UN Global Compact

Communication on Progress: TGS-NOPEC Geophysical Company ASA

Statement of Continued Support

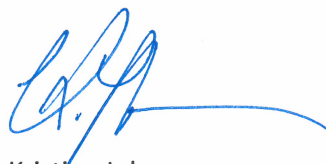

To our stakeholders,

I am pleased to reaffirm TGS-NOPEC Geophysical Company ASA's support and dedication to the United Nations Global Compact, its ten principles on sustainability, and the Sustainable Development Goals (SDGs). As echoed in our 2020 Sustainability Report and my 2020 Letter to Shareholders, TGS believes ESG must be a top business priority and an integrated part of all our business decisions. We continue to incorporate the Global Compact's principles on human rights, labor, environment and anti-corruption into our strategy, culture, and operations, and ensure our strategy embraces the SDGs particularly relevant to our business, including SDGs 5 (Gender Equality), 7 (Affordable and Clean Energy), 8 (Decent Work and Economic Growth), 9 (Industry, Innovation and Infrastructure), 12 (Responsible Consumption and Production), 13 (Climate Action), 14 (Life Below Water), 15 (Life on Land), and 17 (Partnership for the Goals).

Our 2020 Sustainability Report, which is aligned with our annual financial reporting structure and summarizes TGS' key activities in 2020, serves as our annual Communication on Progress. This report also highlights our dedication to the SDGs and actions we have taken in furtherance of those goals. We also direct you to our website for additional information on TGS' commitment to corporate social responsibility: <https://www.tgs.com/about-us/sustainability>.

TGS remains committed to sharing this information with stakeholders through our primary communication channels and as part of our annual reporting.

Sincerely,

A handwritten signature in blue ink, appearing to read "K. Johansen", with a long horizontal line extending to the right.

Kristian Johansen
