Communication on progress

Dear Sirs,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the COVID19 impact that lead to the suspension of each and every of our government related projects and also due to the fact that our miscellaneous initiatives with private sector have suffered major delays that prevents us communicating the expected impacts. We hope nevertheless being able to provide substantial evidences of our efforts and revised outcomes.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 31<sup>st</sup> August 2021 at the latest.

Sincerely yours,

Didier Perez  
General Director
