To our Stakeholders,

MPRL E&P, a leading company in the upstream energy sector of Myanmar, embraces the ten principles of the United Nations Global Compact (UNGC) in its commitment to be a responsible business and submits our Communication on Progress (CoP) Report every year as a participant since February 2016.

In our unwavering pursuit to contribute to the sustainable development of the host community where our operations exist and to society in which we live, we have identified our sustainability priorities in the areas of environment, social and governance (ESG) and key performance indicators which we will disclose within three months following the end of a calendar year in accordance with the Global Reporting Initiative (GRI) Standards.

Therefore, we would like to align our annual CoP deadline with our sustainability reporting cycle, and we hereby request the CoP deadline to be moved from 8 February 2022 to 8 January 2023.
