

MOODY's

United Nations Global Compact

Communication on Progress

January 1 – December 31, 2020

Dear stakeholders,

Moody's is working to embed responsible and sustainable decision-making into everything we do. We joined the United Nations Global Compact (UNGC) in 2019 and have remained a proud and active participant. We engage with the UNGC, its initiatives and fellow signatories to promote the Ten Principles and advance the Sustainable Development Goals (SDGs).

We became a signatory to the UNGC Business Ambition for 1.5°C in 2019 and published our [Decarbonization Plan](#) in 2020, outlining our strategy to achieve our climate goals. Moody's is a founding member of the CFO

Taskforce for the SDGs, which aims to advance the SDGs through corporate strategy and investments. In addition, we participated in the Reporting on the SDGs Action Platform.

In 2021, Moody's joined the UNGC's Action Platform on Climate Ambition to tackle both climate mitigation and resilience and to deliver on the Paris Agreement and the SDGs.

I am pleased to reaffirm Moody's support of the Ten Principles of the UNGC in the areas of human rights, labor, the environment and anti-corruption.

In this annual Communication on Progress as well as our [2020 Stakeholder Sustainability Report](#),

[2020 TCFD Report](#) and related reports, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, and to work toward creating a better business, better lives and better solutions.

Sincerely,

Robert Fauber
President and CEO
Moody's Corporation
