To our valued stakeholders

We recognise that a key component for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP). As well as a CEO statement of continued support for the UN Global Compact, our COP includes a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes.

Pacific Hydro is mindful of the obligations placed on us as signatories to the UN Global Compact, and respectfully request an extension to ensure we have sufficient time to develop, approve and design a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact.

Our new COP report will be posted on the UN Global Compact website by no later than 31 July.

Sincerely yours,
