

Statement of support by the Chief Executive Officer (CEO)

Dear all,

I am pleased to confirm Grant Thornton Sweden's continued support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labor, Environment and Anti-corruption.

At Grant Thornton, we work to integrate sustainability into all parts of our business. This means that sustainability is part of our business strategy. We have defined our impact, what sustainability means to us, and worked in areas where we can make the biggest difference. In our business strategy, we have also highlighted the UN's global goals and selected the six that are most relevant to our operations.

In our Annual and Sustainability report, we describe our integrate approach where the Global Compact and its principles is a part of our strategy, culture, and daily operations. We also commit to share this information with our stakeholders through our website and other channels.

Yours sincerely,

Anna Johnsson

Chief Executive Officer (CEO)
