1.0 Statement of continued support by the Ecorys UK Managing Director

Ecorys UK Limited is pleased to submit its Communication on Progress (COP) for the period June 2020 – June 2021 and hereby reaffirms its support and commitment to the Ten Principles of the United Nations Global Compact on Human Rights, Labour, Environment and Anti-Corruption.

The COVID-19 pandemic has triggered a public health emergency and economic crisis worldwide. Ecorys' work is proving more relevant than ever, and our company has all the capabilities to operate and deliver during this pandemic and beyond, as we make our contribution to the global recovery effort.

We continue to commit to making the UN Global Compact and its principles part of the strategy, culture, and day-to-day operations of our company, and to engage in collaborative projects that advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

In accordance with our Letter of Commitment, our Communication on Progress describes our company's efforts to implement the Ten Principles and provides examples of our work in support of our vision to be a leading international research and consultancy company, addressing society's key challenges.

We also renew our commitment to report annually on our progress and thereby support public accountability and transparency of our organisation. We shall continue to submit:

- ▶ A renewed statement signed by the Managing Director expressing continued support for the UN Global Compact and our ongoing commitment to the initiative and its principles.
- ▶ A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- ▶ A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Mr. Darren Jackson

Managing Director

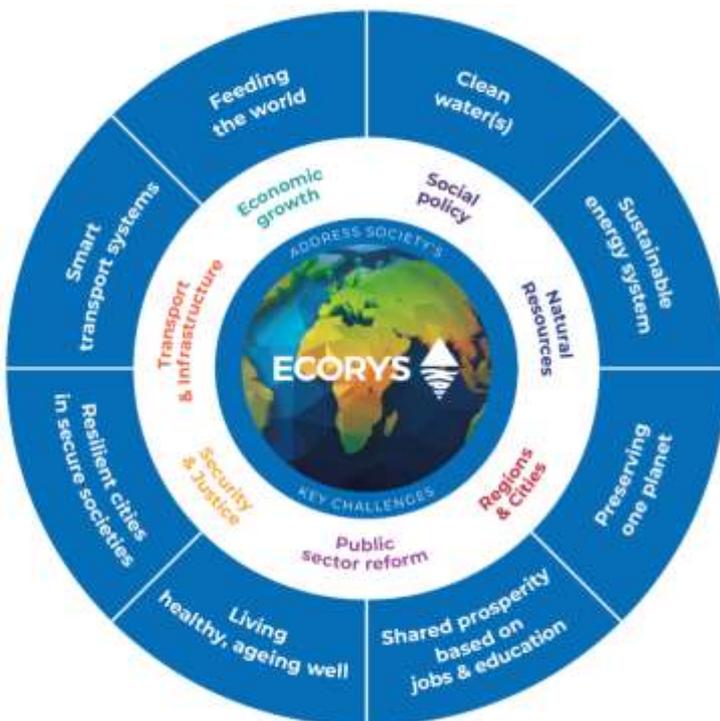

2.0 Introduction

2.1 About Ecorys UK Limited

Addressing society’s key challenges is our core business, and we are driven by the ambition to impact the grand societal challenges of our time. We want to make a profound and lasting difference, by offering broad knowledge and relevant services to decision makers in the (semi-) public sector.

Ecorys is an international policy research and consultancy company with around 550 dedicated Ecorys consultants and over 150 associated freelance experts working on projects in more than 100 countries. Our consultants are specialists in research-based consultancy on social, spatial, and economic issues. We offer integrated services to our clients – policy and research, program management and service delivery. Together, they allow us to truly impact the issues which our clients face, whether strategic or operational.

Ecorys operates at the crossroads of fact-based policy research and strategic consultancy. The aspect that sets us apart from the academic world is our professional approach and practical expertise towards actual social, spatial, and economic issues. In addition, we distinguish ourselves from generic strategic consultancy agencies due to our verifiable business ethics and our leading position on applied policy research. This is epitomised by our founder, Nobel Prize winner Jan Tinbergen, who has contributed for more than three decades to our extensive knowledge base.

Who we are

Leading international research & consultancy company, addressing society’s key challenges

What we do

We help clients make decisions, build capacity to implement and communicate change, and deliver bespoke services

What we offer

Research and analysis, strategy and policy, evaluations and monitoring, capacity building and implementation, services delivery

What we know

Economic growth, social policy, natural resources, regions & cities, transport & infrastructure, public sector reform, security & justice

2.2 Ecorys and the SDGs

We understand that the strategy of the UN Global Compact is to drive business awareness and action in support of achieving the Sustainable Development Goals by 2030. The services that Ecorys delivers contribute to this ambition. Some examples of this contribution are highlighted below:

SDG 1: End poverty in all its forms everywhere

In Bangladesh we continue to implement the Technical Assistance to Support Social Security Reforms programme that will strengthen the Government of Bangladesh's capacity to manage the social security system.

SDG 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

In 2020, the European Commission published the final report of a study conducted by Ecorys on the use of electronic vouchers in supporting Europe's most vulnerable. The findings were particularly relevant in the context of the COVID-19 crisis, which has increased the number of vulnerable individuals across the EU, but at the same time limited much needed in-kind food distribution. In response, the EU amended legislation to allow current EU funding to finance voucher schemes.

SDG 3: Ensure healthy lives and promote well-being for all at all ages

Ecorys published a report as part of the Growing up Under COVID-19 (GUC19) research project. Funded by the Nuffield Foundation. This project was a collaboration between adult researchers and 70 young people aged 14-18 living in the UK (England, Northern Ireland, Scotland, and Wales), Italy, Lebanon, and Singapore. It was set up to create a platform for young people from diverse backgrounds to share their lived experiences of life during the COVID-19 pandemic, their views about how the crisis is being handled, and their recommendations for adult decision makers.

SDG 4: Quality Education

Ecorys UK forms the UK National Agency for the Erasmus+ programme, the EU's flagship programme to support education, training, youth, and sport in Europe. Together with our partner the British Council, we will have disbursed €1billion of educational mobility and research grants to universities, colleges, schools, and youth organisations by the end of the programme. Ecorys is also working alongside the British Council as the delivery partner for The Turing Scheme, the UK government's new £110 million international education programme. We are also managing the process and performance evaluation of the £280m FCDO funded Khyber Pakhtunkhwa Education Sector Programme (KESP), which supports the Government of Pakistan in developing education capacity in the Khyber Pakhtunkhwa province.

SDG 5: Achieve gender equality and empower all women and girls

We published our Gender pay report which can be found here: <https://www.ecorys.com/united-kingdom/gender-pay>. To respond to the report findings, we appointed a Gender Balance Project team who have since created a two-year action plan which they will deliver, monitor, and report progress to the Ecorys UK Board, and provide regular updates to our staff.

SD 6: Ensure availability and sustainable management of water and sanitation for all

We are providing Technical Assistance to the Rural Water, Sanitation and Hygiene (RWASH) Division and the wider Environmental Health Division within the Ministry of Health and Medical Services in the Solomon Islands. In Tanzania, we are working on the PbR WASH project where our recommendations to the FCDO and Government of Tanzania as led to a more transparent payment process to the Ministry of Water.

SDG 8: Promote sustained, inclusive, and sustainable economic growth, full and productive employment, and decent work for all

In Laos, we are managing the Business Assistance Facility (BAF) for the World Bank, to support private sector companies and SMEs to build their skills and expertise so that they can become locally, regionally, and internationally competitive. Our project has been praised by stakeholders for stepping up efforts to help businesses adapt and respond to the challenges onset by the COVID-19 pandemic.

SDG 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

In Trinidad and Tobago our consortium has completed the project "Capacity building in public procurement, retention & disposal of public property and technical editing". Working for the EU Delegation and led by our partner Sofreco, our project built sustainable capacity in the areas of public procurement, retention, and disposal at the Office of Procurement Regulation (OPR) of the Republic of Trinidad and Tobago and stakeholders such as public bodies.

SDG 15: Protect, restore, and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

In Namibia, we continue to provide technical assistance to the Enhancing Participatory Democracy in Namibia (EPDN) project for the EU, where we are building capacity for CSOs working in education and rural development to engage with the Namibia National Assembly in the national development process.

SDG 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable, and inclusive institutions at all levels

In the Western Balkans, Ecorys is continuing to provide Monitoring, Evaluation, and Learning services to the UK's Conflict, Stability, and Security Fund (CSSF) for the Foreign and Commonwealth Office (FCO). We have assisted FCDO programme teams, embassies, and implementers in the region to better articulate their Theories of Change, Results Frameworks, and reporting. We are also conducting several thematic reviews on Gender- Based Violence (GBV), Elections, and Open Societies among other topics. In August 2019 Ecorys was also commissioned by the FCDO to undertake a performance evaluation of the African Union Support Programme (AUSP). We assessed the capacity of the AUC across the programme's three priority areas: trade, electoral observation and assistance and migration.

2.3 About the United Nations Global Compact

The United Nations Global Compact is the world's largest corporate sustainability initiative.

It represents a commitment from companies to align strategies and operations with universal principles on human rights, labour, environment, and anti-corruption, and take actions that advance societal goals. Over 9,500 companies are involved and are based in more than 160 countries, both developed and developing, representing nearly every sector and size.

The ten universally agreed principles are:

Human Rights

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights; and

Principle 2: make sure that they are not complicit in human rights abuses.

Labour

Principle 3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining;

Principle 4: the elimination of all forms of forced and compulsory labour;

Principle 5: the effective abolition of child labour; and

Principle 6: the elimination of discrimination in respect of employment and occupation.

Environment

Principle 7: Businesses should support a precautionary approach to environmental challenges;

Principle 8: undertake initiatives to promote greater environmental responsibility; and

Principle 9: encourage the development and diffusion of environmentally friendly technologies.

Anti-Corruption

Principle 10: Businesses should work against corruption in all its forms, including extortion and bribery.

3.0 Human Rights

3.1 Principles

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights; and

Principle 2: make sure that they are not complicit in human rights abuses.

3.2 Practical actions

Ecorys UK is committed to upholding human rights both within our company and in the work that we do to make a positive impact on society. We therefore attach great importance to our reputation for conducting business with integrity and fundamentally, with respect to the interests of those our activities may affect. This reputation is an asset, as real as our people and brands. We aim to run a profitable business and that means investing for growth and balancing short term and long-term interests. It also means caring about our customers, employees, shareholders and suppliers, and the communities in which we conduct our operations. To meet our business objectives, we consider it essential that all employees understand and comply with our values and therefore share the Ecorys UK way of doing things. This includes:

- ▶ Conducting business with honesty and integrity and with respect for the interests of our stakeholders
- ▶ Complying with the laws and regulations of the countries in which we operate whilst also ensuring that we respect and uphold fundamental human rights conventions and protections
- ▶ Ensuring that our compliance teams operate to the highest standards of honesty and transparent behaviour and that these values are engaged with and adhered to across all our operations
- ▶ Ensuring that our employees are recruited employed and promoted on the sole basis of their qualifications and abilities needed for the work to be performed
- ▶ Commitment to provide safe and healthy working conditions for our employees worldwide
- ▶ Maintaining good communications with our employees through our company communication channels, tolls, and consultations procedures

In reflection of the values and commitments outlined above, we have put several measures into our company practice:

- ▶ Ecorys UK believes in operating a fair, objective and legally compliant recruitment process at all times. All employees engaged in the recruitment process must comply with our **Equality and Diversity policy**. To support disabled candidates, Ecorys UK will always consider making reasonable adjustments to the job description, person specification, selection criteria, and hours of work
- ▶ When recruiting employees, we follow a diligent reference process – we check with previous employers to ensure that CVs are accurate
- ▶ Ecorys UK ethical policies are outlined in our **Code of Business Ethics and Conduct**. Compulsory training is provided to all staff on this Code upon joining, with refresher training every three years
- ▶ Our inductions to new starters include briefing staff on our policies related to Safeguarding Vulnerable People and Modern Slavery, Health and Safety, and Equality and Diversity. Our Safeguarding Policy makes clear that

safeguarding means protecting people's health, wellbeing, and human rights, and enabling them to live free from harm, abuse, and neglect. We reinforce this knowledge through e-learning modules which are periodically updated.

- ▶ We have an active Works Council that is formed of representatives from all our divisions who meet on a two-monthly basis. The Works Council provides confidential advice to employees and addresses grievances, which are (confidentially) reported to the Managing Director and HR Director
- ▶ We have strict safeguards to data collection, processing, and protection of both staff and external candidates' personal information. These safeguards are set in our **GDPR Privacy Notice for Employees** and **GDPR Privacy Notice for Candidates** and are regularly monitored by our Compliance Manager.
- ▶ In 2013 the board of Ecorys UK committed to donating 1% of its annual profits (before tax) to a charity chosen by our employees. Our CSR work is important to us, and we are proud to have continued to make this donation every year since. By our next (2020) contribution, we will have donated over £100,000 for our corporate donations and winder fundraising.

These principles and values are also cascaded to our delivery chain partners through our **Code of Conduct** and associated policies (mentioned above) which form part of our conditions of contract. We undertake due diligence on our delivery chain partners to assess their commitment to high standards in: tax and financial management; prior performance, control and assurance; compliance with the FCDO Supplier Code of Conduct; prevention of Modern Slavery; Protection of Vulnerable Persons; Sexual Exploitation and Harassment; Occupational Health and Safety; Membership of the UN Global Compact; Transparency; Conflict of Interest; Data Security; Recruitment and Procurement; and Environmental Safeguards.

3.3 Measurement of outcomes

Outcomes	Progress update
<p>1. Ensuring that all our policies relating to human rights, safeguarding, due diligence, data protection, equality and diversity, code of conduct, and business ethics are included in the induction of our new employees</p>	<ul style="list-style-type: none"> ▶ Our induction trainings continue to include policies such as safeguarding, modern slavery, health and safety, and equality and diversity. We have also included modules on the GDPR ▶ Our teams are regularly sent quizzes to refresh their knowledge on Health and Safety, ISO9001, Data, and others ▶ Our policies have been updated to take account of revised ways of working in light of COVID-19
<p>2. Ensuring that all our policies are written in a clear, concise, and accessible format</p>	<ul style="list-style-type: none"> ▶ Our works Council and Human Resources team periodically review our policies to ensure that they are updated in accordance with UK Law
<p>3. Regular meetings of the Works Council and reports to senior management on views, measures, and progress on actions</p>	<ul style="list-style-type: none"> ▶ Our Works Council continues to meet every two months with the Managing Director and Human Resources Director. The outcomes of the meeting are communicated to our employees. ▶ We maintain a separate Works Council inbox (only accessible by Works Council members) so that our employees may raise concerns in a confidential manner ▶ Though not specifically addressing the UNGC per se, our Works Council address a multitude of topics and implement actions that are wholly in the spirit of the UNGC principles ▶ Our Works Council has played a significant role in reviewing our Gender Pay report which can be found here: Ecorys UK Gender Pay Report
<p>4. Maintaining a strong due diligence process through scrutiny of responses to our Business Partner Questionnaire</p>	<ul style="list-style-type: none"> ▶ We continue to work with donors such as FCDO that require us to maintain a robust due diligence process. We have included details of this in our FCDO annual reporting on compliance with the FCDO Code of Conduct

4.0 Labour

4.1 Principles

Principle 3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining;

Principle 4: the elimination of all forms of forced and compulsory labour;

Principle 5: the effective abolition of child labour; and

Principle 6: the elimination of discrimination in respect of employment and occupation.

4.2 Practical actions

Ecorys UK ensures that the views of our staff are represented in many ways including an annual (anonymous) Employee Engagement Survey. In response to the findings of our Gender Pay Report, we appointed a Gender Balance Project team who have since created a two-year action plan which they will deliver, monitor, and report progress to the Ecorys UK Board, and provide regular updates to our staff. As part of this project, we conducted two virtual workshops with focus on the gender pay gap, career development, and leadership from a gender perspective.

We regularly engage with our Works Council, which is a group of up to seven employee representatives. Its role is to provide an interface between management and staff through representing staff in discussions with management regarding proposed changes to company policy and operational issues and raising issues with management on behalf of staff.

The Works Council carries out the following tasks:

- ▶ Offering staff the opportunity to raise issues in confidence which the Works Council will then raise with management on their behalf
- ▶ Meeting with Ecorys UK Management every two months and having additional discussions with management as necessary
- ▶ Providing feedback to staff via team meetings and individual contact as appropriate

The Works Council enables us to ensure that our employees have a voice and that they have a stake in determining company policy and improving our practice. We have been working closely with our Works Council colleagues to respond to the COVID-19 crisis and have made the protection of our employees our first commitment. We continue to gauge the thoughts and feelings of our staff during this time of difficulty and have consequently enhanced our Employee Assistance Programme through providing access to free information and counselling. We have also introduced a Working from Allowance to help our staff with meeting the costs of home working.

4.2.1 Our commitment to preventing Modern Slavery

Ecorys UK maintains a wide set of policies that underpin a safe and trusted environment for our staff, partners, and beneficiaries. This commitment includes our support of the Modern Slavery Act 2015 in all parts of our business services. We have a zero-tolerance approach to any form of modern slavery and human trafficking. We are committed to ensuring that modern slavery and human trafficking do not take place within our business or supply chain.

In accordance with this, we have issued the following Policy Statement to our employees and stakeholders:

Ecorys UK Policy Statement on Modern Slavery

Modern slavery is a crime and a violation of fundamental human rights. It takes various forms, such as slavery, servitude, forced and compulsory labour and human trafficking, all of which have in common the deprivation of a person's liberty by another in order to exploit them for personal or commercial gain.

We are committed to ensuring there is transparency in our own business and in our approach to tackling modern slavery throughout our supply chains, consistent with our disclosure obligations under the Modern Slavery Act 2015. We expect the same high standards from all our contractors, suppliers, and other business partners.

Ecorys UK will:

- ▷ Support our staff to be aware of the risks of human trafficking and modern slavery and to act appropriately when any such risk is detected
- ▷ Conduct due diligence on business partners within our supplier chain
- ▷ Adopt a proactive approach to reporting suspicions of hidden worker exploitation to the appropriate authorities
- ▷ Encourage workers to report cases of third-party labour exploitation, provide the means to do so and investigate and act on reports appropriately

- ▶ Positively encourage and support employees and contractors to report such exploitation, which may be occurring within their communities. Points of reference include Line Managers, the Group Compliance Manager and avenues outlined in the Ecorys Whistleblowing Policy

Ecorys UK accepts that job-finding fees are a business cost and will not allow these to be paid by job applicants.

As appropriate, designated managers will attend training on the prevention of labour exploitation who will have responsibility for developing and operating company procedures.

4.2.2 Our commitment to Equality and Diversity

Ecorys recognises that diverse teams produce better results for our organisation and ultimately better development outcomes for the initiatives we support. We are committed to fostering an inclusive culture comprising a culturally and linguistically diverse community of employees and contractors which contribute to our work. This is demonstrated throughout each of our country and project offices, and this commitment is outlined in our **Equality and Diversity Policy**.

As a UK registered company, we ensure that our organisational diversity and inclusion addresses the Protected Characteristics set forth in the UK's Equality Act (2010); including Age, Disability, Sex, Gender Reassignment, Pregnancy and Maternity, Race, Sexual Orientation, Religion or Belief, and Marriage and civil partnership. In addition to ensuring that these characteristics are protected and do not result in unlawful, negative, and/or harmful discrimination, we are committed to ensuring that people from all sections of society are included in our operations. We also strive to endeavour that our teams and workplaces are free from bullying and harassment and promote dignity and respect for all. We utilise the Ecorys Equality and Diversity policy in putting these commitments into practice and ensure that any allegation of discrimination is fully investigated and dealt with, whether it occurs in the UK or a project location.

As a growing company, we recognise that not only must we apply these principles in countries in which we work, but we must also adapt to the changing requirements of our clients. This means that our policies must regularly change, and that we have a responsibility to ensure our staff and associates are fully aware of their and our obligations. We have also put in a **Grievance Policy** to put these protections into place ensuring that:

- ▶ our company avoids unlawful discrimination in all aspects of employment including recruitment, promotion, opportunities for training, pay and benefits, discipline, and selection for redundancy
- ▶ all employees, visitors, contractors, or agency workers are free from bullying and harassment on any grounds and will know that complaints of this type will be dealt with promptly in line with the Grievance Policy. We have also clear levels of complaint escalation.

4.2.3 Our commitment to safeguarding children and vulnerable adults

Ecorys UK is fully committed to ensuring that children and vulnerable adults affected by our work are protected. Our policy on safeguarding is about protecting certain people who may be in vulnerable circumstances. A child is defined as someone who has not yet reached his or her 18th birthday. We understand safeguarding and welfare of children as:

- ▶ protecting children from maltreatment
- ▶ preventing impairment of children's health or development

- ▶ ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- ▶ taking action to enable all children to have the best outcomes

A vulnerable adult or 'Adult at risk' is defined as someone with care and support needs who is at risk from abuse or neglect. We intend to ensure a common understanding of safeguarding issues and to ensure that we embed good practice across the diverse and complex areas in which we operate and enhance accountability in this crucial aspect of our work.

We require all organisations and individuals working with, or on behalf of Ecorys UK, whether in the UK or overseas, as partners, or sub-contractors to be familiar with and comply with this policy. Whilst it is recognised that local legislation may vary from country to country, our policy identifies our minimum standards, is based on UK legislation, and may exceed the requirements of local legislation.

Ecorys UK is committed to protecting people who may be unable to protect themselves against significant harm or exploitation. We take all appropriate steps to ensure that all our employees are provided with support to deal with potentially challenging concerns and issues concerning safeguarding, including the following actions:

- ▶ we will undertake appropriate criminal record checks to prevent unsuitable employees working with children and vulnerable adults.
- ▶ all Ecorys UK employees who encounter children and vulnerable adults will have training in handling a disclosure, reporting an allegation, confidentiality, code of practice and code of behaviour. These will include online training tools and induction processes. Existing employees will be made aware of the policy, procedures, and guidance
- ▶ we will ensure that all employees who have contact with Children and vulnerable adults familiarise themselves with the Code of Practice and guidance notes provided under our Safeguarding Policy
- ▶ We will ensure that no research involving, or otherwise engaging, children and vulnerable adults may be carried out without the approval of the Project Director.

4.3 Measurement of outcomes

Outcomes	Progress update
<p>1. Monitoring the Ecorys UK Equality and Diversity Policy periodically by the Company to judge its effectiveness and ensuring that it is updated in accordance with the law</p>	<ul style="list-style-type: none"> ▶ A revised equality statement has been created by the Gender Task Force and has been incorporated into the Equality and Diversity Policy. The new statement gives a much stronger approach to build an inclusive working environment. ▶ Ecorys has been fully accredited as a Real Living Wage Employer
<p>2. Monitoring the ethnic, gender and age composition of the existing workforce and the number of people with</p>	<ul style="list-style-type: none"> ▶ We published our Gender Pay report which can be found here: Ecorys UK Gender Pay Report

disabilities within these groups and reviewing its policy in accordance with the results shown by the monitoring

- ▶ To respond to the report findings, we appointed a Gender Balance Project team who have since created a two-year action plan which they will deliver, monitor, and report progress to the Ecorys UK Board, and provide regular updates to our staff
- ▶ As part of our Gender Balance Project, we conducted two virtual workshops with focus on the gender pay gap, career development, and leadership from a gender perspective
- ▶ We enhanced our maternity pay eligibility through reducing the qualifying period from 2 years and 15 weeks' service to 1 year and 15 weeks' service
- ▶ Our UK Board supported the introduction of gender pronouns in business communications. All employees are free to use these if they wish to do so

3. Undertaking regular training of our staff on safeguarding, prevention of modern slavery and health and safety through e-learning modules.

- ▶ All new starters and employees are required to complete e-modules on these topics, which are monitored by our Compliance Manager. The completion rates are reported to the Ecorys UK Board of Management
- ▶ We introduced Competency Behavioural Interviewing (CBI) across all our recruitment. This has been included in our recruitment policy
- ▶ We analyse our Reward Panel statistics every March and September to analyse potential obstacles that could affect future promotions

5.0 Environment

5.1 Principles

Principle 7: Businesses should support a precautionary approach to environmental challenges;

Principle 8: undertake initiatives to promote greater environmental responsibility; and

Principle 9: encourage the development and diffusion of environmentally friendly technologies.

5.2 Practical actions

At Ecorys UK we are committed to seeking opportunities to reduce our environmental impact by organising our operations in a sustainable manner and have developed and rolled out an **Environmental Policy**. In accordance with this policy, we publish an annual Environmental Performance Report.

We conform to our compliance obligations by meeting or exceeding the environmental requirements of legislation, regulation, and our adopted standards. This includes:

- ▶ Complying with all relevant environmental legislation
- ▶ Implementing a training programme for our employees to raise their awareness of our policy, procedures and environmental issues and enlist their support in improving our company's performance
- ▶ Encouraging the adoption of similar principles by our suppliers
- ▶ Anticipating environmental issues and taking appropriate actions, which may precede laws or regulations to reduce our impact on the environment in all aspects of our environmental performance
- ▶ Reviewing and auditing our own operations on a regular basis to identify strengths and weaknesses in our environmental approach
- ▶ Supporting sustainable development, the responsible use of natural resources and energy conservation. We will consider potential environmental impact during all relevant business decisions
- ▶ Promoting programmes of waste minimisation and pollution prevention, including recycling
- ▶ Minimising energy wastage by promoting the efficient use of energy, water, and other resources
- ▶ Reducing our carbon footprint
- ▶ Committing to continual improvement in all aspects of our environmental performance

Our precautionary approach to environmental challenges includes ensuring a safe working environment for our employees. Ecorys UK recognises the importance of health and safety in the workplace and its duty to all employees, visitors, contractors and subcontractors under the Health and Safety at Work etc. Act 1974.

Ecorys UK recognises and accept its responsibilities as an employer under the general provisions of the Act, which imposes a duty on all employers to ensure, so far as is reasonably practicable, the health, safety and welfare of their employees at work. The Act also requires that employers ensure the safety of all other persons, who, though not employees, may be affected by their activities. To this end, we will:

- ▶ provide adequate control of the health and safety risks arising from our work activities and maintain safe, appropriate equipment and systems of work and ensure the safe handling and use of materials and substances
- ▶ consult with employees and others as appropriate, on matters affecting their health and safety
- ▶ provide information, instruction and supervision for employees and sub-contractors
- ▶ ensure that all employees and sub-contractors are competent to do their tasks by ensuring adequate training is provided
- ▶ allocate responsibilities and adequate resources for the implementation of the Policy
- ▶ review and report on the implementation of the Policy to achieve continual improvement in the company's health and safety performance.

Our environmental and health and safety policies are communicated to all our employees, suppliers and sub-contractors and is made available to the public. All our personnel understand their obligations under these policy statements and will review these policies on an annual basis.

5.3 Measurement of outcomes

Outcomes	Progress update
<p>1. Publishing an annual Environmental Performance Report, outlining our progress in reducing our environmental impact</p>	<ul style="list-style-type: none"> ▶ We published our annual Environmental Performance report in June 2021 ▶ Over the last 12 months, energy usage in our Birmingham office has been between 3000 and 4000kw/h lower a month than compared to the month of January 2020. Once the office fully reopens, January 2020 will be the baseline figure to which future months

will be assessed against for the rest of 2021. Due to the pandemic, it will not be possible to have a consistent annual total until at least 2022.

- ▶ Our energy supplier of electricity to the Birmingham office (Opus Energy) state on their website that their electricity is from 100% renewable resources
- ▶ Our London office, according to the landlord has very little that can be changed as it is already energy efficient. MA Energy is the company supplying electricity for 2020-2021 and their website claims that only 8% of their electricity comes from renewables compared to 100% of their previous supplier. This is the landlord's choice. Going forward Ecorys will seek to influence the landlord's choice of electricity supplier upon renewal
- ▶ The energy supply for our Leeds office is combined in the rental fees and therefore no energy usage data is available. The landlord chose EON as the electrical supplier. According to EON's website this company uses 100% renewable energy.
- ▶ Our Birmingham and Leeds offices do use gas energy for heating of the offices through radiators. The supplier is decided by the landlord. For Leeds this is Crown Energy who have a commitment to going green. The Birmingham office landlord uses Avanti Gas who are committed to sustainable business practices.
- ▶ All paper used in the digital printers within Ecorys UK offices is FSC and/or PEFC certified. This is supplied via Lyreco or Canon.

2. Ensuring that our staff are trained on environmental safeguarding and health and safety in the workplace through e-learning modules

- ▶ Ecorys UK Ltd is intending to obtain ISO 14001 accreditation by August 2021. A Project Manager and Environmental Champions have been appointed and work is now progressing on achieving this objective,
- ▶ We are also accredited to ISO 9001 with the requirement to demonstrate that we are committed to providing a professional work environment in all our offices, considering personnel safety and wellbeing, facility conditions, equipment, and IT software and hardware, with adequate training and instruction to your employees. This is audited annually by our awarding body

3. Ensuring that recycling is promoted within our offices through clearly labelled bins separating recyclables from general waste

- ▶ All bins are clearly labelled recyclable and general waste in all our offices
- ▶ We are now fully operational in using DocuSign (electronic document signatures) for a more secure and environmentally friendly way of signing contracts, thereby saving on paper waste and carbon costs
- ▶ Confidential shredding according to Shred-it has resulted in the recycling of paper that saves the equivalent of 39 trees in 2020. Down from the previous year due to the pandemic and working from home. So far in 2021 the total stands, up to May, at 17.5 trees.
- ▶ Ecorys UK can use First Mile for WEEE waste and toner bottle recycling. Our aim for the next twelve months will be to have all toner bottles from the office printers sent for recycling.
- ▶ There are no current changes being planned by the Birmingham office landlord in terms of supplier change. London – Ecorys UK determines its suppliers for waste. First Mile now take away the general waste from this office as well as the recycling – so only one journey is made. Ecorys chooses the recycling company for the Leeds office and general waste is dealt with by the landlord's contractor. All major waste suppliers used by Ecorys UK are ISO 14001 certified.
- ▶ Sixteen of the suppliers are ISO 14001 accredited according to their websites including Biffa, and First Mile. A none-waste example is Lyreco (stationery etc.) who aim to have no waste sent to landfill as part of their environmental policy. The aim for the next twelve months is that on return to the office, we reduce reliance on Amazon who appear to have no accreditation and who often use the wrong size box for delivery creating excessive waste including bubble wrap. Due to the pandemic little action has been made on this.

4. Monitoring energy use in our offices through comparing bills and statements

- ▶ The offices have been open with reduced staff capacity as a result of the COVID-19 pandemic. Restrictions are easing at the current time but the data for this year will be skewed by the low numbers of staff in the offices and the lockdown.

Our progress towards ISO 14001 certification

Ecorys has been working hard to obtain the ISO 14001 certification (the international standard that specifies requirements for an effective environmental management system (EMS))

In June 2021 we passed the first stage of the audit and received praise for our environmental policy and involvement of leadership in the setup and implementation of Ecorys' environmental management systems.

In the last two months we have:

- *Calculated Ecorys' total carbon footprint – this has helped us to set up our environmental objectives that are part of the Ecorys environmental policy*
- *Created a manual to explain how the environmental management system will work (i.e., policies, process, team etc.)*
- *Updated Ecorys' Environmental policy*
- *Raised awareness internally about our environmental objectives and environmentally friendly practices (e.g., cycle to work schemes)*
- *Found opportunities to volunteer in environmental projects*
- *Found activities and opportunities to reduce our CO2 emissions*

We will undertake further improvements to ensure that we pass stage 2 of the audit. Specifically:

- *We need to determine and establish methods, frequencies, criteria of what is to be monitored, measured, analysed and to evaluate our environmental performance.*
- *We need to establish, implement, and maintain internal audit programme, including the frequency, methods, responsibilities, planning requirements and reporting of internal audits. This includes carrying out a full set of internal audits of the EMS.*
- *We need to implement process for dealing with non-conformity this includes identification of root cause and taking adequate corrective action.*

6.0 Anti-Corruption

6.1 Principles

Principle 10: Businesses should work against corruption in all its forms, including extortion and bribery.

6.2 Practical actions

It is the policy of Ecorys UK to conduct all our business in an honest and ethical manner. This is codified in our **Anti-Corruption and Bribery Policy**. We do not tolerate any bribery or corruption and are committed to acting professionally, fairly and with integrity in all our business dealings and relationships wherever we operate; together with implementing and enforcing effective systems to counteract bribery. Our policy covers bribes, gifts and hospitality, facilitation payments and “kick-backs” and political donations. Our policy is designed to uphold the requirements of United Kingdom (UK) legislation, principally The Bribery Act 2010 which came into force in July 2011.

Ecorys will uphold all laws relevant to countering bribery and corruption in all the jurisdictions in which we operate. However, we remain bound by the laws of the UK, including the Bribery Act 2010, in respect of our conduct both at home and abroad.

We have identified that the following are particular risks for our business:

- ▶ Country risks in relation to our International Development Unit, Programme Management, and Communications operations
- ▶ Business opportunity risk due to the number of experts, associates, and contractors with whom we work
- ▶ Business partnership risks in respect of partnership arrangements including consortia and joint ventures

Our Board of Directors have overall responsibility for ensuring that our Anti-Corruption and Bribery Policy complies with our legal and ethical obligations, and that all those under our control comply with it. The Board of Directors have delegated this to a **Compliance Manager** who is responsible for the implementation and monitoring of the policy, and in dealing with any queries on its interpretation.

The prevention, detection and reporting of bribery and other forms of corruption are the responsibility of all those working for us including our suppliers. All workers are required to avoid any activity that might lead to, or suggest, a breach of this policy. Any employee who breaches this policy will face disciplinary action, which could result in dismissal for gross misconduct. Our staff and suppliers are made aware that we reserve our right to terminate our contractual relationship with workers or sub-contractors if they breach this policy and compliance with this policy

is in our standard terms and conditions for contractual relationships. Our zero-tolerance approach to bribery and corruption is communicated to all suppliers, contractors, and business partners at the outset of our business relationship with them and as appropriate thereafter.

We appreciate that the practice of giving business gifts varies between countries and regions and what may be normal and acceptable in one region may not be in another. We therefore apply a test in all circumstances to determine whether the gift is reasonable and justifiable. Matters of doubt are referred to the Compliance Manager before acceptance.

Training on this policy forms part of the induction process for all new employees. All existing employees receive relevant training on how to implement and adhere to this policy and must complete an online module on Bribery.

6.3 Measurement of outcomes

Outcomes	Progress update
<p>1. Monitoring the effectiveness of the implementation of our anti-corruption and bribery policy, regularly considering its suitability, adequacy, and effectiveness</p>	<p>► In September 2019 we recruited a Contracts and Compliance Manager to monitor and report on the implementation of our policies including anti-corruption and bribery. We now have a dedicated email inbox to deal with Contracts and Compliance issues including submitting contracts for DocuSign.</p>
<p>2. Ensuring that all employees and workers know that they are responsible for the success of the policy and ensuring that everyone understands the importance of working against all forms of corruption, through training and awareness-raising sessions, sharing and creating social media content on the issue.</p>	<p>► Our Compliance Manager continues to report completion rates of e-modules to the Ecorys UK Board which will help bring focus towards 100% completion rates</p>
<p>3. Ensuring that reporting and whistleblowing procedures relating to fraud, bribery and corruption will be dealt with in an effective and confidential manner</p>	<p>► We ensure that details of our Compliance Manager and Whistleblowing procedure is clearly outlined in all our Contract Management Plans</p>
