To our stakeholders

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

Control Risks is affiliated to several UN Global Compact Chapters around the world and is in the process of drafting one globally consolidated report which is due to be submitted by our head office in London to the UK Chapter in September 2021. Given the difference in the submission dates between the UK and Brazil, we hereby ask for an extension period until September 9th.

We reiterate our commitment to the Global Compact and its 10 Principles.

Yours sincerely,
