To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the post pandemic influence to the company. We have been facing a lot of different challenges last year from all aspects, as every other business, we are trying our best to serve our customers as well as provide a secured and good environment for our employees. A lot of new company policies as well as regulations were under further enhancement to make sure the company is well prepared for the new environment after the pandemic.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by September 19th, 2021 at the latest.

Sincerely yours,
