission to create the best place to work. Welfare initiatives are developed locally in order to offer the best answer to colleagues and a country's needs and special local requirements, with a central coordination to guarantee consistency and respect of the Group welfare principles and guidelines.

Several initiatives to meet fundamental health, personal, family and work-life balance needs have already been established in all Group countries. We support our people with specific solutions to manage our new ways of working, offering time and location flexibility. Programs supporting health and psycho-physical well-being have been introduced, as well as various services to assist both families with young children managing work and home-schooling, and all colleagues taking care of elderly family members or those with disabilities.

Social dialogue creates a balance between workers' needs and business needs by constantly verifying the consistency of initiatives and progress of projects over time. The innovative approach defined by the Joint Declaration on Work-Life Balance in 2017 was most recently adopted in October 2020 by the Joint Declaration on Remote Work. This document aims to develop a global approach to offer all our colleagues access to remote working in the future, with a progressive local implementation plan which targets the following Group standards: in headquarters and central offices, 40 percent of remote working time, to be distributed on a weekly or monthly basis (i.e. on average 2 days per week); in networks, 20 percent of remote working time, to be distributed on a weekly or monthly basis (i.e. on average 1 day a week).

Following the Covid-19 outbreak, in 2020 the UniCredit Family Board was established and it defined a global action plan to address the new personal and family needs resulting from our listening initiatives. Many initiatives have already been developed across the Group, mainly focusing on flexibility, respect of working hours, home-schooling support for working parents, IT infrastructure and sustainable mobility partnership extensions, support services for psycho-physical wellbeing.

^B The tables under this paragraph refer to the perimeter defined at page S.37 - Industrial Relations.

Health and safety management⁴

Health and safety at work is a core value, with the ultimate goal of guaranteeing well-being at work through a combination of actions and systems. To reach and maintain this goal, all the legal entities that make up the UniCredit Group have adopted policies, procedures and safeguards for health and safety at work, in compliance with EU directives, local laws, regulations and signed agreements, which ensure to all employees a suitable working environment and working conditions that respect individual dignity.

The Group has adopted an organisation and management framework that guarantees the protection of all personnel in all company workplaces through an adequate and effective company system of identification, assessment, prevention and protection from risks and dangers, and their resolution through monitoring and analysis as listed below:

- the respect of technical-structural legal standards relating to equipment, workplaces, chemical, physical and biological agents
- the risk assessment activities and the preparation of the consequent prevention and protection measures
- organisational activities such as emergencies, first aid, procurement management, periodic safety meetings, consultations with workers' safety representatives and formal joint management-worker committees in the Group's legal entities^A
- health surveillance activities through the occupational medicine service carried out by the company doctors and drafting of the related protocols
- information and training activities for all UniCredit Group employees via specific training and refresher modules on topics such as health and safety, emergencies, first aid, work-related stress
- supervisory activities regarding employee compliance with the procedures and instructions for working safely
- periodic checks on the application and effectiveness of the procedures adopted.

All employees have various channels at their disposal (e.g. e-mail, tool ticket remedy) with which to report any dangers/malfunctions at work. The report thus generated is managed and resolved by the relevant function.

With respect to the promotion of employee health, UniCredit Group's welfare offer includes many services. Health care, health prevention programmes and Covid-19 medical services are just a few worth mentioning.

The year 2020 was marked by the Covid-19 emergency to which we were able to respond promptly. Health and safety measures for our employees and customers included:

- the distribution of more than 40 million personal protective equipment items resulting in adequate stock levels at all our sites
- the installation of more than 30 thousand protective screens for branches.

In compliance with the local regulations issued and with the support of specialised consultants, the Group defined specific protocols containing all the necessary prevention and protection measures to contain the spread of the Covid-19 infection and to protect the health of employees. In this regard, risk assessment was also updated in order to manage the various emergency phases related to the risk levels found via a monitoring system using specific indices.

In addition to the immediate adoption of specific behaviour and individual protection devices, remote and flexible working was promptly encouraged and extended, where possible, by supplying hardware and software and by upgrading the IT infrastructure accordingly.

⁴ 2020 data represents 100 percent of the reporting perimeter.

^A More information on the presence of formal joint management-worker health and safety committees could be found in the table on page S.45.

FORMAL JOINT MANAGEMENT-WORKER HEALTH AND SAFETY COMMITTEES AND WORKERS HEALTH AND SAFETY REPRESENTATIVES^A, 2020

^A The information concerning the presence of workers' health and safety representatives (RLS) refers only to Italy. The information on formal joint management-worker health and safety committees refers to the other countries indicated in the above table.
The formal joint management-worker health and safety committee covers both employees and workers who are not employees but whose work and/or workplace is controlled by UniCredit Group in all legal entities except for UniCredit Services SCpA and UniCredit Services GmbH in Romania.

RATES OF INJURY, 2020^A

Numbers of injuries	2020
Number of fatalities as a result of work-related injuries ^B	0
The number of high-consequence work-related injuries (excluding fatalities) ^C	5
The number of recordable work-related injuries ^D	145
Rates	
Rate of fatalities as a result of work-related injuries ^E	0
Rate of high-consequence work-related injuries (excluding fatalities) ^F	0.03
Rate of recordable work-related injuries ^G	0.96
Hours worked^H	150.598.432

^A This data was drawn from a population that represented 100 percent of the reporting perimeter for 2020. Injuries are recorded as per applicable local law. The methodology used for the collection and reporting of 2020 injuries data complies with the updated GRI Standards 403-9 (2018). In this sense, the principle of comparability cannot be ensured as the previous Integrated Report 2019 data reported used the previous methodology. For more details on previously published data, please refer to the 2019 Integrated Report.

This data reported in the above table refers to the injuries of employees including in the reporting perimeter.

^B It is a death as a result of work-related injury.

^C It is a work-related injury that results in an injury from which the worker cannot, does not, or is not expected to recover fully to pre-injury health status within 6 months.

^D It is a work-related injury or ill health that results in any of the following: death, days away from work, restricted work or transfer to another job, medical treatment beyond first aid, or loss of consciousness; or significant injury or ill health diagnosed by a physician or other licensed healthcare professional, even if it does not result in death, days away from work, restricted work or job transfer, medical treatment beyond first aid, or loss of consciousness. Include injuries as a result of commuting incidents only where the transport has been organised by the UniCredit Group.

^E This rate was calculated as follows: (total no. of fatalities as a result of work-related injuries/total hours worked)*1,000,000.

^F This rate was calculated as follows: (total no. of high consequence work-related injuries (excluding fatalities)/total hours worked)*1,000,000.

^G This rate was calculated as follows: (total no. of recordable work-related injuries/total hours worked)*1,000,000.

^H The hours worked reported are the result of an estimation method based on the hours prescribed by the local agreements.

Customer Experience

After years of experience and knowledge acquired through gathering insights from customers and prospects, in 2017 UniCredit defined a new approach with the Benchmarking Study which provides us with a view of clients' and prospects' perception of Customer Experience, Brand Reputation and Business Indicators in local markets. It allows:

- > a fair comparison between UniCredit and its competitors thanks to a random selection of customers by the research provider (no customer lists provided by the bank); no mention of UniCredit as survey commissioner (double blind approach); mixed interviews of main and secondary customers
- > a unique and comparable cross-country and segment view of the perception of the bank.

The new main KPI is the Net Promoter Score (NPS), a metric used across industries to measure customer experience. It is based on the sole question - *How likely are you to recommend our Bank to ..., on a scale of 0 to 10?* In the numeric scale, 0 corresponds to *not at all likely* and 10 to *extremely likely*. The score is calculated as the difference in percentage between Promoters (customers who gave a 9 to 10 score) and Detractors (customers who gave a 0 to 6 score). Within the Benchmarking Study, the KPI is more specifically referred to as the Strategic Net Promoter Score to clarify the goal in assessing the overall positioning on high-level topics/areas.

The table below shows the results of the NPS for UniCredit and its competitors. In 2020, UniCredit is ahead of the competition in 8 countries out of 12 for Individual customers and in 5 countries out of 12 for Corporate customers.

STRATEGIC NET PROMOTER SCORE RESULTS – RETAIL (INDIVIDUAL CUSTOMERS COMPRISING ONLY MASS AND AFFLUENT) 2019-2020

Handling complaints

UniCredit's approach to complaint management is driven by the belief that continuous dialogue and rapid responses are fundamental to addressing and improving the quality of our service and customer satisfaction.

Customers can submit their complaints through a number of channels including e-mail, written letter or in person at one of our branches. Complaints are then managed locally or centrally depending on the subject and nature of the complaint.

It is also possible to forward a verbal complaint at the Branch. We aim to improve the efficiency of our responses to operational events (errors, delays, malfunctions and churn rate) as we believe that rapid resolutions increase customer satisfaction and strengthen confidence in the bank.

The adequate management of complaints is fundamental to achieving operational excellence and reducing risks. Complaints may highlight areas where service quality (also perceived) can be improved, with positive effects on risk mitigation and customer experience. In addition, effectively and efficiently managing complaints represents an opportunity to re-establish a satisfactory relationship with customers.

In line with our Global Compliance Guidelines - Complaint Management, a complaint is any form of dissatisfaction expressed by current, potential or former customers, which can be clearly identified regarding the manner in which the Group has managed a banking, finance or insurance transaction or service. Each UniCredit legal entity develops and regulates its own complaint management processes and defines the methods and timing applied to settling complaints according to the type of complaint, the means of communication chosen by the customer and to any external legislation provisions in force.

RETAIL DIVISION: NUMBER OF RECORDED COMPLAINTS^A

Country	2020		2019	
	Recorded (written and verbal)	Written	Recorded (written and verbal)	Written
Italy ^B	242,786	58,772	292,959	40,273
Germany	21,443	6,011	26,972	4,412
Austria	40,687	4,730	46,467	4,267
Bosnia and Herzegovina	2,324	1,635	2,102	984
Bulgaria	3,374	3,315	3,482	3,314
Croatia	34,028	10,279	33,607	9,529
Czech Republic and Slovakia ^C	23,260	8,570	19,174	15,743
Hungary	12,472	7,434	10,224	5,964
Romania ^D	6,472	6,472	5,361	3,990
Russia	26,293	19,214	26,427	19,205
Serbia ^E	1,916	1,916	1,411	1,411
Slovenia	1,764	1,186	1,840	1,151

^A In Italy and Austria the complaints refer to Individual customers and Small Businesses while in Germany only to Individual customers. In our CEE countries the complaints refer to the Retail division. Totals are not provided because definitions and recording methods have not been completely aligned across all countries.

^B Besides UniCredit SpA, 2020 data also includes 26 written complaints from Cordusio SIM SpA. UniCredit SpA data does not include the complaints related to the Intermarket Diamond Business SpA case for which a dedicated customer care campaign was established. Refer to <https://www.unicredit.it/it/chi-siamo.html> for more information.

^C During 2020, it was possible to accurately record the number of written and verbal complaints made at our branches thanks to an enhancement of the measurement methodology which consequently led to an increase in the overall number of complaints, particularly verbal ones.

^D During 2020, as a result of the Covid-19 pandemic and the relative restrictions imposed, among which the limited number of people allowed in branches, the number of verbal complaints was zeroed out.

^E From 2016 all complaints are considered as written in accordance with local law.

Financial inclusion

PERCENTAGE OF TOTAL BRANCHES IN SPARSELY SETTLED OR ECONOMICALLY DISADVANTAGED AREAS AS AT 31 DECEMBER 2020^A

Country ^B	Percentage
Italy	22.9%
Bosnia and Herzegovina	100%
Bulgaria	100%
Croatia	100%
Czech Republic	21.4%
Hungary	100%
Romania	100%
Russia	100%
Serbia	100%
Slovakia	87.0%
Slovenia	63.2%

^A The NUTS classification (Nomenclature of Territorial Units for Statistics: a hierarchical system for dividing up the economic territory of the EU) was used to identify disadvantaged areas in EU countries. In particular, regions with a GDP (Gross Domestic Product) per inhabitant of less than 75 percent of the community average were considered at level 2 of the NUTS classification (https://ec.europa.eu/eurostat/statistics-explained/index.php/GDP_at_regional_level).

Based on this classification, there are no sparsely settled or economically disadvantaged areas in Austria and Germany.

^B The entire territories of Bosnia and Herzegovina, Bulgaria, Croatia, Hungary, Romania, Russia and Serbia were considered to be disadvantaged areas in accordance with an IMF study published in October 2020 which considered these countries emerging markets and developing economies (<https://www.imf.org/en/Publications/WEQ/Issues/2020/09/30/world-economic-outlook-october-2020>).

Adherence to legal standards and voluntary codes relating to marketing and communications

UniCredit follows the Code of Marketing Communication Self-Regulation (www.iap.it) disseminated by the Istituto dell'Autodisciplina Pubblicitaria (IAP), which commits its subscribers to transparent and honest advertising practices.

UniCredit is also a member of the Utenti Pubblicità Associati (UPA) which supports the IAP. All UniCredit entities follow the regulations disseminated by these bodies, particularly when local codes do not provide guidance on topics covered by the UPA.

All advertising and communication activities at UniCredit are managed by our Group Identity & Communications department, which is responsible for assuring the effective application of the IAP's code, as well as the oversight of the UniCredit's Supervisory Body.

In advertising related to investment products, all texts are submitted to the Commissione Nazionale per le Società e la Borsa (CONSOB) in Italy so they can be evaluated for regulatory compliance and consistency with the principles of truth and transparency.

MAIN LEGAL STANDARDS AND VOLUNTARY CODES RELATING TO MARKETING AND COMMUNICATIONS ADOPTED BY THE GROUP LEGAL ENTITIES

Country	Description
Austria	Advertising Industry Ethics Code of the Austrian Society for Self - Regulation in Advertising (Werberat)
Bulgaria	Code of Ethics of the Association of Banks in Bulgaria
Croatia	Code of Advertising issued by the Croatian Association of Advertising Agencies
Hungary	Banking Association's Code of Conduct

Sustainable and Responsible Investments (SRI)

Sustainable and Responsible Investing (SRI) and Environmental, Social and Governance (ESG) topics are a major part of our Group wealth management investment strategy. For us SRI means creating value for financial investors through a long-term strategy which integrates financial variables with ESG ones in its assessment of enterprises, institutions and countries.

There is a rigorous fund selection process which in recent years has also included ESG investments. The process aims to cover all classes of funds and also takes into account the internal market view and asset allocation decisions.

Five different categories of ESG investments have been identified, based on customer needs: Exclusion and Norm Based Agreements, ESG integration/Best in class, Thematic Investments, Engagement and Impact Investing. Customers who wish to exclude certain business sectors will be presented with specific funds, while others will be selected for those interested in engagement. This approach reflects our service model: listening to customers and proposing the best investment strategies, matching their objectives with sustainable funds. The funds selected are constantly monitored in relation to risk and performance. In the case of ESG funds, continuous checks must be made to ensure consistency with the approach indicated by the manager during the due diligence phase. If the characteristics for which the funds were selected cease to exist, they are immediately excluded from our buy list.

ESG investments also represent a diversification opportunity for all customers: the identified funds tend to be constructed differently compared to traditional funds and can improve some aspects of the portfolio risk-return profile.

ASSET UNDER MANAGEMENT (AUM) INVESTED IN ESG FUNDS AS AT 31 DECEMBER 2020^A (€M)

Italy	Germany	Austria	CEE
1,925.9	684.9	941.5	239.1

^A The figures reported refer to the funds on deposit. CEE include Bulgaria, Croatia, Czech Republic, Hungary, Romania, Russia and Slovakia.

UniCredit SpA, as provider of investment advisory and portfolio management services, is subject to Regulation 2019/2088 from 10 March 2021. In order to meet the requirements of the regulation, UniCredit SpA has defined its approach to the topics covered by this regulation which will be disclosed, in accordance with the regulation, on its public website and in the pre-contractual documentation relating to the aforementioned investment services.
