Bezons, 2nd June 2021

Dear Mr. Secretary-General,

Atos is a global leader in secure and decarbonized digital with over 105,000 employees in 71 countries and annual revenue of over € 11 billion. With a range of market-leading digital solutions along with consultancy services, digital security and decarbonization offerings; an end-to-end partnership approach.

At Atos, the Corporate Social Responsibility (CSR) program is aligned to company's *raison d'être* or sense of purpose: "The purpose of Atos is to help design the future of the information space. Its expertise and services support the development of knowledge, education and research in a multicultural approach and contribute to the development of scientific and technological excellence. Across the world, the Group enables its customers and employees, and members of societies at large to live, work and develop sustainably, in a safe and secure information space."

Atos started its corporate social responsibility journey over ten years ago and is a recognized leader in its industry across environment, social and governance criteria. Our ambition is to act as trusted partner for all stakeholders, now and for the long term. We believe we have a responsibility towards society and have been working to make a positive difference.

Atos aims to be a responsible employer globally, acting fairly in its labor and employment activities, and to conduct business in an ethical and sustainable way, as clearly stated in our Atos Human Rights Policy and in our Business Partner's Commitment to integrity.

In unprecedented times, I am pleased to confirm that Atos is again renewing its commitment to the ten principles of the United Nations Global Compact with respect to human rights, labor standards, protection of environment and anti-corruption, and continue to take concrete actions in all the entities part of Atos Group. These actions and their results are reported in two documents audited by a third party and aligned with the GRI Standards Comprehensive Option and with the "Software & IT Services" industry standard of the Sustainability Accounting Standards Board (SASB). Those documents constitute our Integrated Report and Communication on Progress:

- The Universal Registration Document, which includes exhaustive information and is shared with the market by an official deposit to the French "Autorité des Marchés Financiers". This document contains the whole set of Corporate Social
